www.brownridgegreenhouses.com

BROWNRIDGE greenhouses and nursery has been a family owned and operated company for over 50 years serving both garden centre and landscape trade. Our shipping season starts early March with the blooming of the Primula, Pansies and Hellebore and continues through May with over 1000 varieties of perennials, vegetables, and unusual annuals. In the summer, we carry a variety of larger potted annuals and 1st year flowering perennials along with a full selection of 1-gallon perennials and groundcovers. The fall brings a selection of Garden Mums and Flowering Kale in a variety of sizes. Shipping stops for perennials only when the ground freezes and they are put to bed for the winter.

The following people are available to assist you:

Doug Brownridge (*Greenhouse Operations, Perennial Production*) for all custom and contract perennial orders, information, and shipping.

Carrie Brandow (*Seasonal Production, Accounts*) for all information, availability and custom orders in seasonal production, account inquires.

Ordering

The best way for garden centers to order is from our availability lists. These are e-mailed late Friday for the following week, and available on our website with a simple password. The lists indicate if the plant is in bloom and sometimes have other good or bad comments. All prices are listed. The orders are picked in order of delivery, so it is better to take the order earlier in the week rather than later, as we do not guarantee availability. Generally, product is sold as available on a ***first come-first-ship*** basis.

All products having a size 4.5in or less are sold in full tray units.

Single pot orders can be accommodated **EXCEPT** between April 19 and June 15. A 20% service charge may apply.

Not all products in this catalogue are available at all times.

Pre-Pricing Option

We offer pre-pricing for all plants at an additional charge of \$0.15/pot. All plants in pots 4.5" or greater will be marked with pot stickers, all sizes 4" and below will be marked with a pricing tag. You can select to have all plants priced or just a certain group i.e. only the gallon perennials. Pricing information must be supplied by you electronically, a minimum of 1 month prior to shipping season. Please call for more information.

Credit Policy

Terms

All landscapers are C.O.D.

Visa/Mastercard accepted at time of shipment, Debit also accepted for pickup orders.

2% Visa/Mastercard fee applies to invoices paid by credit card more than 7 days past invoice date.

Accounts are net 30 days, after which a 2% per month service charge will be applied.

All prices are suggested list and are subject to change without notice.

Cancellation of an order or any part thereof within 24 hours of delivery or at time of delivery will result in a 20% restocking charge.

New Garden Centre customer credit policy

1ST year - all purchases are C.O.D. Visa may be used at time of purchase.

2ND year – upon approval, pay for 1ST order before 2ND order delivered or net 30 days whichever comes first. 2% service charge will apply to overdue accounts. Failure to comply results in all future orders being C.O.D.

3RD year - if there are no problems with previous year: Credit net 30 days, 2% per month service charge will be applied. Failure to comply will result in all future orders being C.O.D.

Claims

We cannot be held responsible for any amount greater than the purchase price.

We assume no responsibility for incidental losses.

Orders shipped during inclement weather will be at customer's risk.

For any quality claims or short shipment, we require notification within 48 hours of receipt of shipments.

For credit on quality claim, we will arrange for product to be picked up.

✂ millefol. 'Seduction Series'	<i>Tidy habit, uniform flowering, and beautiful compact shape. Excellent addition to any garden. Blooms of Bressingham variety.</i>						
Saucy Seduction	Deep rose	Green	July-August	24"	24"	-	-
Strawberry Seduction	Red/Gold	Green	July-August	24"	24"	-	-
Sunny Seduction	Yellow	Green	July-August	24"	24"	-	-
✂ millefol. 'Summer Berries'	Mixture of red, cerise, and pink shades top aromatic, gray-green leaves. Assorted	Green	July-August	24"	10-12"	-	-
✂ millefol. Tutti Frutti Pink Grapefruit	<i>Compact habit. Lavender-pink flowers on large slightly mounded beads</i>						
	Lavender-pink	Green	June-July	24"	24"	-	-
✂ millefol. Tutti Frutti Pomegranate	<i>Compact habit. Rich pomegranate red flowers on large slightly mounded beads</i>						
	Red	Green	July-August	26"	24"	-	-
Tomentosa 'Goldie'	<i>Large, golden flower clusters are held over silver-green foliage. Perfect for containers or groundcover.</i>						
	Yellow	Olive green	July-August	6-8"	10"	-	-
ACONITUM (Monkshood) ☼☾ Zone 2 <i>Tall, sturdy perennial with showy spikes of flowers in the summer months.</i>							
✂ carmichaelii 'Arendsii'	<i>Known as an Autumn Monkshood. Prefers moist location. Requires staking</i>						
	Violet-Blue	Green	August-Sept.	40"	20"	-	-
✂ carmichaelii 'Cloudy'	<i>An erect, clump-forming, herbaceous perennial with leathery, lobed, ovate, dark green leaves and, in late summer or early autumn, strong stems bearing dense, branched panicles of hooded, white to pale purple flowers with purple petal margins.</i>						
	Violet/White	Green	July-August	32"	24"	-	-
✂ Napellus	<i>Common Monkshood. Deep blue helmet shaped flower.</i>						
	Blue	Dark Green	July-August	36"	24"	-	-
ACTAEA (Bugbane, Cimicifuga) ☼☾● Zone 4 <i>Good for summer and late fall effect. Bottle brush spike held on tall stems. Woodland perennial; makes an excellent companion to Hosta.</i>							
✂ Atropurpurea	<i>Large Astilbe-like leaves ranging from deep green to bronzy purple. Fragrant pale-pink flowers.</i>						
	Lt. Pink	Purple-black	August-Sept.	5ft	30"	-	-
✂ Black Negligee	<i>Showy fragrant white blooms with a purple tinge. Deeply cut dark purplish-black foliage give a lacy effect.</i>						
	White	Purple-black	August-Sept.	5ft	30"	-	-
✂ Brunette	<i>Significantly darker form than Atropurpurea. Pinkish white flowers fade to cream white.</i>						
	White	Purple	August-Sept.	4-5ft	30"	-	-
✂ Chocoholic	<i>Bronze-purple foliage and arching wands or spikes of fragrant, mauve-pink, bottlebrush flowers. Flowers lighten as they mature</i>						
	Blush/White	Purple-Black	August-Sept.	4-5ft	30"	-	-
✂ Hillside Black Beauty	<i>Foliage of coppery tinged purple. Very fragrant.</i>						
	White	Purple	August-Sept.	4-5ft	30"	-	-
✂ Racemosa	<i>Native variety</i>						
	White	Green	August-Sept.	4-5ft	30"	-	-
AEGOPODIUM (Snow-on-the-Mountain) ☼☾● Zone 3 <i>A quick growing groundcover- excellent in poor soil.</i>							
Variegatum (Gout Weed)	<i>Difficult to eradicate once established. Dislikes the sun,</i>						
	White	Cream-Green	June	12"	24"	-	-
AGASTACHE (Anise-Hyssop) ☼ Zone 5 <i>Tall wands of bottlebrush flowers summer-fall. If plant is dead headed before it goes to seed plant will re-bloom. Use in borders, as dried flowers, and in herb gardens. Herb with antiviral properties.</i>							
✂ Blue Boa	<i>Unlike any other Agastache, this beauty produces incurious, deep violet-blue flower spikes held over ultra-green foliage. The flower spikes are long, wide and extremely showy. It's a great perennial color spot for summer bloom. It's drought tolerant once established and attracts hummingbirds as well as butterflies and bees.</i>						
	Blue-violet	Green	August	30"	24"	-	-
✂ Blue Fortune	<i>Compact habit, deep violet-blue flowers</i>						
	Blue-violet	Green	August	30"	30"	-	-
✂ Peachie Keen	<i>Loaded with lots of apricot-peach flowers with purple-pink calyxes</i>						
	Peach	Green	June-Sept.	20-24"	26-32"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
AJUGA (Carpet Bugle, Bugleweed) ☼☼ Zone 3 <i>A groundcover with low mat rounded leaves and spikes of flowers.</i>							
Black Scallop	<i>Dark burgundy to almost black glossy foliage with scalloped edges, very crinkled leaves, Deer resistant, very hardy. Breeder- Plant Haven</i>						
	Deep blue	Burgundy-black	May-June	6-8"	24"	-	-
Bronze Beauty	<i>Deep blue flowers contrast nicely with the rich bronze foliage</i>						
	Deep blue	Burgundy	May-June	5-6"	12"	-	-
Burgundy Glow	<i>Burgundy, white, pink and green foliage brightens up any shaded area</i>						
	Blue	Tricolour	May-June	5-6"	12"	-	-
Catlin's Giant	<i>This is one of the largest-growing varieties, forming a vigorous mound of deep bronzy-red spinach-like leaves. Spikes of blue flowers are attractive in spring.</i>						
	Blue	Bronze red	May-June	10"	12"	-	-
Chocolate Chip	<i>A dwarf, spreading groundcover that creates a tight mat of rich, chocolate brown foliage with dark green undertones. Charming spikes of lacy blue flowers rise above the foliage in the spring.</i>						
	Blue	Purple-brown	May-June	3-4"	12"	-	-
Princess Elsa	<i>Shiny, silver foliage and blue-purple flowers</i>						
	Blue	Silver	May-June	3-4"	12"	-	-
Princess Leia	<i>A tricolour variegated, bugleweed with silver-green, creamy white and dark green foliage.</i>						
	Blue	Cream/green	May-June	3-4"	12"	-	-
ALCEA (Hollyhock) ☼ Zone 3 <i>Time-honoured favourite blooms daily in mid-summer with lovely 2-4" masses of fully double rose like delightful flowers on 5-7' stalks in shades of red, pink, white, maroon, and yellow.</i>							
✂ Charter's Series	<i>Large double 3-5" blooms. Excellent colourful variety</i>						
Mix	Assorted	Green	June-Sept.	6ft	18"	-	-
Pink	Pink	Green	June-Sept.	6ft	18"	-	-
Purple	Purple	Green	June-Sept.	6ft	18"	-	-
Red	Red	Green	June-Sept.	6ft	18"	-	-
Yellow	Yellow	Green	June-Sept.	6ft	18"	-	-
ALCHEMILLA (Lady's Mantle) ☼☼ Zone 2 <i>Forms a mound of rounded leaves with sprays of yellow-green flowers.</i>							
✂ Mollis	<i>Scalloped green leaves covered in soft down bloom in June.</i>						
	Yellow	Green	June	18"	18"	-	-
ALLIUM ☼ Zone 4							
✂ x senescens Millennium	<i>Perennial Plant of the Year 2018. A truly impressive hybrid Ornamental Onion. Compact upright clump of glossy, thick, green leaves with 5cm (2") rose-purple ball clusters appearing just above the foliage on strong stems in mid to late summer. Easy to grow. Leaves have a slight onion smell when crushed. This looks best when combined with a bushy, low-growing perennial to hide the withering onion leaves at blooming time.</i>						
	Purple	Green	August	16-20"	10-14"	-	-
ALLIUM (Ornamental Onion) ☼ Zone 4 <i>Great colour in spring. Will tolerate poor, dry soil, are deer resistant and can be left undisturbed for years for colour every spring. Can be used as a cut flower. The seed pods give textural interest in the garden through late summer.</i>							
✂ aflatunense Purple Sensation	<i>Reddish-violet balls 4-5in across are borne on 20-30in stems in late spring. This is the earliest of the large-flowered Alliums</i>						
	Purple	Green	May- June	20+"	6-8"	-	-
✂ Ambassador	<i>Large, jam-packed round heads of bright purple flowers holds double the number of florets compared to other varieties.</i>						
	Purple	Green	May-June	36-48"	12"	-	-
✂ Giganticum	<i>Big round heads of mauve-purple flowers in late spring. The tall stems are excellent for cutting or drying.</i>						
	Lavender	Green	May-June	35-47"	10"	-	-
✂ hyb. Globemaster	<i>Flowers are an amazing 10" in diameter. Best planted in groups</i>						
	Lavender	Green	May/June	36"	12"	-	-
✂ spipitatum Mount Everest	<i>These 4" pure white blooms have a unique role in any late-spring border that seeks some gravitas. Pair with A. 'Purple Sensation' in thoughtfully spaced clusters, then stand back. The snow-white blooms of 'Mount Everest' also make bouquets of tall Aquilegias and other purple Alliums even more spectacular.</i>						
	White	Green	May/June	20+"	6-8"	-	-
ALYSSUM ☼ Zone 3 <i>Forms a low, trailing mound of silvery-grey leaves, bearing masses of bright-yellow flowers in mid to late spring. Clip plants lightly after blooming to maintain a bushy habit. Requires good drainage.</i>							
montanum Mountain Gold	<i>Compact silvery mats are smothered by fragrant yellow flowers</i>						
	Gold	Grey-green	May-June	10"	12"	-	-
saxatilis Summit	<i>Forms a low bushy mound of grey-green leaves, smothered by masses of tiny, bright golden-yellow flowers for several weeks. This improved selection is compact and has excellent disease resistance.</i>						
	Gold	Grey-green	May-June	6-8"	10"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
AMSONIA tabernaemontana (Blue Star) ☼🌿 Zone 4							
Blue Ice	Blue	Bright green	June	12"	24"	-	-
<i>Starry blue blooms against bright green willow like leaves that turn yellow in the fall.</i>							
Storm Cloud	Blue	green	June/July	24-30"	35-40"	-	-
<i>Proven Winner variety sold in 'PW' pots. In spring, new stems emerge near-black with leaves that are very dark green with silver veins and stay dark throughout spring. Light periwinkle blue, star-shaped flowers completely cover the foliage in late spring, and rebloom for many weeks afterward. Younger plants show vase-like habit but when mature has a wide, mounding habit.</i>							
ANEMONE Japanese 🌿🌸 Zone 5 <i>Late summer to fall, there is no flower quite like it in the border. 2" flowers on tall stems are freely and continuously produced. Likes moisture. Deer resistant.</i>							
✂️ Curtain Call Deep Rose	Rose	Green	Aug.-Sept.	14-18"	16-18"	-	-
<i>Beginning in late summer, this perennial produces dark rose-pink flowers that are positioned right above a small mound of green foliage. The flowers are fuller than single, producing a double row of petals. Its shorter stature lends itself well to containers, both as monoculture and in combination with other perennials. It spreads by underground rhizomes.</i>							
✂️ Curtain Call Pink	Pink	Green	Aug.-Sept.	14-18"	16-18"	-	-
<i>Beginning in late summer, this perennial produces pink flowers that are positioned right above a small mound of green foliage. Its shorter stature lends itself well to containers, both as monoculture and in combination with other perennials. It spreads by underground rhizomes.</i>							
✂️ Fall in Love Sweetly	Rose	Green	Aug.-Sept.	20-26"	24-30"	-	-
<i>Proven Winner Variety! Sold in Proven Winner pots. Semi-double, rose-pink flowers over dark green foliage.</i>							
✂️ Horoline Jobert	White	Green	Sept.-Oct.	36-48"	24"	-	-
<i>Perennial Plant of the Year 2016! Large single snow-white flowers tinged pink on back with a striking yellow centre.</i>							
✂️ hupehensis japonica 'Pamina'	Rose	Green	August-Sept.	24-36"	24-36"	-	-
<i>Semi-double blossoms in a glowing deep rose-pink shade.</i>							
✂️ hupehensis 'September Charm'	Pink	Green	August-Sept.	30"	24"	-	-
<i>Strong grower with silvery-pink blooms. Deep green grape-leaf type foliage.</i>							
✂️ Fantasy Pocahontas	Pink	Green	August-Sept.	30"	24"	-	-
<i>Double, bubble-gum pink flowers on strong stems July through September. Good for part shade.</i>							
✂️ Fantasy Red Riding Hood	Rose	Green	August-Sept.	30"	24"	-	-
<i>Bright, single flowers in rose-pink July through September.</i>							
✂️ tomentoasa Robustissima	Pink	Green	August-Sept.	35"	24"	-	-
<i>This is the easiest to grow, and hardiest of all the fall-blooming Anemone, with a vigorous, spreading habit and reliable late-summer display. Plants form a low mound of grape-like green leaves, with taller branching stems of soft-pink cup-shaped flowers.</i>							
✂️ Whirlwind	White	Green	Sept.-Oct.	24-36"	24"	-	-
<i>Semi-double white bloom</i>							
ANEMONE sylvestris 🌿🌸 Zone 3 <i>Delicate nodding white flowers appear in late spring and early summer, over a low mound of ferny foliage. Plants will form a dense patch, suitable for a groundcover. Makes a useful over-planting for Narcissus or tulips, the Anemone leaves helping to disguise the bulb foliage in summer. Both the flowers as well as the fluffy seed-heads are useful for cutting. Allow this spreader plenty of room, or plan to edge each spring to keep the patch to a reasonable size. Easily divided in spring or fall.</i>							
✂️ Snowdrop	White	Green	May-June	8-12"	24"	-	-
<i>Fragrant; vigorous grower; Beautiful 2" pure white bloom. Excellent groundcover. Rabbit resistant.</i>							
AQUILEGIA (Columbine) ☼🌿 Zone 3 <i>Colourful blossoms. Both the blossoms and ferny foliage are good for cutting.</i>							
Biedermeier Mix	Assorted	Green	May-June	8-12"	8-12"	-	-
<i>Shades of white, pink, and purple. Small variety that works well in containers or rock gardens.</i>							
Canadensis	Red	Green	May-June	30"	12"	-	-
<i>Native variety.</i>							
✂️ x hybrida EarlyBird series	Blue/White	Green	May-June	9-11"	10-12"	-	-
<i>Bred for vibrant colours, neatly mounded habit and unusual colour combinations. Single colours and may include doubles like purple, white, purple yellow and red yellow usually with a yellow eye. They feature a controlled habit, with relatively short stems on well-mounded plants.</i>							
	Red/White	Green	May-June	9-11"	10-12"	-	-
	Mix	Green	May-June	9-11"	10-12"	-	-
<i>Assorted colours</i>							
ARABIS (Wall Cress) ☼🌿 Zone 4 <i>Wall Cress is a widely planted rock garden or edging perennial, used for a bright spring display. Drought tolerant once established. Requires good drainage, particularly in the winter months. Shear plants lightly after blooming to maintain a bushy, compact habit. Evergreen.</i>							
caucasica Catwalk Pink	Pink	Green		6-8"	8-10"	-	-
<i>Neat pink rosettes with great flower power announcing the start of spring.</i>							
caucasica Catwalk White	White	Green		6-12"	8-12"	-	-
<i>Uniform, compact, globe-shaped habit, with bright white flowers.</i>

