Website password: greenhouse.

9527 10th Sideroad R.R.# 5 Milton (Halton Hills) Ontario, Canada. L9T 2X9 www.brownridgegreenhouses.com

BROWNRIDGE greenhouses and nursery has been a family owned and operated company for over 50 years serving both garden centre and landscape trade. Our shipping season starts early March with the blooming of the Primula, Pansies and Hellebore and continues through May with over 1000 varieties of perennials, vegetables, and unusual annuals. In the summer, we carry a variety of larger potted annuals and 1st year flowering perennials along with a full selection of 1-gallon perennials and groundcovers. The fall brings a selection of Garden Mums and Flowering Kale in a variety of sizes. Shipping stops for perennials only when the ground freezes and they are put to bed for the winter.

The following people are available to assist you:

Doug Brownridge (Greenhouse Operations, Perennial Production) for all custom and contract perennial orders, information, and shipping.

Carrie Brandow (Seasonal Production, Accounts) for all information, availability and custom orders in seasonal production, account inquires.

Ordering

The best way for garden centers to order is from our availability lists. These are e-mailed late Friday for the following week, and available on our website with a simple password. The lists indicate if the plant is in bloom and sometimes have other good or bad comments. All prices are listed. The orders are picked in order of delivery, so it is better to take the order earlier in the week rather than later, as we do not guarantee availability. Generally, product is sold as available on a *first come-first-ship* basis.

All products having a size 4.5in or less are sold in full tray units. Single pot orders can be accommodated **EXCEPT** between April 19 and June 15. A 20% service charge may apply.

Not all products in this catalogue are available at all times.

Pre-Pricing Option

We offer pre-pricing for all plants at an additional charge of \$0.15/pot. All plants in pots 4.5" or greater will be marked with pot stickers, all sizes 4" and below will be marked with a pricing tag. You can select to have all plants priced or just a certain group i.e. only the gallon perennials. Pricing information must be supplied by you electronically, a minimum of 1 month prior to shipping season. Please call for more information.

9527 10th Sideroad R.R.# 5 Milton (Halton Hills) Ontario, Canada. L9T 2X9 www.brownridgegreenhouses.com

Delivery

Our delivery schedule is set as required within the GTA during the busier time we have a truck in this area almost daily. **Delivery charge of xx per rack will apply to all loads in the GTA.**

FULL TRUCK (20 racks) - your preferred TIME and DAY, whenever possible MINIMUM (April-May) - \$1400 -whenever possible, generally before the weekend. MINIMUM (OFF-SEASON) - \$1200 - as soon as possible.

BY CHANCE - Below minimum but we are going by your door before the weekend.

Delivery charge of \$100.00 applies. Will not deliver during peak season*.

LONG DISTANCE DELIVERY - Approximately more than 1hour from the greenhouse – north of Barrie, east of Whitby, west of Kitchener, south of Grimsby. For ALL long-distance deliveries please book your truck early in week so, we can combine loads and deliver before the weekend. Variable delivery charges apply- ask for quote.

Pick-Ups

Minimum Pickup: \$200 value.

NO orders picked up on a drop-in-basis.

Most times, orders placed by noon can be ready for 7:00am the next morning. Orders placed after noon can be ready for 12:00pm the next day. More time may be required during busy shipping time of April/May.

Credit Policy

Terms

All landscapers are C.O.D.

Visa/Mastercard accepted at time of shipment, Debit also accepted for pickup orders.

2% Visa/Mastercard fee applies to invoices paid by credit card more than 7 days past invoice date.

Accounts are net 30 days, after which a 2% per month service charge will be applied.

All prices are suggested list and are subject to change without notice.

Cancellation of an order or any part thereof within 24 hours of delivery or at time of delivery will result in a 20% restocking charge.

New Garden Centre customer credit policy

1ST year - all purchases are C.O.D. Visa may be used at time of purchase.

2ND year – upon approval, pay for 1ST order before 2ND order delivered or net 30 days whichever comes first. 2% service charge will apply to overdue accounts. Failure to comply results in all future orders being C.O.D.

3RD year - if there are no problems with previous year: Credit net 30 days, 2% per month service charge will be applied. Failure to comply will result in all future orders being C.O.D.

Claims

We cannot be held responsible for any amount greater than the purchase price.

We assume no responsibility for incidental losses.

Orders shipped during inclement weather will be at customer's risk.

For any quality claims or short shipment, we require notification within 48 hours of receipt of shipments.

For credit on quality claim, we will arrange for product to be picked up.

Flower Colour Leaf Colour 18/tray Variety Bloom Time Height 5.5"pot Space ASTILBE japonica © Tone 4 Most have large pyramidal-shaped plumes and vibrant colours. This is a short species with narrow sharply toothed, glossy dark green foliage. Use for borders and woodland. >< Europa Mounded, lacy green foliage with fragrant, rose-pink plumes. 24" 20" Green June-July. Peach Blossom Warm-toned blooms of peachy coral, plus ferny foliage with bronze highlights among the green. June-Sept. 24" Green XX**ASTILBE simplicifolia** © ● Zone 4 Have a compact habit making them excellent for a low groundcover or edging. Foliage is not as lacy as other types but darker in colour. Lovely shell pink blossoms. The rust seed heads add winter interest. The foliage is an excellent bronze-green. >< Sprite July-Sept. **ASTILBE thunbergii** • Zone 4 Large panicles of bloom have a drooping appearance and red flower stalks. >< Ostrich Plume A taller, later blooming beauty with pink drooping trusses. 18" Rose Green July-August ASTILBOIDES 👽 Zone 4 An unusual perennial, formerly known as Rodgersia tabularis. Best in a very moist area, even beside a stream or pond. In hot, humid summer regions this is best in partial shade. Will tolerate full sun with plenty of moisture and rich soil. Tabularis Forms a large specimen-sized mound of deep green circular, umbrella-like leaves. Big creamy white plumes of Astilbe-like flowers make an appearance in early summer. White Green July 36" 35" **ASTRANTIA (Masterwort) ©** ● Zone 4 Masterwort is highly regarded by floral designers for the unique umbels of starry flowers, a bit like a refined Queen-Anne's-Lace in effect, but not at all weedy in habit. Ideal groundcover for a woodland garden in dappled sun. Major 'Ruby Wedding' Stunning ruby-red flowers with a suggestion of white at the base of each petal held on wiry, branched stems above lobed, mid-green leaves. May rebloom late summer. June-August 24" Red Dark green 36" Produces umbels of pincushion-shaped white flowers with magenta-purple tips, arranged like spokes on a wheel. Major 'Star 'of Beauty' Purple/white Dark green June-August 20" 22" AUBRIETA (Rock Cress) 🌣 🖭 Zone 4 Low, evergreen mat-forming, blooms form a solid mound of colour. Excellent in borders and rock gardens. Audrey Sky Blue Large flowers on compact, uniform plants produce a good display of color. Lt. blue April-May 6-8" 24" Grey-green XXGlacier Series 4-8" 12" Red Grey-green April-May XX Sky Blue Grey-green April-May 12' XX 12" Violet April-May 4-6" Grey-green XX Royal Mix Dense mats of evergreen foliage with profuse flowers in spring. 4-6" 24" April-May Assorted Grey-green XXWhitewell Gem Dense cushion of cascading foliage is smothered in flowers in spring 4-6" 12" Pink April-May Grey-green AURINIA saxatilis (Perennial Alyssum) Done 3 Forms a low, trailing mound of silvery-grey leaves, bearing masses of bright-yellow flowers in mid to late spring. Clip plants lightly after blooming to maintain a bushy habit. Requires good drainage. Compact silvery mats are smothered by fragrant yellow flowers Mountain Gold Gold Grey-green May-June Summit Forms a low bushy mound of grey-green leaves, smothered by masses of tiny, bright golden-yellow flowers for several weeks. Is compact and has excellent disease resistance. Grev-green May-June BAPTISIA (False Indigo) 🗢 🖸 Zone 4 Thrives in poor, dry locations but resents being moved once established. Australis 2010 Perennial Plant of the Year. Dark spikes of blue flowers bloom over blueish-green foliage creating a blue mound of colour early Blue June-July 48" 36" Green XXXXTwilite Praireblues Forms a tall and bushy clump of healthy blue-green leaves, bearing long tapering spikes of violet purple flowers with yellow markings. 36-42" Yellow/violet Grey-green June-July 36" XX

3.5"pot Variety Flower Colour Leaf Colour Bloom Time Height 18/tray 5.5" pot Space **BELAMCANDA chinensis** Digital Zone 5 Derives its name from the clusters of shiny black seeds exposed when seed capsules split open. Even though it is called a lily it is actually in the Iris family. Fan-shaped iris like foliage. Brightly coloured orange and yellow speckled blooms. **Blackberry Lily** 12" Orange/yellow August BELLIS (English Daisy) De Zone 3 Used for bedding with spring-blooming bulbs, massing, edging, dislikes hot weather. Bellissima Mix This strain flowers well even in the first year, with cute little double button flowers of bright red, pink or white. 6" Green May-June XX This strain flowers well even in the first year, with cute little double button flowers of bright red. Bellissima Red May-June 6" 10' Red Green xxBellissima Rose This strain flowers well even in the first year, with cute little double button flowers of rose. 10' May-June 6" BERGENIA (Pig-squeak) 🜣 🖭 Zone 3 Incredibly hardy, and reliable evergreen. The winter leaves are a valuable addition to cut flower bouquets. Most effective when mass planted or used as an edging along a walkway. Bressingham Ruby This exceptional British selection has rich, deep burnished maroon winter colour, turning deep green for the summer. In early spring, short stems of magenta-pink flowers rise above the shiny foliage. Pink 12-14" Green May-June **Bressingham White** Foliage is red in winter and early spring. Flowers are pure white and held on taller stems, clear of the foliage White May-June 10" 14" Green XX Cordifolia Plants form a low clump of bold, leathery green leaves, which often turn bronze during winter. Short stems of magenta-pink flowers rise above the shiny foliage in mid spring. Pink 12-18" 18-23" May-June Cordifolia 'Winter Glut' Shiny evergreen, cabbage-like leaves with unique leathery appearance. Turns reddish bronze in fall and winter. Bright red flowers. Red Green May-June 20" 18" Cordifolia 'Shoeshine Features strong stems of deep rose blooms rising above the glossy, dark green foliage in mid spring Rose' Green May-June 20" This selection forms a low clump of green leaves, which develop rich plum-red tones in the winter. Taller stems of bright pink, double to semi-**Dragonfly Sakura** double flowers rise above the shiny foliage in mid spring. This Bergenia was introduced to the market by Terra Nova Nurseries of Oregon. The blossoms reminded them of cherry blossoms and since that is "Sakura" in Japanese, that's what they named it. May-June BRUNNERA (Siberian Bugloss) Zone 3 Light blue flowers resembling forget-me-not cover these beautiful low clumps of heart shaped leaves in the Ideal for the moist, shaded area. Low-maintenance Frostbite brings attractive silver foliage to the shade for years of enjoyment. Mixes seamlessly into a wide range of shade garden Frostbite designs. Bright blue flowers are an extra bonus in Spring! Blue 12" Silver-green May-June Hapsen Cream Variegated leaves with creamy-white margins. Plant has good stability and is good for shady borders or open woodlands. 12" Green/cream May-June 14" Jack Frost 2012 Perennial Plant of the Year! Heart-shaped silver leaves, delicately veined with mint green. Handles more direct sun that most other variegated types of Brunnera 15" 15" Blue Green-silver May-June **Jack Of Diamonds** Proven Winner Variety! Sold in Proven Winner pots. A giant version of the classic 'Jack Frost'-with a twist. The huge 9-10" leaves overlap dramatically at the base giving it a shape like the snail delicacy escargot. Overall, the foliage is circular from a distance. The leaves have a heavy silver overlay with vivid wide, dark green veining pattern. From mid to late spring, baby blue, forget-me-not type blossoms are held in clusters above the foliage. Blue Green-silver May-June Macrophylla Common brunnera has green leaves with silver overlay. 12" 12" Green May-June A clump of very thick, heart-shaped leaves that are green-on-silver with pronounced veining. Sprays of two-tone pink and blue Forget-me-not Sea Heart flowers appear in spring. This is a choice collector's plant, but an easy-to-grow perennial that performs well in all but the driest of shady areas. 6-12" 12-23" Blue/pink Green-silver May-June XXVariegata Huge leaves with irregular creamy white leaf margins, some leaves are almost entirely cream. 12" 12" May-June Green-cream CALAMINTHA (Calamint Savory) 🗢 © Zone 5 Close cousins to the garden mint, but without the nasty spreading habit. Useful towards the front of the border, or in a woodland setting among Hosta or ferns. Also attractive in mixed containers. Remove any all-green shoots as soon as they are noticed, since this plant has a tendency to Nepeta Perennial Plant of the Year 2021! Compact mounds of tiny white flowers blush with a hint of blue with age. Very fragrant foliage. July-frost 14" Forms an upright, bushy mound of soft green leaves, splashed with creamy white. Rosy-pink flowers are studded on short spikes among the leaves. Variegata White-green