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
ARALIA (Golden Japanese Spikenard) ☼☾ Zone 3 <i>This hardy, tropical looking beauty brightens up the shade garden.</i>							
cordata 'Sun King'	Perennial of the Year 2020. <i>Large, compound, bright gold leaves. Colour is greener in deep shade. Tiny white flowers give way to purple-black berries in fall</i>						
	White	Gold	Late July	36"	36"	-	-
ARENARIA (Sandwort) ☼☾ Zone 4 <i>Use for rock garden or edging.</i>							
Montana	<i>Glossy green cascading foliage with snowy-white flowers.</i>						
	White	Green	June	8"	12"	-	-
ARMERIA Juniperifolia (Spanish Thrift) ☼ Zone 2 <i>A fine alpine species of Thrift, this forms a very dense bun or cushion of needle-like leaves. Especially attractive in a gravel scree garden or alpine trough where it can be seen close up. Site carefully this is easily smothered by more vigorous neighbours. Requires excellent drainage.</i>							
Juniperifolia	<i>Soft pink balls of flowers are held just over the foliage.</i>						
	Pink	Green	June	2-4"	4-6"	-	-
ARMERIA maritima (Thrift) ☼ Zone 3 <i>Ball-shaped flower clusters, complimented by narrow grassy foliage</i>							
Dusseldorf Pride	<i>Bears deep pink pompon flowers for many weeks starting in late spring, and usually repeat flowers in the fall.</i>						
	Rose	Green	May-June	4-6"	6-12"	-	-
Morning Star Deep Rose	<i>Low grass tufts of evergreen leaves. Flowers are shony for a long period.</i>						
	Rose-pink	Green	May-June	6"	12"	-	-
Morning Star White	<i>Low grass tufts of evergreen leaves, flowers are shony over a long period.</i>						
	White	Green	May-June	10"	10"	-	-
Nifty Thrifty	<i>Cute little alpine flower with variegated foliage.</i>						
	Rose-red	Green-cream	May-June	8-10"	10"	-	-
ARMERIA pseudarmeria (Drumstick Thrift) ☼ Zone 3 <i>Plants form a low mound of evergreen leaves, bearing upright stems of pompon flowers beginning in late spring. Stems are strong and good for cutting. Removing faded flowers will keep plants blooming for longer. Flowers can also be picked when just opened and hung indoors to dry for winter arrangements.</i>							
Dreameria Daydreams	<i>This beautiful breakthrough in Armeria breeding provides frost-to-frost flowering in containers or in the garden. Very heat tolerant and easy to grow. Remove old flowers once a month for best performance. Rosy pink flowers resembling lollipops blooming frost-to-frost. The blooming powerhouse looks excellent in the front of the garden, in containers or in rock gardens, where it can be tucked in between boulders. Its petite size makes it ideal for fairy and mini gardens.</i>						
	Appleblossom	Green	May-June	10-12"	12"	-	-
Dreameria Dreamland	<i>This beautiful Armeria provides frost-to-frost flowering in containers or in the garden. Very heat tolerant and easy to grow. Remove old flowers once a month for best performance.</i>						
	Pink	Green	May-Oct	10-12"	12"	-	-
Sweet Dreams	<i>This beautiful breakthrough in Armeria breeding provides frost-to-frost flowering in containers or in the garden. Lavender flowers resembling lollipops blooming frost-to-frost.</i>						
	Lilac	Green	May-June	10-12"	12"	-	-
ARTEMISIA (Silver Sage, Wormwood) ☼☾ Zone 3 <i>These plants are loved for their aromatic foliage and interesting texture. Deer resistant.</i>							
ludoviciana 'Silver Lining'	Proven Winner variety sold in 'PW' pots. <i>A hybrid of native North American species including Artemisia ludoviciana. 'Silver Lining' finds the best in its parentage as a spectacular, durable foliage perennial. Broadly dissected silver leaves are shony from spring to fall. The mounded, low wide habit maintains perfect form all season and resists opening up. Use this perennial as a filler in the landscape and spiller in mixed containers. Buff yellow flowers are held on tall scapes. Flowering is not significant and this plant should be considered primarily for its foliage.</i>						
		Silver-grey	-	12-16"	36"	-	-
ludoviciana 'Silver King'	<i>Plants form a bushy, upright mound, with clusters of creamy flowers.</i>						
	Silver-white	Grey	Aug-Sept.	20"	24"	-	-
Powis Castle Zone5	<i>Bushy upright mound of feathery leaves. Excellent contrast plant in the garden.</i>						
		Silver-grey	-	24"	24"	-	-
stelleriana 'Silver Brocade'	<i>Vehety, silvery grey leaves look like trailing Dusty Miller. Propagation prohibited.</i>						
		Silver-grey	-	4-8"	10"	-	-
schmidtisna Silver Mound	<i>Feathery leaves form a beautiful compact dome. Clip back hard to 2" when required.</i>						
	Silver-grey	Silver-grey	Late June	12-18"	18"	-	-
vulgaris 'Oriental Limelight'	<i>A handsome, variegated version of the herb Mugwort. This forms an upright, bushy clump with very attractive foliage, but it has a tendency to quickly spread all over the border. Leaves are medium green, brightly splashed with creamy-yellow to ivory. One of the best uses for this selection is in tubs or containers with other perennials, so the foliage can be enjoyed from up close but the plant may be easily controlled. For best effect, cut back hard in late June to rejuvenate the plant with new growth.</i>