Leaf Colour 18/tray Variety Flower Colour Bloom Time Height 5.5"pot Space CAMPANULA Carpatica (Bellflower)♥ Zone 2 One of the most popular Bellflowers. Plants form a low, cushion-shaped mound of small green leaves, with loads of up-facing, open bells appearing in early summer. Excellent choice for the rock garden, edging and in containers. Will bloom longer if old blooms are removed. Wonderful true-blue flowers cover this plant. Improvement on the 'Clips' series Rapido Blue 12" Green July-Sept. Rapido White Pure clear white flowers. Improvement on the 'Clips' series. Green 12" July-Sept XXXX **CAMPANULA Garganica** Done 4 Dickson's Gold Golden toothed foliage offers a stunning contrast to small lavender blue flowers. Needs afternoon shade to keep its golden colour. Chartreuse June-August 6-8" CAMPANULA Glomerata 🌣 © Zone 2 Will produce a low clump of large green leaves. Medium-tall upright stems appear in early summer. Plants will quickly form a large clump, so allow plenty of space when planting, or plan to reduce the size each spring. Plants may benefit from a hard clipping back immediately after blooming, to maintain a low, compact mound. Superba Large, showy clusters of rich purple funnel-shaped flowers. Good cut flower. Blue Green June-July 18" CAMPANULA Persicifolia 🌣 🖸 Zone 3 Forms small clumps of low-growing foliage sending up tall stems of bellflowers in shades of white, blues and violets. Leaves at base of plant are larger and broader than stem leaves. Takion Blue Compact strain, with the classic cup-shaped violet-blue bell flowers but with a showier outfacing habit. 20" Blue Green June-July Takion White Compact strain, with the classic cup-shaped white bell flowers but with a showier outfacing habit. White 20" 12" Green June-July xx CAMPANULA Poscharskyana (Serbian Bellflower) 🜣 🖭 Zone 4 This is a vigorous plant, keep it away from delicate alpine plants that could be accidentally smothered. Blue Waterfall Lovely cascading habit. A gush of cool blue, bell-shaped flowers cascade from the center of the plant. Green July-Sept. XX**CAMPANULA Punctata** De Zone 4 Pink Octopus Zone 5 Weeping buds, the thin, bright candy pink petals spray downward in dancing swirls against a cool background of deeply cut, dark green foliage. 12-15" June-July Green CENTAUREA (Bachelor Button) Description 2016 Thistle-shaped bloom, long lasting cut flower, cut back will re-bloom Amethyst Dream Vivid amethyst flowers on soft green foliage. Grey-green June-July Unique color combination of satiny white petals surrounding a deep royal purple center. Amethyst in Snow 28" White-purple Grey-green June-July XXMontana Blue An erect, clump-forming perennial which features solitary, fringed, rich blue 2" cornflowers with reddish blue centers. Green June-July XX**CERASTIUM (Snow in Summer)** Discrete Zone 2 Very drought tolerant. Excellent groundcover. Silvery Summer Low, silver-grey plant with white flowers in late spring. Cascades over walls nicely. Cut back hard in the early spring for best results. Grey May-June 8" CERATOSTIGMA (Leadwort) © Zone 5 Deep blue flowers, foliage turns maroon red in fall. Nice ground cover or in front of border. Plumbago Versatile groundcover with intriguing leaves and breathtaking gentian-blue flowers. In autumn foliage turns brilliant scarlet.

3.5"pot 5.5" pot Variety Flower Colour Leaf Colour Bloom Time Height Space 18/tray DELPHINIUM (Larkspur) New Zealand Hybrids Delphiniums are bred by New Zealand Delphiniums and are hand crossed to produce the highest quality seed. These F1 hybrids have excellent form, strong stems, and a vigorous growth habit. They were selected for their improved tolerance of heat and humidity, while retaining their cold hardiness. Produces tall spires of frilly white flowers with black bees. The stems are very strong, holding up well in the landscape. Planted en masse, they **≫** Black-eyed Angels make a magnificent display in early summer. 18" White/black eye Green June-August 4-6ft Blue Buccaneers Dark electric blue flowers hold black bees on strong flower spires. Since it is from seed, some lighter blues may appear. Compared to 'Cobalt Dreams', 'Blue Buccaneers' is more compact, has black bees, and has a more intense blue color. July-August Blue Lace Densely packed spires of true sky-blue flowers with a touch of lavender pink are presented on very strong stems in early summer. Removing spent flower spikes will result in another round of blooms on secondary spikes in late summer and fall. Its large, deeply incised leaves make this plant attractive even when it's not in bloom. July-August Produces strong, tall spires tightly packed with cobalt blue florets with brightly contrasting white central bees. They draw your attention from quite Cobalt Dreams a distance and add terrific architectural presence to the garden in early summer and fall. Uniform color and form ensure a stunning display whether planted singly or en masse. Blue/White July-August Bold spires of very dark bluish-purple flowers with white or brown bees stand up to 6' tall, adding a dramatic presence to the landscape in early Pagan Purples summer. Approximately 10% of these flowers will be either white or pale mauve and are often double flowered. 60" Bluish purple Green July-August **Purple Passion** Intense, deep purple blossoms with a purple and white striped bee. The densely packed flower spikes are produced on very strong stems that do not require staking. Deep Purple July-August Green DIANTHUS barbatus (Sweet William) Diane 3 Biennial, Excellent for cutting. Remove fading flowers to encourage more buds to form. Pruning plants back hard after blooming will encourage them to survive for another year. Self-sown seedlings may be moved in fall or early spring. Double Dwarf Mix Produces a low mound of light green leaves, bearing showy clusters of bright double flowers in mixed shades from white through to pink, salmon and red, often with a contrasting eye. Assorted Green June-July 6-8" 12" Mixed shades of red and pink blossoms held upright over mounds of rich foliage. Indian Carpet Mix 12" Assorted Green June-July XX **DIANTHUS Caryophyllus (Carnation)** Sone 4 Very nice clove fragrance. Dislikes heat. Grenadin Mix Lovely clove-scented favorites in a rainbow of colors. Grev-green June-July 12" DIANTHUS gratianopolitanes (Cheddar Pink) . Zone 3 Cheddar pinks are best in rock gardens, border fronts or in some difficult sites such as rocky slopes or over stone walls. Effective small area ground cover. Also, an effective edging plant. Perennial Plant of the Year 2006! Spreading low growing form with blue green foliage and magenta blooms Firewitch Silver-grey May-June xxXX

Flower Colour Leaf Colour 18/tray Variety Bloom Time Height 5.5"pot Space **ERYNGIUM** (Sea Holly) Zone 4 Prickly flowers are a favourite for cutting & drying, very drought tolerant, attractive in border. Good for high salt **≫** Big Blue Eryngium Big Blue has a surprisingly iridescent blue flower. With blue stems and silver leaves. It is a spectacular and long-lasting cut flower. 24-30" 18-24" Blue-green July-August Blue Hobbit Small flowered but with intense blue colour in the garden. 18-24" Blue-green July-August XX **EUONYMUS (Wintercreeper)** ♥ ■ Zone 4 Can be used as a shrub or trained as creeping ground cover or to climb. Forms a dense carpet of dark green leaves with a course to medium texture. Foliage turns dusky purple during the colder months Coloratus Green **EUPATORIUM (Boneset)** One 3 Native, meadow plant. Provides excellent colour to the late summer garden. Masses of lavender-pink flowers in late summer. Attracts butterflies. Atropurpureum (Joe Pye Weed) Lavender-pink Green Aug.-Sept. Chocolate Tall masses of chocolate-purple leaves with shiny deep purple stems and petioles, followed in autumn with huge heads of small white flowers. 24" Chocolate August-Sept 3-4ft Gateway Huge bright mauve pink flower clusters atop deep wine-red stems. More compact and shorter than others in this species. Lavender-pink Green August-Sept. 3ft 24" Little Joe A dwarf cultivar of a species of our native Joe Pye weed. Has the familiar large domes of lavender-pink flowers that attract lots of butterflies 3-4ft Lavender-pink August-Sept. EUPHORBIA (Spurge) De Zone 5 Colourful flower heads sit on top of foliage. Foliage turns rich purple-red in fall. Flashy green and yellow variegated foliage takes on pink and orange tones in cool weather. Unique variegated bracts appear in large clusters in Ascot Rainbow Green-yellow May-June Green Myrsinites (Donkeytail Oval, blue-green, fleshy, succulent-like leaves are arranged in close spirals around the stems. Non-showy greenish flowers subtended by showy Spurge) yellow bracts bloom in spring. Yellow 6-8" 18-24" Grey-green Iune Polychroma Commonly called cushion spurge, is a mounding, clump-forming perennial which typically grows in a dome (or cushion) shape to 12-18" tall and as wide on erect, sturdy stems bearing oblong, downy, medium green leaves (to 2" long). Bronze-green June FERN Adiatum Pedatum 🗣 Zone 3 Ferns play an essential role in shade gardens. Not recommended for fall planting. Prefer rich moist soil. Northern Maiden Hair A great cold hardy fern that is native to large areas of the U.S.A. and Canada. This pretty, dainty and delicate fern has vivid bright green leaves on thin and wiry, shiny black or dark brown petioles (stem). The fronds are feathery and circular; grow outward in a flat, fan-like position. FERN Athyrium • 20 Zone 4-5 Ferns play an essential role in shade gardens. Not recommended for fall planting. Prefer rich moist soil. Filix-femina 'Frizelliae' One of the most distinctive ferns. Narrow fronds on which the pinnae(leaflets) are rolled up tightly together. Look like delicate beads strung on a (Tatting Fern) necklace. 12-18" 12" Angustum forma Dark green upright fronds with deep burgundy stems. Burgundy colour takes 2-3 years to develop. Rubellum 'Lady in Red' 30-36" 20° Green Filix-femina -Lady Lush fine-textures, mid-green fronds radiate gracefully, arching out from the crown. Vigorous but spreads slowly. 12-18" 12" Green Niponicum 'Crested Proven Winner Variety! Sold in Proven Winner pots. First Proven Winner perennial fern. Looks similar to a traditional Japanese Surf Painted Fern, but the tips of the fronds are double crested. A vigorous, taller variety. 28-30" Silver-grey Purplish-red veins and stems. Niponicum Picum Perennial of the Year 2004! Silvery-grey fronds are dusty purple toward the centre.

Flower Colour 18/tray Variety Leaf Colour Bloom Time Height 5.5"pot Space HEDERA HELIX (IVY) ♦ • Zone 5 Excellent groundcover, will also climb a wall. One of the hardiest of the English Ivies. Evergreen. Green 6-8ft+ 12" xx HELENIUM autumnale (Helen's Flower) Zone 3 Excellent for massing in borders and backgrounds. This compact variety is part of the MariachiTM Series and features spicy, red petals with a hit of orange surrounding a dark brown cone. → Salsa Green August-Oct. HELIOPSIS (False Sunflower) Done 4 False Sunflowers are reliable for their very long season of bloom. Removing faded flowers regularly will greatly extend the blooming season. May require staking, particularly when grown in very rich garden soil. A North American native plant. Proven Winner variety sold in 'PW' pots. This beautiful and carefree native cultivar offers a more compact habit and good disease Tuscan Sun resistance compared to other varieties of Heliopsis. Bright golden yellow, daisy-like flowers with an orange-gold button center are produced on strong stems from mid through late summer atop the deep green foliage. Green July-Sept. 24-36" 20-24" HELLEBORUS © Zone 5 One of the finest low-growing, early-flowering plants in cultivation. No garden should be without one. 3-4" flowers last for 8-10 weeks. Evergreen. Easy to grow requiring shade and occasional water. CAUTION: Harmful if eaten/Skin irritant. A sturdy hybrid is gorgeous both in leaf and in flower. It forms a low mound of leathery evergreen silvery-green leaves with red stems. Large ballardiae 'Pink Frost' outfacing single soft-pink flowers appear in early spring, gradually ageing burgundy red. Quite possibly hardy to Zone 4. 12-16" 18" Green March-May ericsmithii Forms wide clumps of dark green foliage topped with stalks of buds that begin rosy pink and open to a creamy white with pink backs. 'Champion' 12-16" XX hybrid 'Irish Luck' Single green flowers with a central burgundy flare. 18-22" 20" Green Green April-June hybrid 'Ivory Prince' A truly regal beauty whose up-ward facing ivory flowers are flushed with pink, and streaked with green and rose hues which deepen with time. Green April-June 12-18" 24" hybrid 'Rosemary' Helleborus Rosemary is the best hellebore introduction in the last five years and one of the most unique of all hellebores with incredible numbers of white-veined pink cup-shaped flowers that deepen to glowing salmon tones. The flower heads are more upward looking than other varieties, it has inherited the longer flower period of its H. niger parentage and it produces a much greater number of flowers than others. 18" 12-18" April-June. Rose pink Green Has large cup-shaped white flowers that are said to be particularly early to appear, depending on the season niger 15-18" 18" White Green April-June. x niger Snowbells Semi-double, pure white flowers measure 21/2-3" across, with five petals and additional petaloids at the center. Unlike H. hybridus types, these flowers are naturally side-facing versus downward-facing, so you can enjoy the bright white flowers with little effort. Very early flowering. Green April-May. 10-12" 12" x niger Snow Love Creamy white to yellow blooms. As the blooms mature, they develop a celadon green patina and remain attractive on the plant well into spring. White-green Green April-June. 15" 15" XXVictoria A new Helleborus oriental variety is according to the breeder striking for its mass of purple flowers. Specifically bred to begin flowering in fall, it tolerates full sun and is a Niger-Cor hybrid which makes it very hardy in northern climates. 10-12" Purple-Pink Nov-May. Green HELLEBORUS 'Frost Kiss Series' © Zone 5 The Frost Kiss series is a late blooming hellebore with unique marbled foliage that remains attractive all year round. hybrid 'Bayli's Blush' Lavender-pink blushed and creamy white flowers.

HELLEBORUS 'Winter Jewels Series' © Zone 4 The Winter JewelsTM Hellebores have been carefully hand-bred from only the best plants collected from around the globe in order to produce a range of new and exciting flower forms and colours. These form a mound of leathery, evergreen foliage bearing upright stems of large, saucer-shaped blooms from late winter through spring. Great in part shade. Site these where they will stay for many years, since the plants resent being disturbed. Trim the old leaves to the ground in late winter before the buds emerge, to allow the flowers maximum impact. Bred by Hellebore hybridizer Marietta O'Byrne of Oregon. CAUTION: Harmful if eaten/Skin irritant.

Cherry Blossom	Leathery, evergreen j	foliage. Single pink bloo	ms with a cherry-red pico	tee edging and re	d centres.		
	Pink	Green	March-June	12-14"	18"	-	XX

HEMEROCALLIS – Common (Daylillies) © Zone 3 These hardy perennials have large and attractive blooms that are similar to lily flowers. They are very easy to grow, many of the forms are tolerant of almost total neglect and will still be seen thriving in a neglected garden long after most of the other cultivated perennial species have been chocked out by the invading native plants. All parts of the plants are edible though it is the flowers that are most frequently used. Daylilies also have a number of other uses and, all in all, deserve to become a standard plant in edible and ornamental gardens.

Undersides are shiny and deep purple. Smoky purple buds and cream flowers Cream Purple-black June-July 10"(18") Pink Panther Semi-glossy leaves emerge metallic pink and mature to a dark berry pink with darker veins. Pink Pink-Purple June-July 10"(28") 16" XXPlum Pudding Rich plum-purple leaves with a shimmering metallic finish. Sprays of creamy flowers appear in June. Plum-purple June-July 8"(25") Primo 'Peachberry Ice' Proven Winner variety sold in 'PW' pots. Large 41/2-5", apricot orange leaves have a silver overlay. Its beautifully pronounced ruffling reveals bright pink undersides of the leaves. The bright orange color is most pronounced in the spring with newly emerging foliage, over the warmer months the color mellows. Burgundy stems hold airy, cream flowers. 8"(18" Cream orange June-July Primo 'Mahogany Proven Winner variety sold in 'PW' pots. Massive glossy, mahogany red leaves form a substantial clump of foliage. Slightly ruffled Monster' leaves can grow up to 6 inches wide. The flower stems are proportionate to the size of the clump: very thick, burgundy stems hold masses of light pink buds with cream flowers. Although the color is consistent throughout the season, older leaves become copperier with age. Mahogany Red June-July 8"(20") Primo 'Wild Rose' Proven Winner variety sold in 'PW' pots. Forms a dense habit of large, bright rosy purple leaves with deep charcoal gray veining. The prominent dark veining really causes the foliage color pop, making it a great choice for shade. Purple June-July 10"(18") An impressive red Heuchera consisting of massive heavily textured leaves. 5-7" wide burgundy red leaves have a coppery finish with newly Red Dragon expanding leaves showing a silvery overlay. White flowers on tall scapes. Site in loose, well-drained soil for the best performance. Burgundy June-July 12"(26") Silver Scrolls Rounded leaves are silver and burgundy in spring, deepening to silver and near black later in the season. Sprays of ivory-pink flowers appear in late spring, held on beet-red stems. 18" Ivory-pink Silver-bronze June-July 10"(14") Timeless Series The Timeless Collection boasts different colors such as purple, yellow, black, and silver. Each has a reblooming flower performance like their predecessor with similar sizes for ease in combination. Berry Timeless A myriad of light pink flowers which age to a deeper rose red are produced in tight wands on 18-20" scapes. Lt Pink Purple-Black 7" (20") June-July Timeless Glow Chartreuse yellow foliage has a silver overlay and matures to lime green. Foliage color is best in partial sunlight, and greener in full shade. Intense, rich rose pink flowers contrast beautifully with the bright foliage. 7" (20") Rose-pink Chartreuse June-July Timeless Grape Shiny, dark purple leaves with charcoal veining. Bright rosy pink flowers are produced on dark purple stems. Flower height is proportionate to the size of the plant. 10" (20") 16" Rose Purple June-July XX Timeless Night Deep black leaves form a compact mound of foliage. Beautiful medium pink flowers are held on dark pink calyxes.

HIBISCUS (Rose Mallow) Proven Winner varieties Zone 4 All Sold in Proven Winner Pots. Their large stature and dinner plate sized blossoms make them the talk of the neighborhood from midsummer to early fall as they flaunt their tropical looking blossoms. Hummingbirds and pollinating bees are attracted to the colorful flowers, but deer typically pass them by. Not available for sale until mid June.

Ballet Slippers	This hardy perennial fit	's the need of providin	g a Hibiscus lineup with ned	ar-white bloon	ıs. Huge 7" wide, ru	ıffled flowers are white	e with a deep
	red eye. The edges of the petals are edged with blush pink. Combined with the heavily overlapping petals, this creates a pinwheel effect on the						
	flowers. Attractive, head	lthy leaves are bright g	green with slightly serrated ea	dges. A polish	ed, upright habit and	d extremely high bud	count with
	good axillary branching	ensures that this Hil	biscus will have a longer seas	on of color, fr	om late summer thro	ugh early fall. Flower.	s are produc
	from the top to the botto	om of the plant, rather	r than just at the top like son	me other cultii	vars.		-

HOSTA (Plantain Lily) Specimen © ■ Zone 3 One of the most popular perennials for the shade gardens. Hosta offer an amazing palette of colours, sizes and textures. They can be used in beds or containers. Please note for height – the number in brackets is the height of the bloom scapes, the number outside is the foliage height. Happy Dayz Leaves have yellow centres and darker green margins. Similar to 'Ornge Marmalade' but with wider and more blue-green margins. Light lavender flowers in midsummer. Pale lavender Green/gold 18"(32") Iuly Island Breeze A sport of Paradise Island'. The improvements in this cultivar include more impressive variegation due to its wider margins, thicker leaf substance, and a strong growth rate. Wide, dark green margins stand in sharp contrast to the bright yellow centers in early spring. As summer approaches, the centers become more chartreuse when plants are grown in heavier shade or lighter yellow if they are grown in more sun. Like Paradise Island', this one also has showy red speckled petioles that bleed up into the leaves. Dark lavender flowers appear on reddish green scapes in midsummer. Lavender Green/yellow July-August 12"(28") 18" **Ivory Coast** A stunning sport of Hosta 'Sagae' with a very wide margin that can turn nearly white when grown in some bright light. It is similar to Hosta 'Liberty'. Pale lavender Green/cream **Tune** 2001 Hosta of the Year! Wide, jetting blue-green margins and chartreuse centres in spring. Centres turn gold in summer. Blu-green/lime 15"(20") Pale lavender July-August xxJune Fever A nearly all yellow sport of June' with a very narrow blue-green margin that jets towards the midrib. Leaves are shiny and good substance. Darkens to chartreuse in mid-summer. Lavender Yellow/green July-August 15"(24") Komodo Dragon Leaves are rounded with a twisted tip, blue-green to gray-green with a rippled edge. It is a vigorous grower that will develop into a huge clump. 60" Lavender Blue-green June-July 26"(30") Lakeside Paisley Print 2019 Hosta of the Year! This stunning Hosta produces heart-shaped leaves with very wide, wavy, green margins. The narrow, creamy white markings in the center of the leaves shoot out from the cream colored petioles in a feathery pattern. Purple White/green June-July 10"(22") Liberty 2012 Hosta of the Year! A sport of 'Sagae' with wide, jetting, yellow margins which lighten too creamy white. Leaves are of heavy substance for good slug resistance. Blu-gren/cream 26"(40") 36-48" Lavender June-July Loyalist Textured heart-shaped leaves remain white in colour with showy dark green variegation throughout the season. Reverse of Patriot. 24" 18"(24") Pale lavender Green/white July Mini Skirt This petite and flirty Hosta forms a miniature mound of very wavy, thick, blue-green leaves with creamy yellow margins in spring. In summer, the center turns greener, and the edge lightens to creamy white. Pale lavender flowers with deeper purple stripes appear closely packed together on short, very proportionately sized scapes in early to midsummer. Lavender Green/yellow Mr. Big This huge specimen selection has thick, quilted blue-green leaves. Near white flowers in August. White 24"(36") Blue August Old Glory Heart-shaped leaves with golden-yellow centres and irregular 1" wide, dark green margins. Green/yellow 14"(24") Light lavender July Orange Marmalade Leaves emerge all green then quickly develop a yellow centre with a hint of orange and a green margin. 17"(26") Light lavender Green/gold July 32" xx Paradigm 2007 Hosta of the Year! Thick gold leaves with jetting blue-green margins; variegation intensifies later in the spring. 36" Light lavender Green/gold July 20"(24") 1999 Hosta of the Year! Leaves are blue-green with a chartreuse centre in spring. By summer, they turn darker green and the centres Paul's Glory brighten to gold. 25"(40") Pale lavender Green/gold July Prairie Sky It forms a tight clump of powdery blue, lightly cupped leaves of thick substance and it keeps its showy color all season long. Pale lavender flowers top the clump in mid to late summer. Lavender Blue 14"(36") August **Praying Hands** Hosta of the Year 2011! Upright, narrow, tightly folded leaves resemble hands folded in prayed. The dark green leaves are heavily rippled with very thin, gold margins. Lavender Green August 16"(18") Rainbows End Hosta of the Year 2021! This unique Hosta exhibits incredibly variegated, shiny foliage. The bright yellow leaves of good substance have dark green margins that jet into the center, and the center brightens to creamy white in summer Green/gold 11"(19") Purple July Rainforest Sunrise Hosta of the year 2013! Leaves emerge light green, then quickly develop dark green margins and a radiant gold centre. As they mature, the thick leaves become lightly cupped and heavily puckered. Pale lavender 8"(18") Green/gold Regal Splendor Hosta of the year 2003! Frosty blue leaves with wavy, narrow, creamy yellow to ivory margins. Vase-like plant habit. 36"(72") 36-48" Blue Lavender July-August Revolution Dark green leaves have large, cream centers with soft green speckling in the spring; speckles darken by midsummer. Best color is achieved in open shade. Leaves are of heavy substance, possibly a tetraploid. Lavender, tubular flowers are borne on 22" scapes in midsummer. Lavender Blue July-August 18"(22") 30" XX Hosta of the Year 2000! Huge, wavy, frosted blue-green leaves with yellow to creamy with margins. Sagae Lavender 28"(45") August XX green/cream