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
ARUNCUS (Goat's Beard) ☼ Zone 2 <i>Creamy-white plumes in summer. Beautiful lacy foliage.</i>							
Aethusifolius	<i>Dwarf variety. Delicate mound of dark green leaves with short forked spikes of flowers.</i>						
	White	Deep Green	June-July	12"	12"	-	-
Chantilly Lace	Proven Winner variety sold in 'PW' pots. <i>This part shade-loving plant produces beautiful sprays of lacy, cream-colored flowers in late spring to early summer. It is very floriferous when it's in bloom, completely covering the deep green foliage. Will be shorter if grown in full sun, closer to 24" tall, than if grown in shade or a sun-filtered area, where it will grow to a height of 30-32".</i>						
	Cream	Green	June-July	24-32"	40"	-	-
Diocus	<i>A rather monstrous border plant, spectacular in flower with its enormous creamy plumes the size of your head. Elegant lacy leaves form a very dense and bushy clump. This plant demands space. It is somewhat inclined to sulk in hot summer areas, so plant in a moist, peaty soil, or even at the waterside. Cut plants back in summer if they look untidy. An excellent companion to summer-blooming shrub roses.</i>						
	Cream	Green	June-July	45-70"	35-60"	-	-
Diocus Kneiffii	<i>Lacy leaves form a very dense and bushy mound. Feather-like plumes</i>						
	Cream	Green	June-July	36"	36"	-	-
Misty Lace (Dwarf Goat's Beard)	<i>Forms a midsized mound of delicately-cut, ferny leaves. Taller beet-red stems hold open and airy plumes of ivory-white flowers in early summer.</i>						
	Cream	Green	June-July	24-30"	18"	-	-
ASARUM (Wild Ginger) ☼☼ Zone 5 <i>Superb foliage plant for the shady woodland garden or border.</i>							
Canadensis (Little Brown Jug)	<i>A native plant that features two smooth, broad spade-shaped, dark green, basal leaves. Cup-shaped, insignificant, purplish brown flowers give the plant its nickname, "Little Brown Jug", and appear in spring on short, ground-level stems.</i>						
	Purplish brown	Green	May	6-12"	12"	-	-
Europaeum	<i>It slowly form a solid patch of glossy, dark green rounded leaves, which remain evergreen in mild winter regions. Brownish flowers are insignificant, hiding underneath the foliage. Use this in small areas, since the plants take a few years to establish.</i>						
	Brown	Green	May-June	8"	8"	-	-
Splendens	<i>Forms a clump of arrowhead shaped leaves, dark green with handsome silver markings like a Cyclamen. Deep purple-brown flowers hide among the leaves in spring.</i>						
	Deep purple	Green/Silver	May-June	8"	8"	-	-
ASCLEPIAS incarnata (Swamp Milkweed) ☼ Zone 3 <i>Asclepias incarnata, the swamp milkweed, rose milkweed, rose milk flower, swamp silkweed, or white Indian hemp, is a herbaceous perennial plant species native to North America. It grows in damp to wet soils and is cultivated as a garden plant for its flowers, which attract butterflies and other pollinators with nectar. Like most other milkweeds, it has sap containing toxic chemicals, a characteristic that repels insects and other herbivorous animals.</i>							
✂ Cinderella	<i>Forms a tall, upright clump of long green leaves, bearing clusters of rosy-pink, vanilla-scented flowers in mid-summer that are a magnet to butterflies!</i>						
	Pink	Green	July-August	3-5ft	24"	-	-
✂ Ice Ballet	<i>Strong pure white umbels. Extremely attractive to butterflies.</i>						
	White	Green	July-August	40"	24"	-	-
✂ incarnata	<i>Native variety.</i>						
	Pink	Green	July-August	3-5ft	24"	-	-
ASCLEPIAS tuberosa (Butterfly Weed) ☼ Zone 4 <i>Excellent summer bloomer, fine border plant, removing faded flowers encourages continual bloom. Breaks dormancy late.</i>							
✂ Butterflies Mix	<i>Mixture of yellow, orange, and red flowers. Very showy for butterflies and hummingbirds.</i>						
	Assorted	Green	July-August	24"	24"	-	-
ASTER alpine ☼ Zone 2 <i>An early-blooming species, often grown in rock gardens or used for edging in the perennial border. Plants form a low clump of bright green leaves. Branching stems of single daisy-shaped, yellow-eyed flowers appear in late spring and early summer. Not a long-lived plant, but will self-seed to produce successive generations, if allowed to.</i>							
Alpinus Mix	<i>The bloom colour may be pink, violet-lavender, dark purple-black, or white-near white and may bloom in late spring or early summer</i>						
	Mix	Green	May-June	12"	8"	-	-
Happy End	<i>Blooms in shades of rose and pink.</i>						
	Pink	Green	May-June	12"	8"	-	-
ASTER divaricatus (Wood Aster) ☼ Zone 3							
Eastern Star	<i>It is shorter than the species and has deep dark shining mahogany stems.</i>						
	White	Green	August-Oct.	18-24"	18"	-	-
ASTER laevis ☼ Zone 4							
Blue Bird	<i>This tall, vase-shaped wildflower has large 1" diameter blue flowers held in cloud-like clusters at the tips of the arching branches. You can pinch back the young shoots in June for denser habit and more flowers, but it is not essential. Staking is helpful by late summer if you forget to pinch. Perfectly clean foliage makes for easy maintenance in production and in the landscape. Aster laevis is a great source of nectar for migrating monarchs and other late season butterflies.</i>						
	Blue	Green	Sept-Oct.	36-48"	12"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
ASTER novae-angliae ☼ Zone 3 <i>A bright display of daisy like flowers. Excellent cut flower.</i>							
✂ Purple Dome	Heavy bloomer. A solid mass of purple blooms with yellow centre in fall. Purple	Green	August-Oct.	18"	18"	-	-
ASTER novi-belgii (New York Aster) ☼ <i>Clusters of clear semi-double flowers. Excellent fall colour.</i>							
Wood's Blue	Dwarf compact habit. Clear semi-double light blue blooms. Prolific bloomer. Excellent resistance to mildew and rust. Blue	Green	August-Oct.	12"	12"	-	-
Wood's Pink	Dwarf compact habit. Clear semi-double pink blooms. Prolific bloomer. Excellent resistance to mildew and rust. Pink	Green	August-Oct.	12"	12"	-	-
Wood's Purple	Dwarf compact habit. Clear semi-double purple blooms. Prolific bloomer. Excellent resistance to mildew and rust. Purple	Green	August-Oct.	12"	12"	-	-
ASTILBE arendsii (False Spirea) ☼● Zone 4 <i>Large flower spikes appear over upright mounds of lacy foliage.</i>							
✂ Amethyst	Many strong plumes of lavender in early summer. Lavender-rose	Green	June-July	18"	18"	-	-
✂ Bressingham Beauty	Dusty salmon-rose plumes on long arching stems. Long lasting bloom. Salmon-rose	Green	June-August	36"	24"	-	-
✂ Bridal Veil	Lacy white panicles gently droop on deep green glossy foliage. White	Deep Green	July	28"	18"	-	-
✂ Chocolate Shotgun	Incredible dark glossy purple, chocolate-purple lacy foliage is the deepest darkest foliage color by far in an Astilbe. Blooms of soft pink appear in late summer to about 2 feet tall. Light pink	Purple-black	August-Sept.	18-24"	18"	-	-
✂ Fanal	Deep blood red narrow spikes, foliage is mahogany in spring turning to green in summer. Red	Bronze to green	June-August	16"	15"	-	-
✂ Montgomery	Dark red triangle shaped plumes, darker red stems, leaf has bronze red tint in spring that turns to dark green Red	Bronze-red	June-Aug.	24"	15"	-	-
ASTILBE chinensis ☼● Zone 4 <i>These have very dense, lacy foliage, bloom a little later than other varieties.</i>							
Fireberry	A more compact form of astilbe from the dwarf varieties of the Short' n Sweet series™. Plants have raspberry-pink feathery blooms with petite green foliage. Raspberry	Dark green	July-Sept.	12-15"	18"	-	-
✂ Maggie Daley	Bright lavender-purple plumes are dense and fuzzy. Shiny dark green foliage. Lavender	Green	July-Sept.	24"	14"	-	-
Pumila	Popular dwarf groundcover variety. One of the last varieties to bloom. Lavender	Green	August-Sept.	10"	12"	-	-
✂ Visions	Dwarf sweetly scented, diamond shaped plumes. Ground hugging foliage. Lilac-purple	Green	July-Sept.	14"	12"	-	-
✂ Visions in Pink	Pale pink blooms over a very upright plant habit Pink	Green	July-August	16"	14"	-	-
✂ Visions in Red	Extremely good long lasting true red-purple plumes. Sun tolerant. Red	Green	July-Sept.	16"	14"	-	-
✂ Visions in White	Has pointed plumes of long-lasting white flowers over deep green foliage with hints of bronze. White	Green	July-Sept.	16"	14"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
ASTILBE hybrida ☼● Zone 4							
Amber Moon	<i>This Astilbe is useful for brightening up the shade garden as well as providing beautiful long-stemmed flowers for fresh and dried bouquets. The foliage emerges bright chartreuse yellow in spring with a tinge of red pigment in the newest leaves. It provides a bright spot of color and lacy texture to the shade garden in spring and then greens up a bit by late summer. Very tall, strong, bluish red stems carry rose pink flower panicles in midsummer.</i>						
	Pink	Chartreuse	July-Sept.	34"	22"	-	-
Colour Flash	<i>Everchanging foliage emerge a brilliant green and matures to a blend of burgundy, purple and green in summer. In fall, foliage morphs again into shades of gold, orange, and russet. Light pink flowers appear above foliage.</i>						
	Pink	Assorted	July-Sept.	18-20"	16-18"	-	-
Colour Flash Lime	<i>Its leaves emerge light green and develop an intense yellowing as the season progresses. This plant is ideal for containers, shaded perennial gardens and borders where its vibrant colored leaves provide a flash of color all season long.</i>						
	Blush pink	Lime	July-Sept.	10(15)"	18"	-	-
Dark Side of the Moon	Proven Winner Variety! Sold in Proven Winner pots. <i>The only dark leaved Astilbe with purple flowers on the market. Rich deep chocolate burgundy leaves form an incredibly attractive mound of foliage. Emerging leaves are yellow with a dark margin with a glossy sheen that become completely dark as they age. Dark stems hold raspberry buds that burst forth with rosy purple flowers. This performs best both for growing and flowering in full sun in the north with adequate moisture, but also grows in shade.</i>						
	Purple	Dark green	July-Sept.	20"(28")	24"	-	-
Delft Lace	<i>Blue-green foliage with red highlights. Deep red stems carry panicles of deep salmon red buds opening to apricot pink blooms. An improvement over Peach Blossom.</i>						
	Apricot-pink	Dark green	July-Sept.	12-15"	18"	-	-
Mighty Chocolate Cherry	<i>Tall growing, strong, velvety-red flower spikes, divided dark green and chocolate brown to reddish foliage.</i>						
	Cherry Red	Green/red	July-Sept.	45"	30"	-	-
Yonique	<i>Low mound of lacy green foliage, topped by large branching beads of fragrant plumes. Bred by Jan Verschoor.</i>						
Cerise	Pink	Green	June-July	12-16"	14-18"	-	-
Lilac	Lilac	Green	June-July	12-16"	14-18"	-	-
Ruby Red	Red	Green	June-July	12-16"	14-18"	-	-
Silvery Pink	Lt. Pink	Green	June-July	12-16"	14-18"	-	-
White	White	Green	June-July	12-16"	14-18"	-	-
ASTILBE japonica ☼● Zone 4 <i>Most have large pyramidal-shaped plumes and vibrant colours. This is a short species with narrow sharply toothed, glossy dark green foliage. Use for borders and woodland.</i>							
✂ Europa	<i>Mounded, lacy green foliage with fragrant, rose-pink plumes.</i>						
	Pink	Green	June-July.	24"	20"	-	-
✂ Peach Blossom	<i>Warm-toned blooms of peachy coral, plus ferny foliage with bronze highlights among the green.</i>						
	Coral	Green	June-Sept.	24"	24"	-	-
ASTILBE simplicifolia ☼● Zone 4 <i>Have a compact habit making them excellent for a low groundcover or edging. Foliage is not as lacy as other types but darker in colour.</i>							
✂ Sprite	<i>Lovely shell pink blossoms. The rust seed beads add winter interest. The foliage is an excellent bronze-green.</i>						
	Pink	Green	July-Sept.	12"	12"	-	-
ASTILBE thunbergii ☼● Zone 4 <i>Large panicles of bloom have a drooping appearance and red flower stalks.</i>							
✂ Ostrich Plume	<i>A taller, later blooming beauty with pink drooping trusses.</i>						
	Rose	Green	July-August	30"	18"	-	-
ASTILBOIDES ☼● Zone 4 <i>An unusual perennial, formerly known as Rodgersia tabularis. Best in a very moist area, even beside a stream or pond. In hot, humid summer regions this is best in partial shade. Will tolerate full sun with plenty of moisture and rich soil.</i>							
Tabularis	<i>Forms a large specimen-sized mound of deep green circular, umbrella-like leaves. Big creamy white plumes of Astilbe-like flowers make an appearance in early summer.</i>						
	White	Green	July	36"	35"	-	-
ASTRANTIA (Masterwort) ☼● Zone 4 <i>Masterwort is highly regarded by floral designers for the unique umbels of starry flowers, a bit like a refined Queen-Anne's-Lace in effect, but not at all weedy in habit. Ideal groundcover for a woodland garden in dappled sun.</i>							
✂ Major 'Hadspen Blood'	<i>Bright green leaves with red highlights in spring, and flowers that are dark rose red. It has excellent re-bloom during the summer.</i>						
	Rose-red	Dark green	June-August	36"	24"	-	-
✂ Major 'Star 'of Beauty'	<i>Produces umbels of pincushion-shaped white flowers with magenta-purple tips, arranged like spokes on a wheel.</i>						
	Purple/white	Dark green	June-August	20"	22"	-	-

BROWNRIDGE greenhouses & nursery ltd.

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
AUBRIETA (Rock Cress) ☀️🌿 Zone 4 <i>Low, evergreen mat-forming, blooms form a solid mound of colour. Excellent in borders and rock gardens.</i>							
Audrey Sky Blue	<i>Large flowers on compact, uniform plants produce a good display of color.</i>						
	Lt. blue	Grey-green	April-May	6-8"	24"	-	-
Glacier Series							
	Red	Grey-green	April-May	4-8"	12"	-	-
	Sky Blue	Grey-green	April-May	4-6"	12"	-	-
Whitewell Gem							
	<i>Dense cushion of cascading foliage is smothered in flowers in spring</i>						
	Pink	Grey-green	April-May	4-6"	12"	-	-
AURINIA saxatilis (Perennial Alyssum) ☀️🌿 Zone 3 <i>Forms a low, trailing mound of silvery-grey leaves, bearing masses of bright-yellow flowers in mid to late spring. Clip plants lightly after blooming to maintain a bushy habit. Requires good drainage.</i>							
Mountain Gold							
	<i>Compact silvery mats are smothered by fragrant yellow flowers</i>						
	Gold	Grey-green	May-June	10"	12"	-	-
Summit							
	<i>Forms a low bushy mound of grey-green leaves, smothered by masses of tiny, bright golden-yellow flowers for several weeks. Is compact and has excellent disease resistance.</i>						
	Gold	Grey-green	May-June	10"	12"	-	-
BAPTISIA (False Indigo) ☀️🌿 Zone 4 <i>Thrives in poor, dry locations but resents being moved once established.</i>							
Twilite Prairieblues							
	<i>Forms a tall and bushy clump of healthy blue-green leaves, bearing long tapering spikes of violet purple flowers with yellow markings.</i>						
	Yellow/violet	Grey-green	June-July	36-42"	36"	-	-
BELAMCANDA chinensis ☀️🌿 Zone 5 <i>Derives its name from the clusters of shiny black seeds exposed when seed capsules split open. Even though it is called a lily it is actually in the Iris family.</i>							
Blackberry Lily							
	<i>Fan-shaped iris like foliage. Brightly coloured orange and yellow speckled blooms.</i>						
	Orange/yellow	Green	August	30"	12"	-	-
BELLIS (English Daisy) ☀️🌿 Zone 3 <i>Used for bedding with spring-blooming bulbs, massing, edging, dislikes hot weather.</i>							
Bellissima Mix							
	<i>This strain flowers well even in the first year, with cute little double button flowers of bright red, pink or white.</i>						
	Mix	Green	May-June	6"	10"	-	-
Bellissima Red							
	<i>This strain flowers well even in the first year, with cute little double button flowers of bright red.</i>						
	Red	Green	May-June	6"	10"	-	-
Bellissima Rose							
	<i>This strain flowers well even in the first year, with cute little double button flowers of rose.</i>						
	Rose	Green	May-June	6"	10"	-	-
Tasso Strawberries and Cream							
	<i>Produces large, pomponette flowers of pink and white.</i>						
	Pink	Green	May-June	6"	10"	-	-
BERGENIA (Pig-squeak) ☀️🌿 Zone 3 <i>Bergenia earned the common name Pigsqueak due to the squeaky sounds the leaves make as they are rubbed together. Incredibly hardy, and reliable evergreen. The winter leaves are a valuable addition to cut flower bouquets. Most effective when mass planted or used as an edging along a walkway.</i>							
Bressingham White							
	<i>Foliage is red in winter and early spring. Flowers are pure white and held on taller stems, clear of the foliage</i>						
	White	Green	May-June	10"	14"	-	-
Cordifolia							
	<i>Plants form a low clump of bold, leathery green leaves, which often turn bronze during winter. Short stems of magenta-pink flowers rise above the shiny foliage in mid spring.</i>						
	Pink	Green	May-June	12-18"	18-23"	-	-
Cordifolia 'Winter Glut'							
	<i>Shiny evergreen, cabbage-like leaves with unique leathery appearance. Turns reddish bronze in fall and winter. Bright red flowers.</i>						
	Red	Green	May-June	20"	18"	-	-
Cordifolia 'Shoeshine Rose'							
	<i>Features strong stems of deep rose blooms rising above the glossy, dark green foliage in mid spring.</i>						
	Rose	Green	May-June	20"	18"	-	-
Dragonfly Sakura							
	<i>This selection forms a low clump of green leaves, which develop rich plum-red tones in the winter. Taller stems of bright pink, double to semi-double flowers rise above the shiny foliage in mid spring. This Bergenia was introduced to the market by Terra Nova Nurseries of Oregon. The blossoms reminded them of cherry blossoms and since that is "Sakura" in Japanese, that's what they named it.</i>						
	Pink	Green	May-June	12-14"	12"	-	-
Miss Piggy							
	<i>Proven Winner Variety! Sold in Proven Winner pots. In early spring, a stunning display of bright pink flowers top the thick, dark green, glossy leaves. Compared to 'Sakura', 'Miss Piggy' has more consistent pink flower color, a larger canopy of foliage, and broader, more substantial leaves. The perfect choice to jumpstart your garden after the snow melts.</i>						
	Pink	Green	May-June	16"	28"	-	-

BROWNRIDGE greenhouses & nursery ltd.