3.5"pot 18/tray 5.5" pot Variety Flower Colour Leaf Colour Bloom Time Height Space IRIS Ensata (Japanese) 🌣 🖭 Zone 4 Nearly every gardener who sees Japanese iris in bloom wants to try them. The huge blossoms can be dinner plate size, but 6-8" is common. They require neutral to acidic soil, and lots of moisture until blooming time is over. Plants will be happy at the waterside, and can even be grown in pots sitting in water. Produces magnificent deep blue blooms of up to 15cm (6") across, borne upon stiff, upright stems. Like all Japanese Iris, this large-flowered Dinner Plate Blueberry Pie variety is at its best in a damp border or in the moist soil close to the edge of a pond. Great for colour and drama in early summer months. 24" Green June-July The wide, speckled blooms of Iris ensata Dinner Plate "Tirimasu" are quite exquisite! Each bloom boasts white petals, edged with a mauve Dinner Plate Tiramisu picotee margin, reaching up to 15cm (6") across. The upright stems and slender, grassy foliage bring a lovely vertical element to planting schemes that adds movement and texture. With a neat clump-forming habit, this hardy perennial makes a superb addition to a damp border or the moist 32" 18" White/mauve Green June-July Variegated Forms a vigorous clump of grassy green and white-striped leaves, hearing drooping purple flowers. Purple Green/cream June-July XX IRIS German (Tall Bearded) 🬣 🖭 Zone 4 When planting German Irises, be sure to leave the top 25-50% of the rhizome exposed above soil level. Water sparingly and avoid excess moisture during fall and winter. Harvest of Memories Radiant yellow self with widely ruffled petals. Slightly sweet fragrance. Vigorous grower with high bud count. Dependable fall re-bloom Yellow 38" Green 18" June Immortality Ruffled, pure white self with pale lemon-yellow beards. Strong sweet fragrance. Good re-bloom. White Green 29" 18" June xxPink Attraction Profuse, pretty pink blooms erupt from abundant buds. Well-formed, ruffled and flared iris are of moderate beight. Re-bloomer 36" Pink Green Tune XXSuperstition Black-purple flowers with a hint of maroon. 36" 18" Purple Green June XXVictoria Falls Very large, light blue standards and falls are reminiscent of magnificent waterfalls. White beards are highlighted by a patch of white in the centre of each pale blue fall, mimicking the glimmer of sunlight off rushing water. Re-bloomer Green 18" IRIS Pallida (Sweet Iris) 🜣 🖸 Zone 3 Variegated forms of the tall, bearded irises. Albo Variegata Foliage is boldly edged with pure white and occasional streaks of dusky gray green, the flat, sword-like leaves radiate out from the crown like a fan. Beautiful light blue-lavender bloom with a fuzzy orange beard and sweet scent Cream/green 34' Lavender-blue June XX Aureo Variegata Striking golden variegated foliage with green and creamy yellow stripes making it attractive even when not in bloom. Lavender blue flowers. Lavender-blue Gold/green 34' 18" June IRIS Sibirica (Siberian) 🌣 🖭 Zone 3 Siberian irises prefer moist to boggy soil. They tend to bloom after the German iris and before the Japanese iris. Their slender, spiky leaves add wonderful texture to a landscape. **Butter and Sugar** Creamy white standard, butter yellow falls and greenish yellow veins. 18" Creamy yellow Green XXCaesar's Brother Deep purple self and a yellow and white blaze with black veining. Purple Green Mid-June 24" XXJewelled Crown 3-5" flowers have rich wine purple standards and falls with lighter purple-blue styles. Semi-flaring falls display prominent white and yellow signals with purple veining. 18" Purple Mid-June xx Ruffled Velvet Dramatic red-purple standard, velvety darker purple falls and a black and gold blaze. 18" Purple Mid-June Green XX IRIS Versicolor 🜣 🖸 Zone 4 Best grouped in sunny areas of ponds or water gardens. Also may be grown in moist border areas. Gerald Darby The best ornamental feature of this selection is its spring foliage, which ranges from dusky purple to purple-black (usually, the cooler the weather, the darker the foliage). The flowers are rather delicate-looking, in a purple-blue color. July 24-30" Green Versicolor (Harlequin This is a wildflower of Eastern North America, and one of the few native iris species in garden cultivation. Although happiest at the waterside, Blue Flag) or actually growing in shallow water, plants will also perform well under average border conditions. Clumps of tall sword-like leaves are produced, hearing medium-sized flowers with bright violet-blue, ruffled petals. Might begin to naturalize in waterside areas that are to its liking. In smaller water features, consider growing this in large pots submerged to the rim. Purple July Green **KNAUTIA** macedonica ♥Zone 4-5 Thunder & Lightning Light green leaves shaped like lightning bolts are outlined with creamy yellow to white margins which remain all season. Deep reddish purple, rounded flowers about the size of a quarter appear atop wiry stems above the contrasting foliage from early summer into fall. Green/cream 12"-18 Burgundy

Flower Colour Leaf Colour 18/tray Variety Bloom Time Height 5.5"pot Space KNIPHOFIA (Red Hot Poker) Zone 6 Bottle-brush shaped flowers, over sword shaped leaves. Assorted Green August-Sept. 12"(30") Papaya Popsicle A poker with a twist! An all-summer bloomer which has a very short compact habit. A prolific bloomer with spikes of flowers the color of ripe papayas. Orange/red Green July-Sept. 16"(24") 18" Red Hot Popsicle Lively, cinnamon red flowers on short, compact plants for the smaller garden. Narrow grassy leaves. Free blooming and re-blooming. Loved by hummingbirds! Red Green July-Sept.. 12"(18") 18" LAMIASTRUM (Dead Nettle, False Lamium) © Zone 3 A bardy upright spreading groundcover for part to full shade. It can withstand drought conditions therefore good for under trees and other difficult sites. Tiered whorls of hooded, butter yellow flowers in late spring with silver splashed, bright green foliage. Can be invasive. Galeobdolon (Yellow Archangel) Green/silver May-June 12-15" 12-18" Herman's Pride Forms a neat spreading mound. Yellow flowers appear briefly in the spring over green foliage with a silver overlay. 12" 12-18" Green/silver Yellow May-June XX LAMIUM (Spotted Dead Nettle) © Zone 4 Excellent weed smothering groundcover. Good for edging, walls, containers. Not suitable for rock gardens. Small leaves that are brightly marbled with light and dark green, chartreuse, and silver. Clusters of mauve-pink flowers appear in spring. Anne Greenway Pink Green/silver May-June 6-8" 12-23" Beacon Silver Silvery leaves with narrow, green margins provide a los vely backdrop for the lavender-pink, hooded flowers. Lavender-pink Green/silver May-June 6-8" 12-18" xxGhost Larger grower. All silver leaves topped with clusters of large, bright orchid purple flowers in spring. 10-14" 12-18" Orchid purple Silver May-June xxPink Pewter Soft, shell pink blooms over greenish grey foliage edged with silvery grey. Light pink May-June 6-12" 18-24" Grey/silver XXPurple Dragon Dense spikes of rich purple flowers and silvery foliage. Deep purple Silver/green May-June 6-8" 12-18" xxSmall silver leaves with narrow green edging. Clusters of purplish-pink flowers appear in spring. Red Nancy 6-8" Purple-pink May-June Silver/green XX White Nancy Nearly all silver leaves with narrow, blue-green margins topped with pure white hooded flowers in spring. Particularly dense growing variety. May-June 6-8" White Silver/green xxLATHYRUS (Sweet Pea) Decome 3 Flowers are very similar in appearance to the annual Sweet Pea but lack the fragrance. Requires a support to climb. Delicate flowers in shades of rose, pink, and white. Blooms prolifically all summer long. Splenden Mix 12" LAVANDULA Angustifolia (English Lavender) Zone 5 🌣 A small aromatic evergreen shrub with gray-green leaves. Suitable for edgings, herb gardens, and containers. Deer resistant. Grosso Evergreen, perennial shruh with gray green foliage and abundant spikes of fragrant, purple flowers from fat showy buds that attract butterflies. Silver-grey June-Sept. xx* Hidcote Very fragrant, deep violet-purple flower spikes. Silver-grey foliage remains compact. Violet-purple Silver-grey June-Sept. 16 14" XXMunstead Rich lavender flower spikes over compact silver-grey foliage all summer long. Thought to be the hardiest of the lavenders. 12-16" Silver-grey June-Sept. Remarkable fragrance and flower presentation above uniform mounds of silvery foliage in spring and summer, it is truly 'Phenomenal' for fresh 3< Phenomenal and dried flower arrangements, oils, and culinary delights - and of course, the perennial border or patio container! Extremely tolerant to heat & humidity with superior winter survival and hardiness to Zone 5 24-36" Silver grey June-Sept. Forms a sizeable bushy mound of grey-green foliage, with narrow spikes of light mauve-purple flowers. Choose a location with excellent Provence drainage. Plants should be clipped back by half in spring. The narrow spikes and strong stems make this a good choice for weaving Lavender wands. Particularly attractive growing beside other Lavender selections with deeper coloured blooms. Silver grey June-Sept. XX Boasting the largest purple flowers of this hybrid group with bright silver foliage. Sensational Silver grey 36" Purple June-Sept. XX Silver Mist This rare and unique selection has fragrant, silver foliage with purple-lavender flowers for many weeks, blooming a little later than other varieties. Prune lightly in early spring, no harder than 4 inches.

Variety Flower Colour Leaf Colour Bloom Time Height 18/tray 5.5" pot Space LEPTINELLA (Black Brass Button's) 🗢 Zone 5 Brass Buttons are low, carpeting perennials that are perfect for planting along the edge of pathways, or using in between flagstones. Because of its spreading tendency, keep this away from slow-growing alpine plants that might get smothered. Easy to grow in any soil that does not completely dry out. Easily divided by digging up the clump and ripping into smaller pieces in spring or early fall. Evergreen. Suitable for high traffic areas for grass replacement. Platt's Black Feathery foliage of an unusual bronzy-black shade, bearing insignificant green flowers during the summer. Purple Iuly XXLEUCANTHEMUM (Shasta Daisy) 🖾 🖭 Zone 5 A standard for the garden. The classic summer daisy. Blooms can be single or double and bloom on long stems suitable for cutting. May require staking if grown in rich soil. Thrive on full sun but can do well in partial shade. Attractive to butterflies. Alaska Praised for its consistently healthy disposition, heavy production of large 5" flowers and robust habit. Green July-August 3< Becky Perennial Plant of the Year 2003! Durable in hot, humid summers. Large single white blooms on strong stems. No staking required. 24" July-August White 36" Green XXNo two blooms are alike on this fringed and frilly, semi to fully double variety. 2" wide, solid white flowers with buttery yellow centre. Prolific Crazy Daisy Green July-August 24-28" 24" Freak Large white flowers bloom are evenly all over compact, well-branched plants. Reblooms, providing flowers over a long period. Dark green, toothy foliage provides excellent contrast. From Blooms of Bressingham. White Green July-August Madonna (Formerly Chrysanthemum maximum) Uniform in height and habit, this variety exhibits excellent tolerance to summer heat and humidity. Flowers are the classic, large single white daisies with a yellow eye, valued in the garden and excellent for cutting. May require staking if grown in rich soil. Attractive to butterflies. White Green July-August Snow Cap This is an especially compact selection, with masses of single white flowers, each with a yellow centre. 12" Green July-Sept Spoonful of Sugar The first thing you'll notice about this cute Shasta Daisy is the enormous flower size. The second thing you'll notice is its incredibly compact, dome-like habit, with flowers produced almost all the way to the ground. 4.5 in, creamy white flowers have two rows of very long petals. Flowers are held tight and compact against the attractive, dark green foliage, with a second wave of flowers following the initial wave. July-Sept 16" White Green Whoops-a-Daisy Forms an exceptionally dense, rounded ball-shaped mound of dark green foliage that becomes completely blanketed in large 3.4", white flowers with gold centers from early through midsummer. It has better flower coverage and a more uniform habit compared to 'Snowcap', and the individual flowers have a fuller, fluffier appearance. Green July-Sept LEUCANTHEMUM (Shasta Daisy) Proven Winner varieties 🌣 🖭 Zone 5 Sold in PW pot. A standard for the garden. The classic summer daisy. Blooms can be single or double and bloom on long stems suitable for cutting. May require staking if grown in rich soil. Thrive on full sun but can do well in partial shade. Attractive to butterflies. Banana Cream II Flower buds are lemon yellow and eventually brighten to creamy white. Improvements include being more floriferous, holding the yellow color longer, a more appealing habit, and earlier to start flowering. Green July-August This is a super compact, highly floriferous selection. 3" wide, single, pure white, daisy-like flowers with a gold button center formed a solid dome Daisy May of bloom atop these plants. Will bloom from spring to fall with deadheading. Green June-Sept 14" Marshmallow Large, 31/2" fully double, bright white flowers absolutely cover the medium-sized habit. 20" White Green July-August xx LEWISIA 🜣 💿 Zone 4 Evergreen rosettes adorned with small, round-petaled blossoms in summer. Native to the alpine regions, it requires perfect drainage and full sun. An excellent plant in crevices of rock gardens and retaining walls. Little Peach Soft peach flowers blended with pinks and orange. Heavy flower production on compact, upright stems. Pink-orange May-Sept. 6' Green Little Plum They form low, fleshy rosettes of tough evergreen leaves, bearing large star-shaped flowers in late spring and early summer. This selection features flowers of cotton-candy pink, touched with salmon when they first open. May-Sept. 10" XX Rainbow Mix Mixture of many colours and forms from round flowers to semi-double and from white and yellow to pink, red-orange to blue-red. Assorted May-Sept. 6-9" 10" LIATRIS (Blazing Star, Gayfeather) Done 3 The flower spikes of liatris are unique in blooming from the top down. They are prized cut flowers. The tall stems have narrow leaves. Excellent choice for a border or informal garden in full sun and moist soil. Adds a strong vertical element to the garden. Floristan White Multiple wands of creamy-white flowers. Cream-white Green July-Sept. 36-48" 12" Kobold Long lasting spikes of rosy lavender flowers. Rose-lavender July-Sept 18-24" 12" XX

Variety Flower Colour Leaf Colour Bloom Time Height 18/tray 5.5" pot Space NEPETA (Catmint) 🕏 Zone 4 The many selections of Catmint are well-known workhorses in the perennial garden, providing extended bloom as they knit and weave themselves beautifully through taller companions. Cat's Meow Proven Winner Variety! Sold in Proven Winner pots. Low maintenance selection; naturally keeps its tidy, dense rounded shape all season. Grey-green, aromatic foliage is topped with well-branched stems carrying sky blue flowers with purple calyxes for months. May-Sept. 17-20" Grey- green Cat's Pajamas Proven Winner Variety! Sold in Proven Winner pots. Ball-shaped habit carries long, dark flower stems with indigo blue flowers. Compared to 'Cat's Meow', it has a smaller growing habit and blooms 2-3 weeks earlier. Blue 12-14" 18 Grey- green May-Sept. In its first year, 'Purrsian Blue' forms a small, perfectly rounded, densely branched clump of tiny, green leaves. In year two, the plant maintains its faassenii Purrsian Blue compact mounding habit but nearly doubles its spread to just over two feet across. This is a very floriferous selection with flowers spaced closely together. Periwinkle blue flowers are coddled by dark purple calyxes just above the aromatic foliage from early summer into early fall. Blue Grey- green May-Sept. 14-18" 18-30" Junior Walker's This selection of Catmint is a sterile dwarf of N. Walker's Low' and only reaches approximately 40cm (16 inches) tall. It features blue-green leaves that are highly aromatic when crushed or bruised so an excellent addition planted along a garden path. Small pale lavender flowers are densely clustered and bloom from May to September. Shear back the initial flower spikes for continuous bloom. 16" Lavender-blue Grey- green May-Sept. Walker's Low Perennial Plant of the Year 2007! Grey-green, aromatic foliage on long, arching stems. Lavender blue flowers are produced over a long period of time. 24" Lavender-blue Grey- green June-Oct. ORIGANUM (Ornamental Oregano) Zone 5 This plant forms a low trailing mounds foliage. Perfect for rock gardens or other areas of excellent Kent Beauty Draping powdery blue-green foliage with drooping heads of hop-like flowers in a blend of shrimp pink, green, and cream. 12-18" Blue-green June-August PACHYSANDRA (Japanese Spurge) 🗨 🕈 Zone 5 Japanese Spurge is the most widely planted evergreen groundcover. Excellent under trees and in nearly any other shady site. Tolerates poor soil, but slow to establish and spread. Space closely, at 10 to 40 plants per square yard in order for plants to fill in reasonably quickly. Terminalis Plants form an attractive low patch of shiny dark-green leaves, bearing clusters of white flowers in spring. PAEONIA (Garden Peony) Zone 3 Garden peonies are classic garden plants that add a bit of nostalgia and charm to the garden. They will form a large clump with large, beautiful blooms in June. Bowl of Beauty A fragrant and neatly formed combination, these Japanese-style peonies have a layer of soft pink petals cupped around the large and bushy paleyellow center. Single Pink June-July Coral Sunset A favorite of the breeder, this outstanding peony produces intense sunset coral, semi-double blossoms with rose overtones and a fluffy boss of deep yellow stamens in the center. The lightly fragrant flowers are long lasting in fresh houquets. 'Coral Sunset' blooms early in the peony season. It is highly prized for its exemplary plant habit. Coral Green Iune Duchess de Nemours Fragrant, white, globe-shaped blooms with green carpels and a yellow centre glow. A prolific bloomer. Double White Green June-July 34" XXFestiva Maxima Noticeably fragrant, fully double, white blooms with red drizzled throughout the centre. Massive, loose flower form. 34" Double white/red Green June-July 24" XXFrancoise Ortegat A breathtakingly beautiful variety, deep purple-crimson that dates back to 1850! The large double flowers, often described as semi-roses, have golden stamens for an extra dash of colour. Softly fragrant, strong stems and beautiful foliage. 34" Deep purple Green June-July Large, bright watermelon red flowers which are fully double appear on strong, dark green stems in early summer. The color is sunfast, ensuring top Kansas performance, and it contrasts well with the mid-green foliage. 32" 20" Green June-July Karl Rosenfield Brilliant fuchsia-red blooms are a double, semi-rose type. Mildly fragrant. 34" 24" Double Red Green June-July xxPink Hawaiian Coral Double flowers in an appealing salmon to coral-pink shade, held on strong stems. 32" 24" Pink Green June-July Primevere Incredible double selection feature's ivory outer petals and a sulphur-yellow centre. June-July White/yellow 34" 24" Lush raspberry and vanilla colored 7" double blooms surrounded by beautiful green foliage. Raspberry Sundae 34" Pale Pink Green June-July Sarah Bernhard Gigantic, double, apple blossom-pink flowers. 2004 Dried Cut Flower of the Year! Double Pink Green June-July 34" XXShirley Temple Highly fragrant, large, double flowers are pale pink when they emerge then lighten to white as they mature. Highly floriferous, vigorous variety. Double Pale pink 32" June-July 24"

PULMONARIA (Lungwort, Bethlehem Sage) © Zone 3 Lungworts are excellent plants for the 7, the wild garden, and as ground covers. They can be used on sloping ground shaded by trees—a difficult site for growing most other plants. Bertram Anderson Outstanding for mass plantings! Be dazzled by a sea of gentian blue flowers emerging from fuchsia buds in late spring. Like other P. longifolia, 'Bertram Anderson' has long, narrow leaves heavily spotted with silver, and it tends to bloom a couple of weeks later than other species. Green/silver May-June 8-10" Majeste Solid silvery-grey leaves with a narrow green margin. Light pink buds pop open to darker, bluish pink. 8-12" Green/silver May-June Pink-a-Blue Proven Winner Variety! Sold in Proven Winner pots. Pink flower buds open to medium blue flowers in early spring. Buds and blooms appear at the same time for an alluring two tone effect. Following flowering a robust habit of long green leaves dappled with silver spots will hold interest for the remainder of the growing season. The silver spotted foliage is perfect for brightening up the shade and resistant to both browsing deer and rabbits. Blue May-June 16-18" Green/silver Pretty in Pink Large flowers stay consistently pink throughout the season. Dark green leaves are moderately speckled with silver. 14-16" Pink Green/silver 24-28" May-June xxRaspberry Splash Clusters of up facing deep raspberry-pink bells, the narrow green leaves are heavily spotted in silver. Pink Green/silver May-June XXSissinghurst White Clean white flower bells. Extra large silver leaf spots on mounding foliage. White Green/silver May-June Proven Winner Variety! Sold in Proven Winner pots. Flowers open a unique deep salmon pink that matures to a rich blue color. Spot On Silver speckling dusts the green leaves. This is one of the first Pulmonaria to have near-orange flower buds. Use the speckled foliage as an accent for other shade plants after its bloom season. Salmon/blue Green/silver May-June 14-16" Trevi Fountian Large clusters of cobalt-blue flowers, set over a clump of pointed green leaves, heavily spotted with silver. Mounding habit, good vigour. Blue Green/silver May-June 10-12" 18" XX Twinkle Toes Starting in mid-spring, dainty light periwinkle blue flowers cover a low, mounded habit. After the flowers fade, you can enjoy its dark green leaves that are lightly sprinkled with silver. 12" Blue Green/silver May-June PULSATILLA (Pasque Flower) 🜣 🖭 Zone 3 Cupped-shaped flowers in early spring are followed by attractive feathery seed heads. The soft lacy foliage emerges with more vigour after the blooms appear. Alba (White Bells) Pure white blooms on hairy stems and ferny foliage 12" White April-May 9"(12") Green Rubra (Red Bells) Wine-red, cup-shaped flowers with yellow eyes float above silvery fern-like foliage 10" Deep Red Green April-May 8"(12" Violet Bells Purple flowers with contrasting yellow centres. 18' Purple April-May 9"(12") Green XX RATIBIDA (Pinnate Prairie Coneflower) © Zone 3 Prairie native A slender, hairy-stemmed plant bearing flower heads with drooping, yellow rays surrounding a roundish to ellipsoid, grayish central disk darkening to brown as rays drop off. Yellow June-Sept. RODGERSIA (Rodger's Flower) 🖾 © Zone 3 A beautiful perennial with bronze-tinted, palmate foliage that has a prehistoric look to it. The flowers are large, fluffy panicles on long stems. Tough and long lived, Rodgersia is well suited for planting around a pond, in a moist border or in a woodland garden in full sun or partial shade. ★ aesculifolia Chestnut-leaved Rodgersia, this forms an exotic-looking clump of bold green foliage, supporting an airy plume of creamy-white flowers in midsummer. Green **July** >< Pinnata 'Bronze Peacock' A shiny, bronzy beauty! The darkest foliage of any Rodgersia. The leaves are thick, glossy, indented and make a great sculptural addition to your woodland garden. Pink flowers emerge in late spring above the mound. In spring, the huge bronze leaves emerge like a peacock's tail! Zone 5. Pink Bronze July 22"(50")