Phone: (905)878-1948 Toll Free: 1(800) 551-0176 Facsimile: (905) 878-9511 e-mail: info@brownridgegreenhouses.com

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
BRUNNERA (Siberian Bugloss) ☼☾ Zone 3 <i>Light blue flowers resembling forget-me-not cover these beautiful low clumps of heart shaped leaves in the spring. Ideal for the moist, shaded area.</i>							
Hadspen's Cream	Blue	Green/cream	May-June	12"	14"	-	-
<i>Variegated leaves with creamy-white margins. Plant has good stability and is good for shady borders or open woodlands.</i>							
Jack Frost	Blue	Green-silver	May-June	15"	15"	-	-
<i>2012 Perennial Plant of the Year! Heart-shaped silver leaves, delicately veined with mint green. Handles more direct sun than most other variegated types of Brunnera</i>							
Jack Of Diamonds	Blue	Green-silver	May-June	16"(30")	28"	-	-
<i>Proven Winner Variety! Sold in Proven Winner pots. A giant version of the classic 'Jack Frost'-with a twist. The huge 9-10" leaves overlap dramatically at the base giving it a shape like the snail delicacy escargot. Overall, the foliage is circular from a distance. The leaves have a heavy silver overlay with vivid wide, dark green veining pattern. From mid to late spring, baby blue, forget-me-not type blossoms are held in clusters above the foliage.</i>							
Macrophylla	Blue	Green	May-June	12"	12"	-	-
<i>Common brunnera has green leaves with silver overlay.</i>							
Queen of Hearts	Blue	Green-silver	May-June	16"(30")	28"	-	-
<i>Proven Winner Variety! Sold in Proven Winner pots. This stunning foliage perennial will be the queen of the shade (and your heart). Compared to its companion plant 'Jack of Diamonds', 'Queen of Hearts' has more heart-shaped leaves and more pronounced silver overlay with narrower bands of dark green veining. From mid to late spring, baby blue, forget-me-not type blossoms are held in clusters above the foliage.</i>							
Sea Heart	Blue/pink	Green-silver	May-June	6-12"	12-23"	-	-
<i>A clump of very thick, heart-shaped leaves that are green-on-silver with pronounced veining. Sprays of two-tone pink and blue Forget-me-not flowers appear in spring. This is a choice collector's plant, but an easy-to-grow perennial that performs well in all but the driest of shady areas.</i>							
Variegata	Blue	Green-cream	May-June	12"	12"	-	-
<i>Huge leaves with irregular creamy white leaf margins, some leaves are almost entirely cream.</i>							
CALAMINTHA (Calamint Savory) ☼☾ Zone 5 <i>Close cousins to the garden mint, but without the nasty spreading habit. Useful towards the front of the border, or in a woodland setting among Hosta or ferns. Also attractive in mixed containers. Remove any all-green shoots as soon as they are noticed, since this plant has a tendency to revert.</i>							
Nepeta	White	Green/Blue	July-frost	14"	14"	-	-
<i>Perennial Plant of the Year 2021! Compact mounds of tiny white flowers bluish with a hint of blue with age. Very fragrant foliage.</i>							
Variegata	Pink	White-green	July-August	18"	18"	-	-
<i>Forms an upright, bushy mound of soft green leaves, splashed with creamy white. Rosy-pink flowers are studded on short spikes among the leaves.</i>							
CAMPANULA Carpatica (Bellflower) ☼☾ Zone 2 <i>One of the most popular Bellflowers. Plants form a low, cushion-shaped mound of small green leaves, with loads of up-facing, open bells appearing in early summer. Excellent choice for the rock garden, edging and in containers. Will bloom longer if old blooms are removed.</i>							
Rapido Blue	Blue	Green	July-Sept.	8"	12"	-	-
<i>Wonderful true-blue flowers cover this plant. Improvement on the 'Clips' series</i>							
Rapido White	White	Green	July-Sept	8"	12"	-	-
<i>Pure clear white flowers. Improvement on the 'Clips' series.</i>							
CAMPANULA Garganica ☼☾ Zone 4							
Dickson's Gold	Blue	Chartreuse	June-August	6-8"	18"	-	-
<i>Golden toothed foliage offers a stunning contrast to small lavender blue flowers. Needs afternoon shade to keep its golden colour.</i>							
CAMPANULA Glomerata ☼☾ Zone 2 <i>Will produce a low clump of large green leaves. Medium-tall upright stems appear in early summer. Plants will quickly form a large clump, so allow plenty of space when planting, or plan to reduce the size each spring. Plants may benefit from a hard clipping back immediately after blooming, to maintain a low, compact mound.</i>							
✂ Angel Bells	White	Green	June-July	14-18"	16"	-	-
<i>Proven Winner Variety! Sold in Proven Winner pots. A spectacular floral show over dense mounds of green foliage. Use these plants to line borders or in mass plantings for a head turning display. Well-formed clusters of white flowers.</i>							
✂ Freya	Lilac Purple	Green	June-July	14-16"	12"	-	-
<i>Forms a knee-high clump of coarse green leaves and stems that bear large clusters of star-shaped, lilac-purple flowers in early summer.</i>							
✂ Superba	Blue	Green	June-July	28"	18"	-	-
<i>Large, showy clusters of rich purple funnel-shaped flowers. Good cut flower.</i>							
CAMPANULA Persicifolia ☼☾ Zone 3 <i>Forms small clumps of low-growing foliage sending up tall stems of bellflowers in shades of white, blues and violets. Leaves at base of plant are larger and broader than stem leaves.</i>							
✂ Taktion Blue	Blue	Green	June-July	20"	12"	-	-
<i>Compact strain, with the classic cup-shaped violet-blue bell flowers but with a showier out-facing habit.</i>							
✂ Taktion White	White	Green	June-July	20"	12"	-	-
<i>Compact strain, with the classic cup-shaped white bell flowers but with a showier out-facing habit.</i>