18/tray 5.5" pot Variety Flower Colour Leaf Colour Bloom Time Height Space SALVIA - Proven Winner varieties Done 3 Proven Winner Varieties. Sold in Proven Winner pots The Perennial Sages are invaluable perennials for their rich display in the border. They form bushy mounds of grey-green leaves, with spikes of flowers in early summer, attractive to both butterflies and hummingbirds. Plants are reasonably drought tolerant, once established. Darkest pink in the Colour Spires collection. Fushia pink flowers on dark charcoal stems over a canopy of dark leaves. ★ Colour Spires 'Back to the Fushia' Dark Pink Green June-July Colour Spires 'Crystal Blue' Unique light sky blue coloured flowers (most perennial Salvias are darker purple. 18-24" Green June-July Perfect Profusion This series reblooms multiple times throughout the summer if the flower stems are cut back. Dense flower stems are covered in icy-blue flowers. Compared to 'Crystal Blue', it has thinner flowers and a rounder habit. 16-20" Blue Green June-July Pink Profusion Dark pink flowers and dark pink calyxes. Uniform, rounded clump of aromatic, rugose green foliage. Green June-July 14-16" 16-20" XXWhite Profusion This Salvia will reflush with flowers if sheared back and will do so many times. A full, round habit that's unbothered by deer and rabbits make it a perfect choice for the early summer garden. 22" White Green June-July Violet Riot Produces a riot of vivid violet blue flowers with deep purple calyxes from late spring into early summer. Compared to the industry standard 'May Night', it has a much denser habit, a more concentrated show of color, and a neater habit in containers. June-July XX**SALVIA pratensis** © Zone 3 Midnight Model Striking violet blue flowers are produced in a round, dense clump. An improvement over other blue Salvia on the market. 12-24" Green June-July. SANGUISORBA Zone 4 The ornamental Burnet or Bottlebrush are just beginning to be used here in North American gardens. Plants prefer a moist site. Clumps may be easily divided in early spring. Cut foliage back if it gets tired-looking after blooming. Ideal for the middle of a sunny border, or in containers. Rabbit resistant. Forms a low mound of lacy grey-green leaves, bearing bottlebrush spikes of soft-pink flowers in summer. 24" July-August Green Officinalis 'Pink Tanna' Upright stems, dark pink flowers with pale pink stamens in mid summer. Attractive fern like foliage. Green July-August xxSAPONARIA (Rock Soapwort) \$\tilde{\times}\$ Zone 3 Forms a nice patch of semi-evergreen foliage that works well as a filler between stones on a path, in the crevices of walls, or in rock gardens. It is called soapwort because crushing the leaves with water will form a lather that was once used as soap. Thrives in full sun. Ocymoides Thick, oval, dark green leaves covered with single pink flowers. Rapidly growing ground cover. Green June SAXIFRAGA (Mossy Rockfoil) ©Zone 5 Mossy saxifrage forms a soft green cushion. Flowering in spring, it does well in rock gardens or at the front of borders. It prefers partial shade with moist, well-drained soil conditions. Light pink and white flowers on compact short stems. A very uniform, mounded plant. Lofty Pink Shades Green 12" Shades of pink May-June 6"(9") XX Lofty White Blush Very uniform with short, large, white flowers. 6"(9") 12" White May-June Green SCABIOSA (Pincushion Flower) 🜣 Zone 4 Excellent for the front to mid border. Good cut flowers. Attracts bees and butterflies. Drought tolerate once established. Benefits from deadheading. >< Butterfly Blue Lavender blue, pincushion -like flowers hover over a short mound of ferny basal foliage all summer long. Lavender-blue Green June-Sept. 8"(18")

3.5"pot

3.5"pot Variety Flower Colour Leaf Colour Bloom Time Height Space 18/tray 5.5"pot

SEDUM (Creeping Stonecrop) Done 4 The creeping Sedums come in a large range of foliage colours and textures. Easy to grow, they prefer full sun and drier soil conditions. These low-growing succulents are a good choice for green roofs, rock gardens or containers. As a ground cover, they can be mixed and matched for a tapestry effect that will catch

5.5" pot Variety Flower Colour Leaf Colour Bloom Time Height 18/tray Space SEDUM (Creeping Stonecrop) 🜣 Zone 4 The creeping Sedums come in a large range of foliage colours and textures. Easy to grow, they prefer full sun and drier soil conditions. These low-growing succulents are a good choice for green roofs, rock gardens or containers. As a ground cover, they can be mixed and matched for a tapestry effect that will catch the eye. Takesimense 'Altantis' Small, serrated leaves are dark green with very wide creamy yellow margins. From a distance, the margins are what catch your eye. You may notice that the creamy margins become tinged with pink blush tones with cold temperatures late in fall. yellow/green Sept.- Oct. Vera Jameson Forms a medium-height, non-spreading clump of powdery, mahogany-purple leaves. Dusky-pink starry flowers appear in late summer, Mahogany June-August 6-8" SEDUM Proven Winner varieties Zone 4 Proven Winner Varieties! Sold in Proven Winner pots. Rock n' Grow Midnight A tall upright Sedum. Rich, dark purple leaves comprise the domed habit, adding garden interest from the moment they appear in spring. Velvet Beginning in late summer clusters of mauve buds cover the habit, before bursting open with rose red flowers. After bloom seedbeads appear a dark red color. Leave seedheads standing for seasonal interest and as a food source for birds in winter. UV light is required to see true foliage color; leaves will be more green in too much shade. Purple Rose -red August Rock n' Low Boogie A fantastic summer-flowering groundcover type that will definitely make your garden feel groovy. This sport of Little Miss Sunshine' has cream margins that make the plant look bright and yellow all over and are sprinkled with yellow flowers during early to midsummer. A fantastic, Woogie variegated option for a groundcover in the landscape. Perfect for rock gardens! Green/cream June-July 6-8" Rock n' Round Popstar Dense mound of creamy grey buds that burst open into salmon pink flowers. Flowers mature into darker pink seed pods. Darker hued counterpart of 'Superstar' 12" Pink Turquoise August-Sept Rock n' Round Pride and Same habit, serrated leaves, and bloom time as Pure Joy' and Bundle of Joy', but with darker leaves and darker pink flowers. Rose-Pink Turquoise August-Sept Dark turquoise succulent leaves have a smoky gray overlay with rosy pink flowers with hot pink carpels. Dark purple seed heads extend the color Rock n' Round Superstar long have it has finished blooming. Although compact, 'Superstar' is more of an intermediate groundcover, more in line with the height of the popular 'Pure Joy'. Pink August-Sept 10" Rock n' Round Pure Joy Forms a low, rounded mound in spring, growing to just under 1' tall by summer. Light green leaves become covered in a dome of bubblegum pink flowers followed by pretty seed heads. 10" 12" Pink Blue-green Sept.-Oct XX SEDUM upright (Autumn Stonecrop) 🌣 Zone 4 Tall, upright sedums form substantial clumps of foliage which can be substituted for shrubs in the landscape. Their stout, sturdy stems support the massive flower heads which develop in summer and burst into bloom in fall. If left standing, they provide winter interest and food for birds. Autumn Charm This variegated sport of top-seller 'Autumn Joy', discovered by Intrinsic Perennial Gardens, is very stable and incredibly shony. The grey-green leaves have butter yellow, serrated edges and form an upright clump just like its parent. In August, panicles of cream buds top the entire clump, then open to light pink flowers in September, followed by russet red seed heads in October. Green/yellow Sept.-Oct. This showy variety of upright sedum has chartreuse-yellow leaves with a narrow, blue-green, serrated margin. The leaves are presented on thick, Autumn Delight upright stems. In late summer, cream buds open to large clusters of light pink flowers which almost completely cover the entire clump of foliage. Bronze seed heads extend the plant's interest well into winter. 24" Chartreuse Pink Sept.-Oct. Similar to 'Autumn Joy' but selected for it tighter growth habit, thicker foliage and more brightly coloured rosy flower heads Autumn Fire 24-30" 24" Deep rose Blue-green Sept.-Oct. XXAutumn Iov One of the most popular perennials. Flowers are deep rose when young, aging to a beautiful bronze. Seed heads remain attractive in winter. 24" Deep rose Blue-green Sept.-Oct. 24" Dark Magic This outstanding dwarf selection has multiple crowns of dark pink flower clusters and glossy purple-black leaves. Purple-Black Aug-Oct. 10-12" 18-20" Frosted Fire A variegated sport of 'Autumn Fire'. This plant shares the same brightly colored rosy flower heads, tighter growth habit, and thicker foliage as 'Autumn Fire'. Light green leaves with creamy yellow, serrated margins form a dense, upright mound 15" Pink Sept.-Oct. 18" Cream/green Hot Stuff A very compact form of stonecrop, one of the shortest varieties on the market; flowers range from hot pink to fuchsia and command attention against the green foliage of the plant. Fuchsia Blue-green Sept.-Oct. 12" Produces a low mound of blue-grey, oblong leaves that tint purple in summer. Clusters of rich rose-pink flowers are held on strong, compact stems in Marina late summer. Even the dried seed heads have good winter effect. Good cut flower, also attractive to butterflies. Rose-pink Blue-Green Aug-Sept. 10" 22" Matrona Sturdy, upright grower that has grey-green leaves infused with rosy pink and purple stems. Flower clusters are mauve-pink aging to chocolate. 18-24" 20" Sept-Oct. Grey-green Mr Goodbud This terrific compact Sedum has blue-green foliage with reddish edges and red tinted stems and is topped with eye catching magenta-purple flowers in late summer. Very unique flower colour. 18" Magenta purple August-Sept. 18"

3.5"pot

Flower Colour 18/tray Variety Leaf Colour Bloom Time Height 5.5"pot Space SEDUM upright (Autumn Stonecrop) Zone 4 Tall, upright sedums form substantial clumps of foliage which can be substituted for shrubs in the landscape. Their stout, sturdy stems support the massive flower heads which develop in summer and burst into bloom in fall. If left standing, they provide winter interest and food for birds. Upright variety with vivid rosy-magenta pink flowers and light green leaves. Neon Magenta pink Light green Night Embers This late season bloomer can be admired for its strictly upright habit of dark black-purple, semi-glossy succulent leaves. Small clusters of light mawe pink flowers are produced on deep red stems, the perfect accent color to the darkly colored foliage. Flowers are produced on the top half of this tall Stonecrop, with no lodging. With a narrow base and a vase-like habit, this perennial combines well with shorter companions in a limited space. Pink Black-Purple Sept.-Oct. 24" 24" Night Light Deep olive-green leaves on dark purples stems that hold clusters of light yellow flowers. Mature flowers have blush tones. Unlike other Sedum that lodge during flowering season, 'Night Light' has stocky stems and holds its dome-like shape late in the season. 22-26" Olive green Sept.-Oct. Thundercloud Native to the Far East, forms a strong, compact mound of heavily serrated, grey-green foliage. Billowy clouds of white star-like flowers that are lightly flushed with pink appear in summer. 10" 18" White Green August-Sept. **SEMPERVIUM (Hens and Chicks)** ♥Zone 3 Green centers with dark black, red tips Black Green -black 3-4" 12" August Named for the fine, white, cobweb-like hairs that criss-cross between the leaves' tips. Each rosette of pointy blue-green leaves grows about 1" wide. Cobweb Colour may vary per season. Rose-red flowers. 3-4" 12" Blue-green Rose-red August XX Killer Forms rosettes of narrow, succulent leaves that change from nearly black, purple-red with blue-green tips to mottled red and green, varying with the season. Black-purple-red August 3-4" 12" XXPacific Blue Ice Unique cupped form and produces rounded rosettes. Leaves are icy, blue-green with centres flushed rose, especially in cooler temperatures. Pink Blue-Green 3-4" 12" August XX from season to season. These rosettes have a rounded, semi-loose form. Piloseum Forms medium to large rosettes of grey-green leaves. This color may vary 3-4" 12" Pink August XX Purple Beauty Semi-open rosettes of succulent leaves with deep purple tips and green centers. This color may vary from season to season. This variety requires especially sharp drainage. 12" Pink 3-4" August xxXXRuby Heart Forms rosettes of sharply pointed silvery blue to blue-green leaves which are flushed rosy red at the base. This colour varies by season, intensifying in cold temperatures. 3-4" Pink Blue-green/red 18" August Red Beauty Medium sized, fairly open rosettes of grey-green leaves with blood-red tips. 3-4" 18" Pink Green/red August Silverine Forms rosettes of sharply pointed silvery green leaves which are flushed with reddish-purple at the base. This colour may vary from season to Dark pink Green/purple 12" August SIDALCEA (Prairie Mallow) Zone 4 Prairie Mallows are related to Hollyhocks, and produce spikes of similar satiny flowers, though smaller in size, held on compact, bushy plants. Party Girl This strain has flowers in a range of shades from pink to magenta-red. Stems are upright, and nice for cutting. Attractive to both butterflies and hummingbirds. Prune back hard after blooming, and plants may flower a second time in the fall. Green June-August SISYRINCHIUM (Blue-Eyed Grass) 🖾 © Zone 5 Not really a grass, these are close cousins to the more familiar garden Iris. Great for areas with hot, humid summers. Use as an accent plant along walkways or in rock gardens. Rabbit resistant. Lucerne Bright purple-blue, star-like flowers top the dark green, grass-like foliage of this long blooming perennial. 12" Purple-blue Green June-July STACHYS (Lamb's Ears) © Zone 4 Good ground cover for dry, sunny spots.

Leaves are velvety soft, silver and shaped like lamb's ear. Tends to spread more quickly than other varieties. Non-flowering cultivar, it

Velvety soft, greenish leaves twice the size of 'Silver Carpet. Non-flowering cultivar, it occasionally sends up a flower stalk.

3.5"pot 18/tray 5.5" pot Variety Flower Colour Leaf Colour Bloom Time Height Space STACHYS officinalis 🖾 🖸 Zone 4 A cousin to the familiar Lamb's-Ears, but not at all similar. This is a clump-forming perennial, forming a low mound of crispy green foliage. Removing faded flowers will encourage more buds to form for weeks on end. 'Hummelo' Perennial of the Year 2019! In early summer the upright spikes of tiny, two-lipped, rose-lavender flowers appear in dense spikes atop mostly leafless flowering stems rising well above the foliage. Purple Iune-Iuly STOKESIA (Stokes' Aster) 🜣 Zone 5 Blooms are similar to asters but have a leafy bract around the bud. Useful in borders or containers, it requires light, moist, well drained soil. Starting in [uly 'Colour Wheel' sends up branched bloom stalks which open almost pure white. As the days progress, the same bloom fades to Colour Wheel lavender, then to deeper lavender and finally to purple. During the lavender and purple stages, new white blooms open on the same bloom stalk. The overall effect is as many as five different colors on the same plant green White to purple July-Sept. HoneySong Purple A true royal purple flowers with a hint of red towards the centre that darkens as it ages. The contrasting white stamens and purple-tinged stems add to its appeal. The individual flowers measure 4 inches across and have petals with deeply serrated edges. 14" Purple Green July-Sept. 12" XXMary Gregory Distinctive soft yellow flower over nicely mounding deep green foliage. 12-18" 12" Pale vellow Green July-Sept. XX Peachie's Pick Has typical lavender-blue, stokesia-type flowers but they bloom longer and a bit later in the season. Upright habit and attractive green foliage. 12-18" July-Sept. Green TANACETUM (Painted Daisy) 🌣 Zone 5 Painted Daisies are old-fashioned perennials that have always been popular as cut flowers. Foliage is bright green and ferny, with upright stems bearing loads of single, yellow-eyed daisies. Remove faded flowers to encourage more buds to form. Plants may be trimmed hard after blooming to rejuvenate the × Robinson's Single Mix 2.5", daisy-like flowers with bright yellow centres. Ferny, green foliage much like yarrow. 18" Green June-July хx Robinson's Red Crimson 2.5", daisy-like flowers with bright yellow centres. Ferny, green foliage much like yarrow. * June-July 18" THALICTRUM (Meadow Rue) © ■ Zone 4 With attractive leaves and delicate flowers, Thalictrum is perfect for the back of the border or woodland garden. The foliage resembles a tall Columbine and the flowers are small but plentiful, in airy clusters excellent for cutting. **Black Stocking** Produces rather tall clumps, with near-black stems that bear huge clusters of bright lavender-magenta flowers in midsummer. 36"(60") June-July Hewitts Double Features cloud-like sprays of double mauve flowers that are outstanding for cutting. Despite the delicate appearance, it is fairly tolerant of warm, humid summers. Plants are tall and narrow in habit, so staking is usually required. 36" (6-8" Blue-green June-July THYMUS (Creeping Thyme) \$\frac{1}{2}\$Zone 4 Creeping thyme take the wonderful aroma of the herb and put it into the ornamental garden. Outstanding used as small groundcovers, tucked around steppingstones, or placed as colour spots in a rock garden. They attract bees while they are covered in their tiny flowers. doerfleri 'Doone Valley' Has dark green foliage, tipped with bright gold in fall and winter. Pleasant lemony fragrance. July-August Purple-pink Green xxpraecox 'Highland Cream' Pink flowers in summer. Tiny, variegated cream and silver and green leaves. (sys. Hartington Silver) Pink Cream/green July-August 1-3" 18" xx praecox 'Coccineus Major' Red blooms; evergreen foliage turns bronzy in fall 1-3" 18" Red (Red Creeping) Green June-August XX Pseudolanuginosis Dense mat of grey leaves with pink flowers 'Woolly' 1-3" 18" Pink Grey July-August XX serpyllum 'Alba' White flowers over bright green foliage. 18" White Green June-August 1-3" serpyllum 'Minus' Rounded, emerald green leaves in dense, spreading mounds. 1-3" 12" Lavender Green **June-August** XX serpyllum 'Purple Carpet' This flat-growing variety features tiny dark green leaves, smothered by bright mauve-purple flowers in early summer. A strong grower.

Purple Green June-August 2-4" 12" xx 12" June-August serpyllum 'Pink Chintz' Flat-growing variety features fragrant fuzzy green leaves, smothered by soft salmon-pink flowers in summer. Green June-August 2-4" 12" THYMUS (Upright Thyme) 🌣 Zone 5 Woody, low-growing shrubs, upright thymes are evergreens that bring a wonderful scent to an ornamental garden. Golden Lemon Pale lavender flowers. Leaves are variegated with yellow and have a lemon scent. 6-9" 18" Lavender Gold/green July-August XX Silver Pale lavender flowers. Leaves are variegated with grey and white. 6-9" 18" Grey/white July-August XX

Flower Colour 18/tray Variety Leaf Colour Bloom Time Height 5.5"pot Space TIARELLA (Foam Flower) © ■ Zone 4 Graceful in woodland gardens or along a shady pathway. Palmate leaves come in a range of patterns and colours, but flowers spikes are generally white to pink. Candy Striper Huge, lush leaves with a dark stippled stripe each lobe form neat mounds of foliage. Pink flower buds open to foamy white flowers. Brown/green May-June 10"(14) This species is a native wildflower and a parent to many of the new hybrids. Plants form a spreading mat of scalloped green leaves, turning bronze cordifolia in colder months and remain evergreen in mild winter regions. Short sprays of airy white flowers appear in early summer. An excellent woodland groundcover, preferring rich, moist soil. Runners are produced in summer and these trail around the plant, rooting to form new plantlets. These can be easily moved in early spring to start a new patch. May-June 6-12" Green XXPink Skyrocket Deeply-cut green leaves with attractive red veins. Chubby spikes of delicate soft to medium-pink flowers appear in late spring, 12" Pink Green/brown May-June 12" XXSpring Symphony A smooth melody of compact foliage with leaves "painted" with black along the mid-rib. Profuse, light pink flowers reach their crescendo in midspring. 10" Light Pink 102 Green/black May-June TRADSCANTIA(Spiderwort) ♥ © Zone 3 Triangular snow-white blossoms with a fuzzy splash of lavender in the centre. Blooms up to 8 weeks. Has a more compact growth habit and Billbary Ice foliage that stays attractive even in drier conditions. 15" 15" White/lavender Green July-August Concord Grape Triangular, concord grape blossoms with sulphur yellow stamens. Has frosted blue-green foliage which remains clean and compact. 15" Green 15-18" Purple July-August Sweet Kate Triangular, violet-blue blossoms with sulphur yellow stamens contrast sharply with the brilliant gold foliage. Protect from afternoon sun. 12" 12" Violet-blue Gold July-August TRICYRTIS (Toad Lily) © Zone 5 Blooms in later summer with unusual, orchid-like blossoms. The flowers can appear at leaf joints or in terminal clusters, depending on variety, but all have unique blooms. Foliage resembles Solomon's seal, makes a great addition to any woodland garden. Lance-shaped, shiny dark leaves with irregular streaked margins of creamy yellow. Heavy purple spotted lavender-pink flowers on arching stems. Gilt Edge Green/Cream 24" 24" Purple/Pink August-Oct Samurai Starfish-like flowers appear in late summer, pale mauve with purple spotting. August-Oct 20" 20 Green TRIFOLIUM(Clover) 🌣 🕏 Zone 4 The attractive foliage of this species is suitable in front of borders, and its low-spreading habit is appreciated for ground cover. The dark reddish leaves are edged in green and accented with white clover flowers in the summer. Atropurpureum Red/Green XX TROLLIUS (Globe Flower) 🗘 🖭 Zone 3 An excellent choice for bog gardens or waterside plantings, Trollius can thrive anywhere it can get regular moisture. Clump-forming growth habit. Basal leaves are glossy, toothed, with five lobes up to 7 inches long. Each lobe is divided into toothed segments and are lance-shaped. Stem leaves are smaller and finely divided. Flowers are cut-shated, 1 to 2 inches across, in a variety of yellows. Looks best when planted in groups