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
CAMPANULA Poscharskyana (Serbian Bellflower) ☼☾ Zone 4 <i>This is a vigorous plant, keep it away from delicate alpine plants that could be accidentally smothered.</i>							
Blue Waterfall	<i>Lovely cascading habit. A gush of cool blue, bell-shaped flowers cascade from the center of the plant.</i>						
	Blue	Green	July-Sept.	10"	24"	-	-
CAMPANULA Punctata ☼☾ Zone 4							
Pink Octopus	Zone 5	<i>Weeping buds, the thin, bright candy pink petals spray downward in dancing swirls against a cool background of deeply cut, dark green foliage.</i>					
	Pink	Green	June-July	12-15"	15"	-	-
CATANANCHE ☼ Zone 5 <i>Sturdy stems with papery blossoms. Makes a great cut flower. Thrives in sunny summer borders.</i>							
✂ Cupid's Dart	<i>Traditionally was used in love potions</i>						
	Mauve-blue	Silver-grey	June-Sept	15-24"	24"	-	-
CENTAUREA (Bachelor Button) ☼ Zone 3 <i>Thistle-shaped bloom, long lasting cut flower, cut back will re-bloom</i>							
✂ Amethyst Dream	<i>Vivid amethyst flowers on soft green foliage.</i>						
	Purple	Grey-green	June-July	14"	28"	-	-
✂ Amethyst in Snow	<i>Unique color combination of satiny white petals surrounding a deep royal purple center.</i>						
	White-purple	Grey-green	June-July	14"	28"	-	-
✂ Montana Blue	<i>An erect, clump-forming perennial which features solitary, fringed, rich blue 2" cornflowers with reddish blue centers.</i>						
	Blue	Green	June-July	24"	24"	-	-
CERASTIUM (Snow in Summer) ☼ Zone 2 <i>Very drought tolerant. Excellent groundcover.</i>							
Silvery Summer	<i>Low, silver-grey plant with white flowers in late spring. Cascades over walls nicely. Cut back hard in the early spring for best results.</i>						
	White	Grey	May-June	8"	18"	-	-
CERATOSTIGMA (Leadwort) ☼☾ Zone 5 <i>Deep blue flowers, foliage turns maroon red in fall. Nice ground cover or in front of border.</i>							
Plumbago	<i>Versatile groundcover with intriguing leaves and breathtaking gentian-blue flowers. In autumn foliage turns brilliant scarlet.</i>						
	Blue	Green	August-Oct.	8-12"	18"	-	-
CHELONE (Turtle Head) ☼☾ Zone 3 <i>Loves moist areas and is pest resistant, excellent for cutting. Pinching shoot tips in early summer results in fuller plants. Outstanding for fall flower colour.</i>							
✂ Hot Lips	<i>Emerging in spring, the handsome, purple-bronze foliage changing to a glossy green. Bright pink tubular flowers in early fall.</i>						
	Bright Pink	Glossy green	August-Sept.	28"	18"	-	-
✂ Oblique Alba	<i>Clear white turtleheads.</i>						
	White	Glossy green	August-Sept.	28"	18"	-	-
✂ Oblique Pink	<i>Dark glossy green leaves and topped in September with many-lavender turtleheads.</i>						
	Pink	Glossy green	August-Sept.	28"	18"	-	-
CONVALLARIA (Lily of the Valley) ☾● Zone 3 <i>Ground cover for shady sites. Old fashion cut flower.</i>							
✂ Majalis (common)	<i>Excellent groundcover in woodland gardens</i>						
	White	Green	May-June	6-8"	6-8"	-	-
COREOPSIS auriculata (Maysville Daisy, Mouse Ears) ☼ Zone 4 <i>A wonderful little plant for edging, the rock garden, or growing in containers. Plants form a small mound of leathery green leaves, bearing bright golden-orange single daisies in late spring and early summer. Remove faded flowers to encourage repeat blooming. Dislikes drying out. Tolerates hot, humid summers. Attractive to butterflies</i>							
✂ Jethro Tull	<i>Brilliant golden yellow flowers with fluted petals and a compact habit</i>						
	Golden yellow	Green	June-Sept.	15"	18"	-	-
Nana	<i>1.5" yellow orange blooms over low spreading mats of deep green lobed leaves</i>						
	Golden	Green	June-July.	7-9"	18"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
COREOPSIS grandiflora (Tickseed) ☼ Zone 4-5 <i>Blooms constantly to frost, remove fading blooms. Can become leggy and tipsy if grown in crowded conditions but are generally sturdy and upright to eighteen inches if it gets good sun from top to bottom of the clump. Tolerant of hot, humid summer climates. Attractive to butterflies.</i>							
☒ Early Sunrise	Zone 5	<i>All American Winner! Semi-double bright yellow flowers. Blooms 3-4 weeks earlier than other varieties</i>					
		Yellow	Green	June-Sept	24"	18"	-
☒ Sunfire	Zone 4	<i>Bushy, mid-sized selection forms a mound of leathery green leaves, bearing upright stems loaded with single golden-yellow flowers with a burgundy eye. Tolerant of hot, humid summer climates. Attractive to butterflies. A 2004 Fleuroselect Gold Medal Winner.</i>					
		Yellow/red	Green	June-Sept	16-18"	12"	-
☒ Tequila Sunrise		<i>The olive-green leaves are heavily variegated with an irregular marking of creams and yellows. The new growth in the spring picks up a pinkish-red tint. In the fall, it takes on a darker mahogany color. Daisy-like yellow-orange flowers.</i>					
		Golden	Green-gold	June-Sept.	18"	18"	-
COREOPSIS hybrid (Tickseed) ☼ Zone 3 <i>Blooms constantly to frost, remove fading blooms. Can become leggy and tipsy if grown in crowded conditions but are generally sturdy and upright to eighteen inches if it gets good sun from top to bottom of the clump.</i>							
Big Bang Mercury Rising		<i>A very long-blooming perennial for sunny areas, forming a narrow, upright mound of medium-textured leaves. The exceptionally large velvety-wine daisies have a contrasting gold-orange button centre, appearing in succession from mid summer to mid autumn.</i>					
		Red	Green	July-Sept.	18"	24-36"	-
Lil Bang Daybreak		<i>Golden yellow blooms have broad red banding surrounding yellow center.</i>					
		Yellow-Red	Green	July-Sept.	10"	12"	-
COREOPSIS verticillata (Tickseed) ☼ Zone 3 <i>Blooms constantly to frost. Remove fading blooms for best results. The airy slender foliage makes it a good choice for a crowding fill-in plant amidst other sun-loving perennials, for it will not shade anything.</i>							
American Dream		<i>Rose-pink flowers with cheerful yellow eyes lay among the tight, green foliage.</i>					
		Rose	Green	July-Sept.	12"	14"	-
Moonbeam		Perennial Plant of the Year 1992. <i>A classic with airy texture and continuous bloom throughout the summer</i>					
		Lemon yellow	Green	July-Sept.	18"	18"	-
Zagreb	Zone 4	<i>Clear golden yellow flowers upon fern-like foliage.</i>					
		Golden-yellow	Green	July-Sept.	15"	15"	-
CORYDALIS ☼☾ Zone 5 <i>Ferny foliage and upright stems of delicate showy flowers. Great for rock walls or slopes. Plants may go dormant in mid summer, sometimes coming up again in the fall, or otherwise the following spring.</i>							
Porcelain Blue		<i>Clump of lacy green leaves with electric-blue, tubular flowers dangle above the foliage.</i>					
		Deep Blue	Green	May-Sept	8-16"	10"	-
CROCOSMIA ☼ Zone 5 <i>Cousins to the gladiola, these are hardy plants that produce clumps of green sword-shaped leaves, with tall, arching spikes of funnel-shaped blossoms appearing in mid to late summer.</i>							
Ember Glow		<i>Large flowers that are a rich, deep burnt scarlet-red</i>					
		Red	Green	July-August	36-42"	12"	-
Lucifer		<i>Brilliant flame red flowers stand in rows on wiry, arched stems. The broad, sword foliage adds a spikey element to the landscape.</i>					
		Red	Green	July-August	36-42"	12"	-
DELOSPERMA (Hardy Ice Plant) ☼ Zone 6 <i>The hardy Ice Plants are native to dry areas in South Africa but are amazingly hardy in North America, provided they are grown in very well-drained soil. Makes an excellent groundcover for hot, dry slopes, and will tolerate poor sandy soil. Drought tolerant.</i>							
Cooperi		<i>Succulent, needle-like leaves studded with fluorescent 2" wide daisy pink flowers. Good red fall colour.</i>					
		Pink	Green	July-August	4-6"	12"	-
Fire Spinner		<i>Forms a low carpet or mat of succulent, apple-green leaves, bearing loads of starry flowers with petals that are bright apricot around the perimeter with a darker halo effect, vibrant pink at the base and a white eye.</i>					
		Apricot/Pink	Green	July-August	4-6"	12"	-
Ocean Sunset Violet		<i>Ocean Sunset has a high flower count per plant, with the largest flowers of any Delosperma, on a great habit. Outstanding performance in pots, with showy flowers that close at night and open mid-morning.</i>					
		Violet	Green	Summer-Fall	4-6"	10-12"	-
Red Mountain Flame		<i>Produces masses of fiery red flowers with magenta and white circling the yellow stamens all summer long on shiny, deep green foliage.</i>					
		Red	Green	Summer-Fall	3-5"	10-12"	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot	
						18/tray	5.5" pot
DELPHINIUM (Larkspur) ☼ Zone 3 <i>Delphiniums are the stars of the early summer border. Plants form a low mound of deeply-cut green leaves, bearing tall spikes of satiny flowers. Removing faded spikes at the base will encourage repeat blooming in fall. In hot, humid summer regions, plants do not usually last more than 2 to 3 years. Plants are often attacked by mildew in mid summer; simply cut back hard to encourage fresh foliage. Use a high phosphorous fertilizer each year, in early spring. CAUTION: Harmful if eaten.</i>							
✕ Blue Mirror	<i>This strain forms a low, bushy mound of lacy green leaves. Plants bear loose sprays of single electric-blue flowers throughout the summer. Ideal for containers, the rock garden and for edging the sunny border.</i>						
	Blue	Green	July-August	12-18"	10"	-	-
✕ Delphina	<i>Naturally compact habit.</i>						
	Dark Blue White Bee	Dk Blue/WhiteEye	Green	June-August	18-20"	14-16"	-
	Light Blue White Bee	Lt Blue/White Eye	Green	June-August	18-20"	14-16"	-
	Rose White Bee	Rose/White bee	Green	June-August	18-20"	14-16"	-
✕ Guardian	<i>Mid-sized selection has strong stems that are great for cutting.</i>						
	Blue	Blue	Green	June-July	30-40"	14"	-
✕ Magic Fountains Series	<i>Dwarf, early variety. Good for windy locations where taller varieties may be damaged.</i>						
	Cherry Blossom	Pink/white bee	Green	June-August	24-30"	14"	-
	Dark Blue Dark Bee	Dark blue	Green	June-August	24-30"	14"	-
	Lavender	Lavender/whitebee	Green	June-August	24-30"	14"	-
	Sky Blue	Light blue	Green	June-August	24-30"	14"	-
	Pure White	White	Green	June-August	24-30"	14"	-
✕ Pacific Giant Series	<i>Elegant flowers stalks. Well suited to backgrounds and along fences</i>						
	Astolat	Lavender/black bee	Green	June-August	5-6ft	18"	-
	Black Knight	Dp.blue/black bee	Green	June-August	5-6ft	18"	-
	Blue Bird	Blue/white bee	Green	June-August	5-6ft	18"	-
	Black Knight	Dp.blue/black bee	Green	June-August	5-6ft	18"	-
	Galahad	White	Green	June-August	5-6ft	18"	-
	Guinevere	Pink	Green	June-August	5-6ft	18"	-
	Round Table Mix	Assorted colours	Green	June-August	5-6ft	18"	-
	Summer Skies	Sky Blue	Green	June-August	5-6ft	18"	-
✕ Red Lark	<i>A uniquely coloured Delphinium that must be seen to be believed! Coral-red flowers are held just above the foliage at a modest 2½' tall. This variety is produced from tissue culture and has perfect uniformity compared with seed strains. Stem length and branching makes them perfect for use as a cut flower. Foliage is glossy dark green.</i>						
		Green	July-August	30-36"	18-20"	-	-
DELPHINIUM (Larkspur) New Zealand Hybrids ☼ Zone 3 <i>The English hybrid type of delphiniums are bred by New Zealand Delphiniums and are hand crossed to produce the highest quality seed. These F1 hybrids have excellent form, strong stems, and a vigorous growth habit. They were selected for their improved tolerance of heat and humidity, while retaining their cold hardiness.</i>							
✕ Black-eyed Angels	<i>Produces tall spires of frilly white flowers with black bees. The stems are very strong, holding up well in the landscape. Planted en masse, they make a magnificent display in early summer.</i>						
	White/black eye	Green	June-August	4-6ft	18"	-	-
✕ Blue Buccaneers	<i>Dark electric blue flowers hold black bees on strong flower spires. Since it is from seed, some lighter blues may appear. Compared to 'Cobalt Dreams', 'Blue Buccaneers' is more compact, has black bees, and has a more intense blue color.</i>						
	Blue	Green	July-August	48"	20"	-	-
✕ Blue Lace	<i>Densely packed spires of true sky-blue flowers with a touch of lavender pink are presented on very strong stems in early summer. Removing spent flower spikes will result in another round of blooms on secondary spikes in late summer and fall. Its large, deeply incised leaves make this plant attractive even when it's not in bloom.</i>						
	SkyBlue	Green	July-August	60"	18"	-	-
✕ Cobalt Dreams	<i>Produces strong, tall spires tightly packed with cobalt blue florets with brightly contrasting white central bees. They draw your attention from quite a distance and add terrific architectural presence to the garden in early summer and fall. Uniform color and form ensure a stunning display whether planted singly or en masse.</i>						
	Blue/White	Green	July-August	60"	18"	-	-
✕ Mini Pinks	<i>A pink color strain of the popular 'Mini Stars' mix from New Zealand Delphiniums. 'Mini Pinks' are selected for their shorter stature, sturdy stems, and bright pink colors. Their compact height helps them hold up longer without staking.</i>						
	Pink	Green	July-August	30"	18"	-	-
✕ Mini Stars	<i>If you love the look of traditionally tall Delphiniums but they're just too tall for your use, you're in luck! From the breeder of the New Zealand Hybrids comes a series of truly compact Delphiniums that have all the beautiful characteristics of their taller cousins except their height. Topping out under 2½' tall, these new compact Delphiniums never need staking and won't fall over in their pots. They can be grown near the front to middle of the border and work better in windy sites than taller varieties.</i>						
	Mixed	Green	July-August	30"	18"	-	-
✕ Pagan Purples	<i>Bold spires of very dark bluish-purple flowers with white or brown bees stand up to 6' tall, adding a dramatic presence to the landscape in early summer. Approximately 10% of these flowers will be either white or pale mauve and are often double flowered.</i>						
	Bluish purple	Green	July-August	60"	18"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
DIANTHUS barbatus (Sweet William) ☼ Zone 3 Biennial, Excellent for cutting. Remove fading flowers to encourage more buds to form. Pruning plants back hard after blooming will encourage them to survive for another year. Self-sown seedlings may be moved in fall or early spring.							
Double Dwarf Mix	Produces a low mound of light green leaves, bearing shony clusters of bright double flowers in mixed shades from white through to pink, salmon and red, often with a contrasting eye.						
	Assorted	Green	June-July	6-8"	12"	-	-
Indian Carpet Mix	Mixed shades of red and pink blossoms held upright over mounds of rich foliage.						
	Assorted	Green	June-July	12"	12"	-	-
DIANTHUS Caryophyllus (Carnation) ☼ Zone 4 Very nice clove fragrance. Dislikes beat.							
Grenadin Mix	Lovely clove-scented favorites in a rainbow of colors.						
	Assorted	Grey-green	June-July	20"	12"	-	-
DIANTHUS gratianopolitanes (Cheddar Pink) ☼ Zone 3 Cheddar pinks are best in rock gardens, border fronts or in some difficult sites such as rocky slopes or over stone walls. Effective small area ground cover. Also, an effective edging plant.							
Firewitch	Perennial Plant of the Year 2006! Spreading low growing form with blue green foliage and magenta blooms						
	Magenta	Silver-grey	May-June	6"	12"	-	-
DIANTHUS hybrida (Pinks) ☼ Zone 3-5 A diverse group of plants, many are low growing suited to rock-gardens and edging.							
Appleblossom Burst	A mixture of white and intense pink blsh flowers over grey-green foliage.						
	White/Pink	Silver-grey	May-Oct.	8-10"	16"	-	-
Electric Red	Dramatic, rich red flowers that grab you from a distance. Flowers are held on strong stems above blue-green leaves.						
	Red	Silver-grey	May-Oct.	4-8"	12"	-	-
First Scent Series	This series of border pinks are known for their spicy fragrance, compact habit, and long bloom season. Double blooms.						
Coconut Surprise	White	Silver-Grey	May-Oct	8"	12"	-	-
Coral Reef	Coral with Light Pink/White edges	Silver-Grey	May-Oct	8"	12"	-	-
Raspberry Surprise	Pink with Burgundy centre	Silver-Grey	May-Oct	8"	12"	-	-
Tickled Pink	Lavander-Pink	Silver-Grey	May-Oct	8"	12"	-	-
Frosty	Early and long-blooming, miniature snowballs glisten against short mounds of blue-green foliage.						
	White	Blue-green	May-August	6-8"	8-10"	-	-
Frosty Fire	Fully double, cherry-red flowers often flaked with white.						
	Red	Blue-green	May-June	6"	12"	-	-
Fruit Punch Series	Proven Winner Variety! Sold in Proven Winner pots. Fully double, carnation-like flowers. 1 in wide flowers with a fine, serrated edges. The sweetly scented flowers appear proportionately above the narrow, blue-green foliage.						
Black Cherry Frost	Velvet-Red	Silver-Grey	May-Oct	8"	12"	-	-
Cherry Vanilla	Dp. Red/Lt Pink edge	Silver-Grey	May-Oct	8"	12"	-	-
Classic Coral	Coral	Silver-Grey	May-Oct	8"	12"	-	-
Cranberry Cocktail	Red	Silver-Grey	May-Oct	8"	12"	-	-
Funky Fushia	Fushia	Silver-Grey	May-Oct	8"	12"	-	-
Maraschino	Red with Burg. eye	Silver-Grey	May-Oct	8"	12"	-	-
Spiked Punch	Fushia/Dp. Redeye	Silver-Grey	May-Oct	8"	12"	-	-
Sweetie Pie	Pink/ Dk. Pink eye	Silver-Grey	May-Oct	8"	12"	-	-
Paint the Town Series	Proven Winner Variety! Sold in Proven Winner pots. These beauties are prized for their bright colors and increased beat tolerance. Paint the Town' has single 3/4-1" flowers atop a low mound of glaucous blue foliage.						
Fancy	Fushia w/ Red eye	Silver-Grey	May-Oct	8"	12"	-	-
Fushia	Fushia	Silver-Grey	May-Oct	8"	12"	-	-
Magenta	Magenta	Silver-Grey	May-Oct	8"	12"	-	-
Red	Red	Silver-Grey	May-Oct	8"	12"	-	-
Pretty Popper 'Double Bubble'	This series are semi-evergreen that offer an abundance of flowers. Double, medium pink flowers that are very floriferous and petite.						
	Pink	Green	June-August	6-8"	6-8"	-	-
Raspberry Swirl	Single light-pink flowers with deep maroon picotee edge and eye.						
	White/maroon	Silver-grey	May-June	7"	12"	-	-
Rosebud	Bright coral pink double blooms all summer.						
	Coral pink	Blue-green	June-Aug.	7"	12"	-	-
Single Ladies Red Rouge	Burgundy red flowers have rosy pink flecking and edges. Each bloom is slightly serrated for additional texture. Flowers are notably large for single Dianthus at 1 1/2" wide. Plants in this series have domed habits contrasted in multiple layers of large, single flowers. The domed, well-rounded habits contrast the typical flat, spreading habits of other single varieties.						
	Red	Blue-green	June-Aug.	8"	12"	-	-

DICENTRA (Bleeding Heart) ☼● Zone 3 *All types have classic heart-shaped flowers, divide dwarf varieties every 3 years. Plant will often go dormant through the heat of the summer.*

Cupid		<i>Heart-shaped, cotton candy pink blooms and green foliage.</i>					
	Pink	Green	May-Sept.	18-24"	24"	-	-
King of Hearts	Zone 4	<i>Dark rose flowers combine with luscious ferny blue foliage. Will flower intermittently throughout the summer.</i>					
	Deep rose	Blue-green	May-Sept.	12"	12"	-	-
Luxuriant		<i>Compact, tolerates sun more than other varieties.</i>					
	Rose-red	Silver-grey	May-Sept.	10"	12"	-	-
✂ Spectabilis 'Alba'		<i>White heart shaped petals on the outside and white petals on the inside.</i>					
	White	Green	April-June	30"	24"	-	-
✂ Spectabilis 'Gold Heart'		<i>Usual chains of pink and white locket flowers, but on a plant with stunning chartreuse foliage.</i>					
	Rose-pink	Chartreuse	April-June	36"	24"	-	-
✂ Spectabilis Pink (Old Fashion)		<i>Dangling bright-pink locket flowers are held on arching stems.</i>					
	Pink/white	Green	April-June	36"	24"	-	-
✂ Spectabilis 'Valentine'		<i>Heart-shaped red flowers hung from arching stems, overlooking a vigorous growth of deeply dark grey-green lobed foliage</i>					
	Red/White	Green	April-June	30"	24"	-	-

DIGITALIS (Foxglove) ☼☾ Zone 4 *Famous for its statuesque spires of drooping, tubular flowers. Excellent in woodland gardens and perennial borders.*

✂ Candy Mountain		<i>First upward facing bloom on a digitalis. Large rose-pink blooms</i>					
	Rose-pink	Green	May-June	3-4ft	24"	-	-
✂ Mertonensis		<i>A true perennial. Compact habit. Spikes of large strawberry flowers with a salmon pink blush.</i>					
	Deep pink	Green	June-August	30"	24"	-	-
✂ Pink Panther		<i>Compact, uniform, heavily branching plants that produce multiple spikes of vibrant rose-pink with speckled throat flowers. First year flowering, attracts pollinators</i>					
	Rose Pink	Green	June-August	36"	18"	-	-

ECHINACEA (Coneflower) ☼ Zone 3 *A North American native. Produces a daisy flower with pronounced central cone. They make a bold statement in a sunny border or an open meadow. Recent smaller varieties are excellent in small gardens and containers.*

✂ Artisan Brilliance Rose		<i>Uniform, highly branched habit with brilliant rose flowers with high saturation of color.</i>					
	Rose	Green	July-Oct.	16-28"	10-14"	-	-
✂ Artisan Red Ombre		<i>F1 hybrid collection. Flowers open red and soften as they mature</i>					
	Red	Green	July-Oct.	16-28"	10-14"	-	-
✂ Artisan Soft Orange		<i>F1 hybrid collection. Flowers open deep orange and soften as they mature</i>					
	Orange	Green	July-Oct.	16-28"	10-14"	-	-
✂ Artisan Yellow Ombre		<i>Intense golden yellow bloom along with graduated colors of yellow.</i>					
	Yellow	Green	July-Oct.	16-28"	10-14"	-	-
✂ Cheyenne Spirit		<i>Shades of red, orange, purple, scarlet, cream, yellow and white. Extremely well branched plants. First year only 18" in height.</i>					
	Mix	Green	July-Oct.	22-30"	18"	-	-
✂ Color Coded 'The Price is White'		<i>Proven Winner Variety! Sold in Proven Winner pots. Very wide, overlapping, horizontal white petals with a green cone and yellow pollen. Flowers are 5" wide and held overtop dark green foliage.</i>					
	White	Green	July-Sept.	12-16"	12"	-	-
✂ Color Coded 'Colour Frankly Scarlet'		<i>Proven Winner Variety! Sold in Proven Winner pots. 4" bright scarlet orange flowers. Flowers held over dark green foliage and demonstrates good branching. Intense color lightens to coral orange with age.</i>					
	Scarlet Orange	Green	July-Oct.	26-28"	16"	-	-
✂ Dark Shadows Wicked		<i>Glowing watermelon-pink, daisy-like flowers cluster atop dark chocolate brown stems. Flowers are displayed in slightly varying heights as if carefully arranged for a stunning bouquet. Large toasty brown cones punctuate the centers for contrast and texture. Strong, upright habit and masses of single flowers.</i>					
	Pink	Green	July-Sept.	16"	14-16"	-	-
✂ Dark Shadows Mystic		<i>Flowers emerge a bright shell pink and as the color shift progresses, the eye becomes the color of red velvet cake and the petals turn an antique pink.</i>					
	Pink	Green	July-Sept.	16"	14-16"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
ECHINOPS (Globe Thistle) ☼ Zone 3 <i>Tall thistle like looking plants with needle-studded flower balls.</i>							
✂ Royal Globe	<i>Handsome spherical flowers have a metallic lustre and may be cut and dried for winter decoration.</i>						
	Blue	Green-blue	July-August	36"	18"	-	-
✂ Veitch Blue	<i>Striking globe-shaped powder-blue flowers steal the show when in bloom on a relatively compact plant. Not an invasive type of thistle. Good for attracting pollinators to the garden; do not over-fertilize</i>						
	Blue	Green-blue	July-August	36"	18"	-	-
EPIMEDIUM (Barrenwort) ● Zone 4 <i>A wonderful dense groundcover plant for the hard to plant dry shade area. They will take a couple of years to reach a mature size, plants are long-lived and very sturdy. Old leaves should be pruned to the ground in late winter to show the flowers to best effect. Drought tolerant once established.</i>							
Grandiflorum Lilafee	<i>Plants form a bushy mound of dark green leaves, bearing sprays of delicate violet-purple flowers, in mid to late spring.</i>						
	Violet-purple	Dark green	May-June	8-10"	12-18"	-	-
Rubrum	<i>Has rose red flowers and red-flushed foliage. The leaf color is more intense in full sun but will require more water.</i>						
	Rose-red	Reddish-green	May-June	12"	12"	-	-
Versicolor Sulphureum	<i>Young leaves are flushed red, turning green as they mature. Blooms are pale yellow with red tinged spurs.</i>						
	Pale yellow	Green	May-June	8"	12"	-	-
Youngianum Merlin	<i>'Merlin' Young's Barrenwort starts blooming in early spring, producing delicate lavender purple nodding flowers that resemble tiny Columbines. The small heart-shaped leaves also emerge in early spring in shades of wine and purple, turning green in early summer.</i>						
		Green	May-June	10"	12"	-	-
Youngianum Niveum	<i>Delicate white spidery flowers suspended on wires dangle above red-veined, heart-shaped leaves.</i>						
	White	Green	May-June	8"	12"	-	-
ERODIUM ☼ Zone 6							
Bishops Form	<i>A very cute little plant, this forms a low clump or tuft of tiny, filigreed green leaves. Starry little pink flowers appear from late spring through to the fall.</i>						
	Pink	Green	June-Sept	2-4"	6-12"	-	-
ERYNGIUM (Sea Holly) ☼ Zone 4 <i>Prickly flowers are a favourite for cutting & drying, very drought tolerant, attractive in border. Good for high salt environment</i>							
✂ Big Blue	<i>Eryngium Big Blue has a surprisingly iridescent blue flower. With blue stems and silver leaves. It is a spectacular and long-lasting cut flower.</i>						
	Blue	Blue-green	July-August	24-30"	18-24"	-	-
EUONYMUS (Wintercreeper) ☼ ● Zone 4 <i>Can be used as a shrub or trained as creeping ground cover or to climb.</i>							
Coloratus	<i>Forms a dense carpet of dark green leaves with a course to medium texture. Foliage turns dusky purple during the colder months</i>						
	-	Green	-	18"	24"	-	-
EUPATORIUM (Boneset) ☼ ☹ Zone 3 <i>Native, meadow plant. Provides excellent colour to the late summer garden.</i>							
Atropurpureum (Joe Pye Weed)	<i>Masses of lavender-pink flowers in late summer. Attracts butterflies.</i>						
	Lavender-pink	Green	Aug-Sept.	6ft	24"	-	-
Chocolate	<i>Tall masses of chocolate-purple leaves with shiny deep purple stems and petioles, followed in autumn with huge beads of small white flowers.</i>						
	White	Chocolate	August-Sept	3-4ft	24"	-	-
Gateway	<i>Huge bright mauve pink flower clusters atop deep wine-red stems. More compact and shorter than others in this species.</i>						
	Lavender-pink	Green	August-Sept.	3ft	24"	-	-
Little Joe	<i>A dwarf cultivar of a species of our native Joe Pye weed. Has the familiar large domes of lavender-pink flowers that attract lots of butterflies</i>						
	Lavender-pink	Green	August-Sept.	3-4ft	24"	-	-
EUPHORBIA (Spurge) ☼ ☹ Zone 5 <i>Colourful flower heads sit on top of foliage. Foliage turns rich purple-red in fall.</i>							
Ascot Rainbow	<i>Flashy green and yellow variegated foliage takes on pink and orange tones in cool weather. Unique variegated bracts appear in large clusters in spring.</i>						
	Green-yellow	Green	May-June	20"	18"	-	-
Myrsinites (Donkeytail Spurge)	<i>Oval, blue-green, fleshy, succulent-like leaves are arranged in close spirals around the stems. Non-showy greenish flowers subtended by showy yellow bracts bloom in spring.</i>						
	Yellow	Grey-green	June	6-8"	18-24"	-	-
Polychroma	<i>Commonly called cushion spurge, is a mounding, clump-forming perennial which typically grows in a dome (or cushion) shape to 12-18" tall and as wide on erect, sturdy stems bearing oblong, downy, medium green leaves (to 2" long).</i>						
	Yellow	Bronze-green	June	12-18"	12-18"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
FERN Osmunda ●☾ Zone 3 <i>Ferns play an essential role in shade gardens. Not recommended for fall planting. Prefer rich moist soil.</i>							
Cinnanomea 'Cinnamon'	<i>Robust tall clumping fern that is named for its bright cinnamon-coloured fertile fronds (turning after the green spores are shed). It is native of swamps and other wet areas in North America.</i>						
-	Green	-	30-60"	18"	-	-	-
Regalis 'Royal'	<i>It can grow 4-5 feet tall in a clumping form and forms raised islands of root mass above swampy areas, but plants do well in garden locations in moist soil in sun or shade. They remain green until hard freeze.</i>						
-	Green	-	24-60"	24"	-	-	-
FERN Phyllitis ●☾ Zone 5 <i>Ferns play an essential role in shade gardens. Not recommended for fall planting. Prefer rich moist soil.</i>							
Hart's Tongue	<i>The long, narrow, uncut fronds of this fern are unlikely to be mistaken for any other. Small plants with one or two fronds can be found in cracks in old walls, or large luxuriant plants with 20 or more fronds, can grow in shady patches of humus-rich soil.</i>						
-	Green	-	8-24"	12"	-	-	-
FERN Polystichum ●☾ Zone 4 <i>Ferns play an essential role in shade gardens. Not recommended for fall planting. Prefer rich moist soil.</i>							
Acrostichoides 'Christmas'	<i>One of the most dependable, undemanding evergreen ferns. North American native. Forms a medium-sized clump of dark green, leathery fronds which unfurl from attractive silvery grey fiddle heads in spring.</i>						
-	Green	-	18-24"	12"	-	-	-
FILIPENDULA (Meadowsweet) ☼☾ Zone 4 <i>Requires consistently moist soil; do not let dry out between waterings. This plant is attractive to bees, butterflies and birds.</i>							
Palmata Red Umbella	<i>The green leaves on this compact 2.5' tall meadowsweet are heavily veined with crimson, which is also prevalent in the new growth. In early summer, the plants are topped with umbels of pink.</i>						
-	Pink	Green	June-July	30"	20"	-	-
Rubra Venusta	<i>Fragrant salmon pink plumes top the turkey foot shaped foliage. A nice plant for the back of the border in a moist area, preferably in afternoon shade.</i>						
-	Salmon pink	Green	June-July	6-8ft	36"	-	-
GAILLARDIA (Blanket Flower) ☼☾ Zone 4 <i>Blanket Flowers are valuable for their very long season of bloom. They form a low mound of light-green leaves, bearing upright stems of large daisy-like flowers. Attractive to butterflies. Drought tolerant once established. Not the best choice for heavy clay soil, especially if it remains wet through the winter. Removing faded flowers will encourage constant blooming.</i>							
☞ Arizona Red Shades	<i>Arizona Red Shades' produces masses of large, crimson red blossoms from early summer all the way into early fall, even under hot and dry conditions. Since it is produced from seed, about 20% of the flowers will have slight yellow tips. What sets this new variety apart from the older 'Burgundy' is its much shorter, compact size and uniform habit that is perfect for pot production.</i>						
-	Red	Green	June-Sept.	12"	12"	-	-
☞ Arizona Sun	<i>Large fiery orange red blossoms of Arizona Sun are tipped by a ring of rich flame yellow. Forms a neat mound of lance-shaped, grayish-green leaves. Near end of season, leave spent flower beads for seed to attract goldfinches.</i>						
-	Red/Yellow	Green	June-Sept.	12-15"	12"	-	-
☞ Burgundy	<i>Large 3" wide wine-red blooms. Has a button-like centre which emerges bright yellow and then slowly changes to oxblood-red.</i>						
-	Red	Green	June-Sept.	14"	20"	-	-
☞ Musa Red	<i>Shows intense, non-fading color all season on upright, well-branched plants that perform well in landscapes and mixed containers.</i>						
-	Red	Green	June-Sept.	14-16"	20"	-	-
GALIUM (Sweet Woodruff) ●☾ Zone 4 <i>Fast-spreading excellent groundcover.</i>							
Odorum Sweet Woodruff	<i>Small green leaves, whorled like spokes of a bicycle around the stem. Clusters of sweetly fragrant stary white flowers.</i>						
-	White	Medium green	May-June	6"	10"	-	-
GAURA (Wand Flower) ☼☾ Zone 5 <i>Excellent in containers or along the front to middle of a sunny border. Needs good drainage.</i>							
lindheimeri 'Passionate Blush'	<i>Forms a bushy mound of leaves, edged red in spring then later becoming solid green. Wands of small soft-pink and white silky blooms.</i>						
-	Soft pink	Green	July-Sept.	24"	18"	-	-
lindheimeri 'Passionate Rainbow'	<i>Forms a bushy mound of leaves, edged in cream and flushed pinkish red. Wands of small, deep pink silky blooms.</i>						
-	Deep Pink	Green	July-Sept.	24"	18"	-	-
Siskiyou Pink	<i>A North American wildflower, highly valued for its long flower display in the garden. Plants bloom for many weeks, with loose sprays of deep pink flowers. In the breeze these move constantly, looking like a cloud of small butterflies. Although Gaura may not always winter reliably, plants flower for the entire summer and fall, so consider using it even as an annual in colder winter regions.</i>						
-	Pink	Green	July-Sept.	24"	24"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
GERANIUM cantabrigiense ☀️🌿 Zone 5 <i>Great evergreen groundcover by creating a dense mat that helps reduce weed growth in the garden.</i>							
Biokovo	Perennial Plant of the Year 2015! <i>Flowers are white with light pink veins and stamens. Foliage turns a brilliant red in the fall. Fragrant.</i>						
	Light pink	Green	June-Aug.	6-8"	12"	-	-
GERANIUM cinereum (Greyleaf Cranesbill) ☀️🌿 Zone 5 <i>This selection of Cranesbill is a superb choice for meandering through the front of a partly shaded border or woodland garden.</i>							
Ballerina	<i>Low-growing variety -forms a trailing mat of grey-green leaves. The soft-pink flowers have a deep purple eye and veins, appearing on and off from early summer.</i>						
	Lilac-pink	Grey-green	June-Aug.	4-6"	12-18"	-	-
GERANIUM hybrida ☀️🌿 Zone 5 <i>These geraniums are all hybridized to improve colour and garden performance.</i>							
Brookside	<i>This long-flowering hybrid forms a sprawling mound of deeply cut green foliage, bearing large cup-shaped violet-blue flowers with a white eye. Plants may need to be cut back hard after blooming to encourage fresh new foliage. Appreciates a moist site. Easily divided in spring or fall. Rates highly as one of the best newer blue selections. Received a Royal Horticultural Society Award of Garden Merit (2004).</i>						
	Blue	Green	June-Aug.	23-27"	23-35"	-	-
Johnson's Blue	<i>Vivid periwinkle blue 2" flowers. Finely cut, green leaves quickly form wide clumps.</i>						
	Blue	Green	June-Aug.	15-18"	24"	-	-
Rozanne	Perennial Plant of the Year 2008! <i>Large violet blue flowers with a white eye are produced prolifically from late spring to frost. Plants are widely sprawling creating a beautiful groundcover. Also good in containers and baskets.</i>						
	Lilac-pink	Grey-green	June-Oct.	18-20"	24-36"	-	-
GERANIUM macrorrhizum (Bigroot Geraniums) ☀️🌿 Zone 5 <i>One of the best ground cover plants, useful for weed suppressing. Spread by fleshy underground rhizome making dense mat 12-18" across. The broadly lobed, rounded leaves are aromatic.</i>							
Macrorrhizum	<i>Fragrant apple scented foliage and flowers. Think clusters of five-petaled, pink flowers in late spring on dense groundcover.</i>						
	Rose	Green	June-July	8"	14"	-	-
GERANIUM maculatum (Wild Geraniums) ☀️🌿 Zone 3							
maculatum	Rose	Green	June	12-28"	12-18"	-	-
GERANIUM pratense ☀️🌿 Zone 5							
Boom Chocolatta	Proven Winner variety sold in PW pots <i>Rich, dark bronze leaves and an upright habit, with blue-purple flowers covering the top of the habit, starting in early summer. Compared to older genetics, 'Boom Chocolatta' is more vigorous, and has a very refined habit. Use it as a contrast with green-leaved plants in your sun garden!</i>						
	Blue-purple	purple	June-Aug.	24"	28"	-	-
GERANIUM sanguineum (Bloody Cranesbill) ☀️🌿 Zone 5							
Alba	<i>A lovely white form of the meadow Cranesbill.</i>						
	White	Green	June-Aug.	16-19"	30"	-	-
Sans max Frei	<i>Compact variety forms a low mound of fine-textured green foliage, bearing a nice display of bright magenta-pink flowers</i>						
	Magenta	Green	June-Aug.	6-8"	18"	-	-
Var.Striatum	<i>Very low, lusciously dense spread mats of the softest pink flowers - noticeably veined in red - practically smothering the small, deeply cut, glossy leaves. The fine foliage turns bronzy-red in fall.</i>						
	Soft pink	Green	June-Aug.	6"	36"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
GEUM (Grecian Rose) ☼ ☾ Zone 5 <i>Long blooming season. Flowers rise up from a bushy clump of hairy leaves. Excellent in summer borders.</i>							
✂ Blazing Sunset	<i>Double, scarlet red flowers that are 50% larger than other varieties.</i>						
	Red	Green	June-July	24"	12-18"	-	-
✂ Lady Stratheden	<i>3" semi-double golden yellow flowers</i>						
	Golden-yellow	Green	June-July	24"	12"	-	-
✂ Mrs Bradshaw	<i>Brilliant double orange-red flowers. The dense mat of bright green foliage makes an effective groundcover.</i>						
	Orange	Green	June-July	24"	12"	-	-
✂ Petticoats Peach	<i>Airy, semi-double, peach flowers in abundance cover this fresh, easy to grow perennial. Amazingly green leaves with a compact habit make it perfect in a pot or in a border.</i>						
	Peach	Green	June-July	12"	12"	-	-
✂ Tempo Coral	<i>Bright coral-red flowers are held in great numbers over this compact garden plant. The excellent quality foliage stay clean all summer long. Reblooms in the summer!</i>						
	Coral	Green	June-Sept	7"(18")	10"	-	-
✂ Tempo Orange	<i>Numerous double to single small cream to peach to orange blooms on short stems. Long blooming.</i>						
	Orange	Green	June-Sept	7"(18")	10"	-	-
✂ Tempo Rose	<i>This early bloomer produces a plethora of dark, rose-pink flowers on short, dark stems. This easy to grow plant has a long bloom time allowing pollinators to enjoy this gem for months.</i>						
	Rose	Green	June-Sept	8"(21")	10"	-	-
✂ Tempo Yellow	<i>Blooms early spring with numerous semi-double yellow flowers with dark edges on black stems. Long blooming. Bright green leaves grow in a dense mound. Loved by pollinators. Deer resistant.</i>						
	Yellow	Green	June-sept	14"(20")	18"	-	-
✂ Trifolium	<i>A unique plant with feathery pink seed heads and foliage covered with silky hairs</i>						
	Pink	Green	May-July	12"	12"	-	-
GYPSOPHILA paniculata (Baby's Breath) ☼ ☾ Zone 3 <i>Excellent cut flower adds an airy look to bouquets.</i>							
✂ Double Snowflake	<i>Cloud-like masses of ultra double, dainty white pom-poms. Cut back after summer bloom to encourage fall flowers</i>						
	White	Grey-green	June-Aug.	24-36"	24"	-	-
GYPSOPHILA ☼ ☾ Zone 3 <i>Excellent in rock gardens.</i>							
Repens Rose	<i>Plants form a low mat of grey-green leaves, bearing masses of small starry pink flowers in early summer, which literally smother the clump.</i>						
	Rose pink	Grey-green	June-Aug.	8"	12"	-	-
Repens White	<i>Plants form a low mat of grey-green leaves, bearing masses of small starry white flowers in early summer, which literally smother the clump.</i>						
	White	Grey-green	June-Aug.	8"	12"	-	-
HEDERA HELIX (IVY) ☼ ● ☾ Zone 5 <i>Excellent groundcover, will also climb a wall.</i>							
Thorndale	<i>One of the hardiest of the English Ivies. Evergreen.</i>						
	-	Green	-	6-8ft+	12"	-	-
HELENIUM autumnale (Helen's Flower) ☼ ☾ Zone 3 <i>Excellent for massing in borders and backgrounds.</i>							
✂ Salsa	<i>This compact variety is part of the Mariachi™ Series and features spicy, red petals with a bit of orange surrounding a dark brown cone.</i>						
	Red	Green	August-Oct.	12-18"	18"	-	-
HELIOPSIS (False Sunflower) ☼ ☾ Zone 4 <i>False Sunflowers are reliable for their very long season of bloom. Removing faded flowers regularly will greatly extend the blooming season. May require staking, particularly when grown in very rich garden soil. A North American native plant.</i>							
Tuscan Sun	<i>Proven Winner variety sold in 'PW' pots. This beautiful and carefree native cultivar offers a more compact habit and good disease resistance compared to other varieties of Heliopsis. Bright golden yellow, daisy-like flowers with an orange-gold button center are produced on strong stems from mid through late summer atop the deep green foliage.</i>						
	Yellow	Green	July-Sept.	24-36"	20-24"	-	-