WILDFLOWERS 4" POT Variety Flower Colour Leaf Colour Bloom Time Height 15/tray 5.5" pot Space ARISAEMA (Jack-in-the-Pulit) **©●** Zone 3 Triphyllum One to two large, glossy leaves, divided into three leaflets, rise on their own stems 1-3 ft. The intriguing blossom of this woodland perennial occurs on a separate stalk at the same height as the leaves. It is a large, cylindrical, hooded flower, green in color with brown stripes. Distinctive Jack-in-the-pulpit formation grows beneath large leaves. In late summer, a cluster of bright red berries appears. Green/brown Green May-June **ASARUM (Wild Ginger) ©●** Zone 4 A native plant that features two smooth, broad spade-shaped, dark green, basal leaves. Cup-shaped, insignificant, purplish brown flowers give Canadensis (Little Brown Jug) the plant its nickname, "Little Brown Jug", and appear in spring on short, ground-level stems. Purplish brown May \$45.00 GERANIUM **©**● Zone 4 Maculatum Native to Eastern North America. Green leaves with black ring accent maintains its appearance all season long. Small, light pink flowers Green May-June HEPATICA Zone 4 Grows in dry rocky woods Americana Pale purple, lavender-blue, pink or white flowers. Blooms early spring to June. 12" Light blue Grey-green \$45.00 **MERTENSIA (Blue Bells) 2** Zone 4 Must have rich moist soil. Dormant in summer. Nodding, trumpet-like 1 inch light blue flowers with five petals. Buds are pink. Leaves are oval, smooth, strongly veined, alternate grey-green. Light blue Grey-green 12" 12" \$45.00 May **PODOPHYLLOM Peltatum (May Apple) ©** ● Zone 3 Peltatum White flower May. 8" White Green May 8-18" \$45.00 **POLGONATUM (Solomon's Seal) ©** ● Zone 3 The zig-zag arching stalks. Nodding, greenish-white, tubular flowers hang in pairs from the axils of the oral, conspicuously veined leares. Hanging from the leaf axils on an arching stem are a few (often 2) greenish-white, bell-like flowers. Blue berries follow the flowers. 12" Green-white Green May-June 12-36" SANGUINARIA (Blood Root) • Zone 3 The single bloodroot leaf and flower each rise on a separate stem, and at first the leaf completely enwraps the flower bud. The clear, white, many-petaled blossom may open before the leaf has completely unwrapped. Roots and stem with acrid red-orange juice. Moist location. Canadensis Leaves, which are large, round and deeply cleft, eventually reach a height of 12-14 in. On a smooth stalk a solitary white flower, with a golden-orange center, grows beside a lobed basal leaf that often curls around the stalk. \$45.00 TIARELLA (Foam Flower) �● Zone 3 Cordifolia Long, slender stamens give heart-leaf foamflower's spikes of white flowers a frothy appearance. The small, star-shaped flowers occur in compact racemes on 6-12 in. stalks rising above a mound of attractive, lobed leaves. 6-12" TRILLIUM 🖭 Zone 3 The whole plant usually disappears by late summer. Best in a woodland situation with rich, moist acidic soil. Not always easy to establish. Plants resent being disturbed but division every 5 to 8 years is possible. This is best done in late summer after plants become dormant. When happy these may begin to spread by self seeding Erectum (Red) Forms a low mound of large dark-green leaves. The flowers appear in spring, with narrow maroon-red petals. Blooms often nod shyly, and also have an unpleasant odour. One of the quickest to form a good clump. 10-16" Maroon red Dark green Late May Grandiflora (White) The Provincial flower of Ontario, this has larger blooms than nearly any other species of Trillium. Plants form a low mound of dark-green leaves, bearing large wide-open white flowers in spring that often age to pink. 12" Green Late May

petals lend it the folk name "goblet trillium.". The three large leaves are mottled. Green/grey

leaves. Its leaves are mottled with pale grey over the green background.

Green/grey

Green/grey

Red-purple

Deep red

Three yellow petals stand upright in the midst of three green sepals that can either lay flat or be partially upright like the petals. The upright

Flowers deep red to red-purple and the petals point upward. The sepals hang downward. The flower is sessile (stemless) to the whorl of three

18/tray Variety Flower Colour Foliage Colour Height 5.5in Pot Space ACORUS (Variegated Sweet Flag) 🌣 👽 Zone 4 A lover of damp places, it is excellent for bogs and pond edges. Can be used as a slow growing ground cover. The fan-shaped foliage is showy but the plumes are usually insignificant. Calamus 'Ogon' Forms a low tuft or mound of narrow sword-shaped leaves that are bright glowing golden yellow. Green/yellow 12" Insignificant Calamus 'Variegatus' Long, wide, strappy leaves stand tall, displaying their striking bright green and creamy yellow variegation. When crushed, they emit a delicious tangerine scent. Will grow in shallow water. Non-invasive. Insignificant Green/yellow ANDROPOGON (Big Blue Stem) 🌣 👽 Zone 4 Native to the prairies. Makes an excellent tall screening or hedge gerardii Fine to medium blue-green sod forming (slow spreader) Burgundy-tan Blue-green August XX gerardii 'Raindance' A long-lived grass that forms a tall, strictly upright clump of red-tipped foliage. The foliage transitions to red in midsummer and turns totally maroon in fall. Deep purple flowers with bright red-orange pollen top this colourful and statuesque display. Red/green 24" Purple/orange August 4-6ft BOUTELOUA 🌣 Zone 3 Native to the short grass prairies of North America. Curtipendula Tiny bright purple and orange flower parts lend to its grace and beauty. Small oat-like seeds are on a 3 foot stem. Very attractive. Purple to tan 12" (Sideoats Grass) Green June-august 2-3ft Gracilis A low growing, low maintenance grass with blue-green blades and extremely decorative seed heads. Can be mowed and used as a lawn. (Blue Gramma Grass) Burgundy to tan Blue-green June-Aug. 12-15" 12" CALAMAGROSTIS acutiflora (Feather Reed Grass) . Zone 5 Upright and often tall, Reed grass makes an architectural statement at the back of a border, as a vertical accent or as a specimen. Variegated form of 'Karl Foerster'. Deep Green leaves with a wide, white stripe down the centre. Distinctly upright, clumping habit. Avalanche Green/white July 4-5ft Green to tan Brachytricha Grass forms an upright and fairly narrow clump of feathery plumes, beginning in early fall. Flower heads start out silvery-pink, fading to more of a creamy-white tone and remaining attractive for most of the winter. Pink to white Green August 3ft 18 Eldorado A gold variegated form of 'Karl Foerster'. Narrow, green leaves with a bright gold mid-rib. Feathery plumes in early summer 24" Green to tan Green/gold July 4-5ft XXKarl Foerster Perennial of the Year 2001! A clumping, compact, erect habit. Wheat-like seed heads appear in late spring. Does not reseed 24" Green to tan Green June 5ft XX Overdam Variegated foliage has bright creamy-white margins which turn to white with a pink flush. Strikingly erect, feathery plumes with purplish seed heads turn tan as they age. 24" Purple to tan Green/white 5ft Iune xxCAREX 🦈 😜 Zone 5 Carex are not true grass at all, though they certainly look similar. Primarily grown for its foliage. They are warm season plants, they do well in containers and at the edge of borders. Flowers are insignificant panicles of short spikes. Blue Sedge Forms a low, creeping mound of narrow blue-green, grassy looking leaves. 4-8" 18" xx **Bowles Golden** Bright gold foliage with thin green margins. Needs constant moisture to thrive. Grows well in shallow water or a bed watered regularly. (Gold Sedge) Gold/green 2-3ft 24" XXEvergold Creamy-yellow leaves with deep green margins. Foliage cascades softly to the ground in a fountain-like manner. (Vareigated Japanese Sedge) Yellow/green 12" XXGolden Fountains Soft green and gold, variegated foliage in a fountain shape. Evergreen and clumping. Green/gold 30" xxIce Dance Dark green leaves with bright white edges. Grows in full sun to full shade. (Variegated Sedge) Tan Green/white June 12-16" A dense, clump-forming sedge which is grown for its foliage effect. Produces rigid, erect stems to 20" tall with 8" long, pointed, grass-like, light muskingumensis green leaves radiating from the stem tops. Commonly called palm sedge since the leaves somewhat superficially resemble miniature palm fronds. 20" 18" June-July Green pensylvanica North American native. Clumps spread quickly making an excellent groundcover. Soft, gently curled foliage turns pale brown in winter. green 8-10" CHASMANTHIUM ♥ • A woodland, warm-season grass known for its narrow, bamboo-like foliage. Tolerate of some shade, as well as coastal salt air. Latifolium A clumping grass with showy, drooping flowers and unique bamboo-like foliage. Seed heads can be harvested for bouquets. 'Northern Sea Oat' July XX

MISCANTHUS 🜣 💽 Zone 4-5 One of the showiest of the grasses. Large or short, it is grown for its vertical or mounding habit and showy, fluffy flower panicles that are so striking in late summer and fall. Fond of moist sites. Adagio (Dwarf Maiden Hundreds of plumes held above the foliage emerge bronzy-pink, fading to white. A dwarf plant with graceful, silvery-green arching foliage becoming a whirl of orange, gold and burgundy in fall. Grass) Zone 6 Bronze-white Silver- Green September 4-5ft Autumn Light Pinkish-red feathery plumes emerge high above green, finely textured foliage that turns shades of yellow, gold and burgundy in fall. The foliage, if left to grow tall, provides winter interest and can be used as shading or screening. Moderate growth rate. Green September 4-8ft Cabaret A wide leaf slightly arching grass that grows to 6 feet tall. Cream stripes run down the middle of the blades. The copper-coloured flowers appear in the fall and mature to a cream color. September Copper to cream 6ft Cosmopolitan Wide, robust leaves of creamy white and green variegation. Non-floppy habit. Billowy texture, silky tassels, many different heights and colorations. Great winter interest. Green/white September 6-7ft XX Dixieland A dwarf form of 'Variegatus'; similar green and white variegated foliage. Silky pink plumes. Pink Green/white August 4-5ft This is a grass of monstrous proportions, forming very tall clumps of green leaves, their tips arching gracefully in layers. Useful as a living screen Giganteus (Giant Silver Grass) or hedge, bearing soft-pink plumes in the fall. The corn-like stalks turn creamy tan in winter. Lower leaves have a tendency to wither in late summer, so planting something tall in front is recommended. Plants require plenty of moisture and are even happy growing beside water. Pink Green September 10ft Gold Breeze Green tapered foliage with broad, creamy-yellow bands. Purple-red flower tassels in late summer. 30-36" 60-72" Purple-Red Green/gold September Gracillimus Beautiful rounded mounds of fine, silver-veined, green leaves with an arching habit. Fan-like plumes emerge with a reddish tint, then age to a (Maiden Grass) soft silvery-white and remain all winter. Reddish to white September 5-6ft XX Graziella Fine green blades, more erect and arching than 'Gracillimus'. Tall plumes in August. Red-orange colour in fall. Reddish to white August XX Huron Star Compared to the older cultivar 'Silberfeder' this grass is similar with a few notable improvements such as a stronger and more upright habit, purple flowering stems, and brighter fall colour. In the fall foliage turns colourful shades of red, orange, burgundy and gold 7-8ft 6ft Creamy-tan Green August Huron Sunrise The most profusely blooming Miscanthus. Full, burgundy plumes sweep the sky and remain standing through winter. Mid-green leaves with silver midrib. August Little Miss This series sports a neat, compact habit with glossy, arching foliage. The blades emerge green and transition to carmine and purple tones late spring through summer. Foliage at the center of the clump stays green, giving it an appealing, two-toned look. Reddish blooms appear in midsummer, rising above the foliage and turning buff-colored as they age. Fall color is outstanding; an excellent alternative to M. 'Purpurascens' when space is limited. 24"(36" Tan-white Green August xxLittle Zebra Like 'Zebrinus' but shorter and more upright. Reddish-purple plumes turn to creamy tan in winter. (Dwarf Zebra grass) Gold/green 3-4ft. Red to tan August XX Malepartus Large soft-pink flowers, maturing to silvery-white, over an arching mound of dark green leaves. The foliage dries and turns a light tan shade for the winter. Pink to white 36" Green August 7ft XXMorning Light Narrow leaves with fine green and white variegation. A late-bloomer. Plumes emerge bronze red, turning cream as they age. Green/white Late Sept. 4-5ft Bronze to cream Oktoberfest The wide, deep green leaves with a white midrih form a narrowly upright tower about 4 ½ tall before blooming. In late summer or early fall, the foliage develops deep purple and red highlights which complement the showy flowers that emerge a rich shade of shimmering burgundy and copper, then mature into fluffy, creamy tan seed heads. Burgundy-tan Green/yellow 6-7ft August Purpurascens Forms an upright clump of foliage which starts out green, then takes on a reddish hue later in summer. Brilliant fall colour. Magenta coloured (Flame Grass) fans turn into bright silky white panicles. Magenta to white August 4-6ft Silberfeder Large, feathery plumes emerge pinkish-silver in late summer. They stand well above the clump of foliage. Leaves have narrow, white mid-ribs. (Silver Feather Grass) Leaves tend to arch downward. Silver August 8ft 4ft Green XX Distinctive yellowish-white, horizontally banded leaves. Similar to 'Zebrinus' but has an upright habit instead of arching downward. (Porcupine Grass) Green/gold 4-6ft September XX