BROWNRIDGE greenhouses & nursery ltd.

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
HELLEBORUS ☼ Zone 5 <i>One of the finest low-growing, early-flowering plants in cultivation. No garden should be without one. 3-4" flowers last for 8-10 weeks. Evergreen. Easy to grow requiring shade and occasional water. CAUTION: Harmful if eaten/ Skin irritant.</i>							
ballardiae	<i>Pink buds open to big ruffled white and pink hellebore flowers aging to mahogany pink.</i>						
'Mahogany Snow'	White/pink	Green	March-May	12-16"	18"	-	-
ballardiae	<i>A sturdy hybrid is gorgeous both in leaf and in flower. It forms a low mound of leathery evergreen silvery-green leaves with red stems. Large out-facing single soft-pink flowers appear in early spring, gradually ageing burgundy red. Quite possibly hardy to Zone 4.</i>						
'Pink Frost'	Pink	Green	March-May	12-16"	18"	-	-
x ericsmithii	<i>Forms wide clumps of dark green foliage topped with stalks of buds that begin rosy pink and open to a creamy white with pink backs.</i>						
'Champion'	Cream	Green	March-May	12-16"	18"	-	-
x ericsmithii 'Candy Love'	<i>Big, out-facing blooms are held well above the foliage, developing a greenish tinge as they mature</i>						
	Ivory	Green	March-May	12-16"	18"	-	-
x ericsmithii 'Frosty'	<i>Extra large creamy white flowers with lovely rounded, overlapping petals, can develop a pink tinge with age, held by purple stems above dark green foliage. Flowering the first year, they are long blooming, with lots of outward-facing buds and blossom.</i>						
	Cream	Green	March-May	8-12"	18"	-	-
hybrid 'Frozen Kristof'	<i>Pure white with an overlay of raspberry speckles</i>						
	White/raspberry	Green	March-May	12-16"	18"	-	-
hybrid 'Ivory Prince'	<i>A truly regal beauty whose up-ward facing ivory flowers are flushed with pink, and streaked with green and rose hues which deepen with time.</i>						
	Ivory	Green	April-June	12-18"	24"	-	-
hybrid 'Rosemary'	<i>Helleborus Rosemary is the best hellebore introduction in the last five years and one of the most unique of all hellebores with incredible numbers of white-veined pink cup-shaped flowers that deepen to glowing salmon tones. The flower heads are more upward looking than other varieties, it has inherited the longer flower period of its H. niger parentage and it produces a much greater number of flowers than others.</i>						
	Rose pink	Green	April-June	12-18"	18"	-	-
niger	<i>Has large cup-shaped white flowers that are said to be particularly early to appear, depending on the season</i>						
	White	Green	April-June	15-18"	18"	-	-
x niger Snowbells	<i>Semi-double, pure white flowers measure 2½-3" across, with five petals and additional petaloids at the center. Unlike H. hybridus types, these flowers are naturally side-facing versus downward-facing, so you can enjoy the bright white flowers with little effort. Very early flowering.</i>						
	White	Green	April-May	10-12"	12"	-	-
x niger Snow Love	<i>Big, out-facing white blooms are held well above the foliage, developing a greenish tinge as they mature</i>						
	White	Green	April-May	10-12"	12"	-	-
Victoria	<i>A new Helleborus oriental variety is according to the breeder striking for its mass of purple flowers. Specifically bred to begin flowering in fall, it tolerates full sun and is a Nigger-Cor hybrid which makes it very hardy in northern climates.</i>						
	Purple-Pink	Green	Nov-May	10-12"	12"	-	-

HELLEBORUS 'Frost Kiss Series' ☼ Zone 5 *The Frost Kiss series is a late blooming hellebore with unique marbled foliage that remains attractive all year round.*

Anna's Red	<i>Rich burgundy flowers, with 8-10 flower clusters per plant set against strong leathery evergreen leaves marbled in cream,</i>						
	Red	Green	April-June	12-18"	18"	-	-
Glenda's Gloss	<i>A generous crop of white flowers bemed in violet-pink is held proudly above the tidy mounds of shiny leaves for a 2-3-month performance</i>						
	White/Violet	Green	April-June	12-18"	18"	-	-
Illumi Lime	<i>A unique lime punch of color</i>						
	Lime Green	Green	April-June	12-18"	18"	-	-
Molly's White	<i>A nice clear white. Growth habit is vigorous and well-branched</i>						
	White	Green	April-June	12-18"	18"	-	-
Penny's Pink	<i>Deep pink flowers on dark pink stems and unique pink marbled foliage.</i>						
	Pink	Green	April-June	12-18"	18"	-	-
Pippa's Purple	<i>Smoky pink flowers enhanced with deep burgundy speckles.</i>

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
HELLEBORUS x glandorffensis 'Ice N' Roses' ☼ Zone 5 <i>The Ice N' Roses® series from Heuger is a new line of genetics that have produced several vigorous and robust varieties in vivid colors. Most of the color choices in this series bloom from December to March with many holding their flowers well into spring. The foliage is evergreen with large palmate leaves and red stems with the flowers being held upright. The flowers in this series range from pure white to rose-pink as well as deep reds and even some with picotee edges. CAUTION: Harmful if eaten/Skin irritant.</i>							
Ice n' Roses Bennotta	Bright ruby red, outward-facing flowers with frilly yellow centers, above waxy, deep green leaves. Red	Green	March-May	13-20"	18"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
HEMEROCALLIS – Common (Daylilies) ☼🌿 Zone 3 <i>These hardy perennials have large and attractive blooms that are similar to lily flowers. They are very easy to grow, many of the forms are tolerant of almost total neglect and will still be seen thriving in a neglected garden long after most of the other cultivated perennial species have been choked out by the invading native plants. All parts of the plants are edible though it is the flowers that are most frequently used. Daylilies also have a number of other uses and, all in all, deserve to become a standard plant in edible and ornamental gardens.</i>							
Bonanza	<i>Brightly coloured star-like flowers of orange-yellow with a burgundy throat.</i>						
	Yellow/burgundy	Green	July	34"	18"	-	-
Catherine Woodbury	<i>Very fragrant lightly ruffled, orchid-lavender petals with a wide green throat and a flower size of 4.5".</i>						
	Orchid-lavender	Green	July	30"	18"	-	-
Frans Halls	<i>Striking bicolor orange sepals and bright reddish-cooper petals with creamy orange midrib. Flower is 6-pointed star form.</i>						
	Orange/red	Green	July	24"	18"	-	-
Gentle Sheppard	<i>5.5" almost pure white flowers with yellow-green throats</i>						
	White	Green	July	20"	18"	-	-
Happy Returns	<i>Dwarf variety. 3" blooms in a soft-yellow shade. Flowers constantly from May to frost.</i>						
	Yellow	Green	May-frost	35-40"	45"	-	-
Hyperion	<i>Large, fragrant lemon-yellow flowers</i>						
	Yellow	Green	July	35-39"	23"	-	-
Pardon Me	<i>Miniature cranberry red flowers with a narrow yellow watermark and green throat. Heavily budded. Re-bloomer.</i>						
	Cranberry-red	Green	July-Sept.	18"	18"	-	-
Purple de Ore	<i>3" medium dark purple flower with a lighter midrib and edge above a gold throat. Re-blooming variety.</i>						
	Purple	Green	June-Sept.	15"	18"	-	-
Rocket City	<i>Large bittersweet orange petals with a burnt orange eye. The throat and mid-ribs are lighter orange-yellow.</i>						
	Orange	Green	July	40"	18"	-	-
Rosy Returns	<i>Rose pink with a deep rose eye zone and yellow throat. Blooms from June to frost.</i>						
	Rose pink	Green	June-Sept.	14"	18"	-	-
Sammy Russel	<i>Deep red flowers with orange-yellow throat.</i>						
	Red	Green	July	36"	18"	-	-
South Seas	<i>5", coral-tangerine tepals with a reddish-coral band and yellow throat; very distinctive coloring. Smooth, rounded petals with beautifully ruffled edges. Fragrant. Multiple branching with 30-35 buds; rebloomer.</i>						
	Coral	Green	July-August	30"	18-24"	-	-
Stella de Ore	<i>Most popular daylily! Blooms profusely a golden yellow in early summer followed by waves of bloom until fall.</i>						
	Golden yellow	Green	June-Sept.	15"	18"	-	-
Stella Supreme	<i>Features bold lightly-scented buttery yellow trumpet-shaped flowers with yellow throats</i>						
	Yellow	Green	June-Sept.	14"	18"	-	-
Strawberry Candy	<i>Pink petals with a bright raspberry red eye, orange-gold watermark and a green throat. Ruffled with red edges. Long prolific bloomer</i>						
	Pink/raspberry	Green	July-August	26"	18"	-	-
Summer Wine	<i>Light wine-red flowers with a yellow throat and ruffled petals.</i>						
	Pale wine- red	Green	July	24"	18"	-	-
Wineberry Candy	<i>4 3/4", fragrant, soft pinkish peach tepals with a wine-purple eye and yellowish-green throat. Lightly ruffled petals with purple veining and smooth-edged sepals. Tepals are recurved, revealing the flower's triangular form. One of the longest blooming daylilies and one of the first to bloom</i>

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
HEMEROCALLIS – Proven Winner(Daylilies) ☼ ☾ Zone 3 Proven Winner varieties sold in PW pots.							
Blazing Glory	<i>Blazing Glory' has 6" golden yellow flowers with a bold burgundy red eye and matching picotee edge. Where traditional cultivars have picotee edges that bleed or fade, 'Blazing Glory' remains consistent with a wide margin that extends the length of the petal.</i>						
	Yellow/Red	Green	July-August.	32"	18"	-	-
Blood Sweat and Tears	<i>'Blood, Sweat and Tears' is aptly named to reference the years of hard work by renowned breeder Karol Emmerich to find a truly exceptional red daylily. Massive 6" raspberry red flowers are complemented by a wide rosy pink eye that leads to a yellow throat. A thin white margin edges each petal. Flowers are held on proportionate scapes, just above the foliage.</i>						
	Raspberry	Green	July-August.	28"	18"	-	-
Lake of Fire	<i>The enormous 7" flower is apricot orange with an incredibly wide, orange red eye. Along the ruffled edge is a matching orange red picotee edge with a razor thin golden yellow margin.</i>						
	Apricot orange	Green	July-August.	24"	18"	-	-
Orange Smoothie	<i>4" wide, orange mango petals with a light rose band, pink mid-rib, and green throat. The flower scapes have well-branched, 4-way scapes and upwards near 32 buds per scape, packing quite a punch with its flower performance. The diamond dusting will dazzle you as it sparkles in direct sun. Flowers are cookie-cutter consistent in form and color and we have observed excellent rebloom.</i>						
	Peach-orange	Green	July-August.	24"	18"	-	-
Ruby Spider	<i>Gigantic 9", dark ruby red flowers are classified as "unusual form-spatulate" since the petals are long and spoon-shaped. The petals open very wide and flat, displaying the large, golden yellow throat and matching midribs nicely.</i>						
	Red	Green	July-August.	34"	18"	-	-
Sound of My Heart	<i>This daylily from Walters Gardens hybridizer Chris Meyer (of 'Going Bananas' fame) has taken over a decade to reach critical mass in production and has outperformed a ruthless selection process. 5", pastel pink flowers have a very wide, wine purple eye with a matching purple picotee edge on the ruffled margins. Petals open flat, maximizing the floral display.</i>						
	Purple	Green	July-August.	28"	18"	-	-
Storm Shelter	<i>This stunning, high quality, tetraploid produces 5-inch wide, mauve colored blossoms with an enormous deep eggplant purple eye that extends to nearly the edge of the petals. Picrust edges have a wide picotee margin that matches the eggplant color of the eye zone. The flowers boast heavy substance that stands up to adverse weather. Rounded petals and flower form complete the package. The rich color saturation of the flower makes this daylily a can't miss!</i>						
	Purple/mauve	Green	July-August	24"	18"	-	-

HEMEROCALLIS – Specimen (Daylilies) ☼ ☾ Zone 3 These hardy perennials have large and attractive blooms that are similar to lily flowers.

They are very easy to grow, many of the forms are tolerant of almost total neglect and will still be seen thriving in a neglected garden long after most of the other cultivated perennial species have been choked out by the invading native plants. All parts of the plants are edible though it is the flowers that are most frequently used. Daylilies also have a number of other uses and, all in all, deserve to become a standard plant in edible and ornamental gardens.

Be Fruitful and Multiply	<i>This mid-size daylily will bring a bounty of blooms to your garden. 5½" ruffled flowers are light purple with dark wine-purple eyes and matching thin edges. The color contrasts well with a bright green throat that really pops.</i>						
	Purple	Green	July	30"	18"	-	-
Bela Lugosi	<i>One of the best purple daylilies. Outstanding saturated purple bloom with lime green throat. Non fading. Heavily budded and well branched.</i>						
	Purple	Green	July	33"	18"	-	-
Chicago Apache	<i>Intense scarlet red loosely ruffled petals with a small yellow watermark and green throat. Non-fading.</i>						
	Scarlet red	Green	July	30"	18"	-	-
Custard Candy	<i>Reblooming, designer daylily has light creamy-yellow trumpets with plum band around a yellow-green throat; pretty ruffled blooms</i>						
	Cream/plum	Green	July	20"	18"	-	-
Daring Deception	<i>Dusty pink blooms with a deep purple eye, ruffled picotee edging and bright green throat are not only striking, but also outstanding performers. By the third year, each plant will produce up to 500 blooms per season! Rebloomer.</i>						
	Pink	Green	June-Sept.	24"	18"	-	-
Funny Valentine	<i>Here's a great large-flowered red daylily with foliage that looks attractive all season long. This breeder selects for superb foliage, and it shows in the beautifully arching, dark blue-green foliage of this variety. Sunfast rose red, ruffled flowers with a bright green throat are produced on 4-way branched scapes, up to 25 buds per scape.</i>						
	Red	Green	July-August	24"	18"	-	-
Joan Senior	<i>Creamy white with a large pale-yellow watermark and a soft green throat. Slightly ruffled. Excellent bud count and branching.</i>						
	White	Green	July	30"	18"	-	-
Little Grapette	<i>Miniature, light grape-purple flowers with a green throat.</i>						
	Purple	Green	July	10-12"	18"	-	-
Marque Moon	<i>This one sets the new standard for white daylilies as its form is greatly improved. Extravagant ruffling unlike any other lends a fancy, elegant look to the blossoms. The large 5-5½", fragrant, cream coloured blossoms have a yellow throat that radiates softly out onto the petals. This yellow coloring is repeated on the picotee edge around each rounded petal. This is a heavily budded daylily that can produce an incredible 40 buds per scape.</i>						
	Cream White	Green	July-August	24"	24"	-	-
Pooh Bear	<i>A taller daylily with intense golden orange blooms and burgundy eyes. The petals on the 4½" flowers are overlapping with ruffled edges, creating full-looking blooms. A narrow burgundy edge matches the eye color. This early-midseason bloomer is a robust grower with excellent landscape vigor.</i>						
	Golden Orange	Green	July/August	32"	18"	-	-
Precious de Ore	<i>A striking dense clump of grassy foliage with upright stems of 4" white flowers with a yellow-green throat. Rebloomer.</i>						
	White	Green	June-July	15"	18"	-	-
Red Hot Returns	<i>Large blooms (5 inch) of rich true red with a contrasting lemon-yellow throat. Repeats constantly from June to frost.</i>						
	Red	Green	June-Sept.	20"	18"	-	-

HEMEROCALLIS – Specimen (Daylilies) ☼ ☾ Zone 3 <i>These hardy perennials have large and attractive blooms that are similar to lily flowers. They are very easy to grow, many of the forms are tolerant of almost total neglect and will still be seen thriving in a neglected garden long after most of the other cultivated perennial species have been choked out by the invading native plants. All parts of the plants are edible though it is the flowers that are most frequently used. Daylilies also have a number of other uses and, all in all, deserve to become a standard plant in edible and ornamental gardens.</i>							
Rich in Mercy	<i>5½" rich purple flowers have a lavender watermark with a white edge. Flowers are very clean and hold up well in the sun for having such a dark purple color. Exceptionally wide petals. Fragrant.</i>						
	Purple	Green	July-August	28"	18"	-	-
Ruby Stella	<i>Ruby, yellow throat, 20" flower scapes, 3" blooms.</i>						
	Red	Green	June-Sept.	14"	18"	-	-
Singular Sensation	<i>6" soft pink flowers with a heavily ruffled gold edge and green throat. Wide petals have heavy ruffling along the edges. High bud count on well-branched scapes. One of our best reblooming varieties with flowers of this size.</i>						
	Light pink	Green	July-August	26"	18"	-	-
Stella in Red	<i>Deep red flowers with navy edging and yellow centre</i>						
	Red	Green	July-August	14-18"	18"	-	-

HEUCHERA Americana Hybrids (Coral Bells) ☼ ☾ Zone 4 <i>Hybrid Coral Bells offer the gardener a tremendous new range of foliage colours, especially for shady areas. Use to add colour and texture to any bed or container. Please note for height – the number in brackets is the height of the bloom scapes, the number outside is the foliage height.</i>							
Black Taffeta	<i>Large, glossy, ruffled, black leaves.</i>						
	Pink	Purple-Black	May-June	12" (21")	15"	-	-
Changeling	<i>A most curious Heuchera! 'Changeling' is so named because of the unique characteristic of changing colors every week or so. From top to bottom, new color emerge. New foliage starts off blushing peach and cherry and changes to champagne and taupe, finally ending up several shades of celadon green, pine, and moss.</i>						
	White	Peach to Green	June-July	6" (18")	14"	-	-
Cherry Cola	<i>Front of the border charm with lovely red brown leaves and rust- cherry red flowers. 'Cherry Cola' performs all year round.</i>						
	Red	Red Brown	June-July	6" (18")	14"	-	-
Dale's Strain	<i>Unique silver-blue marbled foliage accented by white flowers on long panicles in the spring</i>						
	White	Silver-blue	June-July	12" (30")	18"	-	-
Electric Lime	<i>Dramatic lime tinted foliage sports red veins in cool temperatures. Large leaves create full, mounding plants. As a bonus, clusters of dainty white flowers appear on spikes above the foliage in the spring. Heat and humidity tolerant.</i>						
	White	Lime	June-July	16" (30")	18"	-	-
Forever Purple	<i>It forms a mound of glossy, purple leaves with fluted edges year-round. Short sprays of purple-pink flowers appear in summer. Sturdy in habit and vigorous.</i>						
	Pink	Purple	June-July	12" (18")	14"	-	-
Forever Red	<i>The cut, softly ruffled leaves are considered the reddest ever. The best red colour will be in cooler temperatures spring and fall. Spikes of small, white flowers appear in mid summer. Vigorous grower.</i>						
	White	Red	June-July	12" (18")	18"	-	-
Lime Marmalade	<i>Frosted, ruffled leaves are a shocking lime green. Great in containers.</i>						
	White	Lime green	June-July	8" (17")	14"	-	-
Lime Ruffles	<i>A vigorous mound with very large and ruffled lime green leaves with a frosty white overlay.</i>						
	White	Lime green	June-July	10" (18")	14"	-	-
Marmalade	<i>Shiny, undulating leaves in shades of peach and boney with bright purple undersides. Red buds open to white flowers</i>						
	White	Orange-peach	June-July	10" (16")	12"	-	-
Northern Exposure Series	<i>Richly coloured, round mounded leaves with attractive short flower stalks.</i>						
Amber	Cream	Amber orange	June-July	14" (20")	18"	-	-
Black	White	Black	May-Oct.	10" (28")	23"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
HEUCHERA Americana Hybrids (Coral Bells) ☼☾ Zone 4 Hybrid Coral Bells offer the gardener a tremendous new range of foliage colours, especially for shady areas. Use to add colour and texture to any bed or container. Please note for height – the number in brackets is the height of the bloom scapes, the number outside is the foliage height.							
Primo 'Mahogany Monster'	<i>Proven Winner variety sold in 'PW' pots. Massive glossy, mahogany red leaves form a substantial clump of foliage. Slightly ruffled leaves can grow up to 6 inches wide. The flower stems are proportionate to the size of the clump: very thick, burgundy stems hold masses of light pink buds with cream flowers. Although the color is consistent throughout the season, older leaves become copperier with age.</i>						
	Lt.Pink	Mahogany Red	June-July	8"(20")	18"	-	-
Primo 'Wild Rose'	<i>Proven Winner variety sold in 'PW' pots. Forms a dense habit of large, bright rosy purple leaves with deep charcoal gray veining. The prominent dark veining really causes the foliage color pop, making it a great choice for shade.</i>						
	Rose	Purple	June-July	10"(18")	15"	-	-
Silver Scrolls	<i>Rounded leaves are silver and burgundy in spring, deepening to silver and near black later in the season. Sprays of ivory-pink flowers appear in late spring, held on beet-red stems.</i>						
	Ivory-pink	Silver-bronze	June-July	10"(14")	18"	-	-
Timeless Series	<i>The Timeless Collection boasts different colors such as purple, yellow, black, and silver. Each has a reblooming flower performance like their predecessor with similar sizes for ease in combination.</i>						
Berry Timeless	<i>A myriad of light pink flowers which age to a deeper rose red are produced in tight wands on 18-20" scapes.</i>						
	Lt Pink	Purple-Black	June-July	7" (20")	16"	-	-
Timeless Glow	<i>Chartreuse yellow foliage has a silver overlay and matures to lime green. Foliage color is best in partial sunlight, and greener in full shade. Intense, rich rose pink flowers contrast beautifully with the bright foliage.</i>						
	Rose-pink	Chartreuse	June-July	7" (20")	16"	-	-
Timeless Grape	<i>Shiny, dark purple leaves with charcoal veining. Bright rosy pink flowers are produced on dark purple stems. Flower height is proportionate to the size of the plant.</i>						
	Rose	Purple	June-July	10" (20")	16"	-	-
Timeless Night	<i>Deep black leaves form a compact mound of foliage. Beautiful medium pink flowers are held on dark pink calyxes.</i>						
	Pink	Black	June-July	7" (20")	16"	-	-
HEUCHERA Micrantha (Coral Bells) ☼☾ Zone 3 Propagation by seed.							
Palace Purple	<i>Perennial Plant of the Year 1991! Maple-shaped leaves, range in colour from deep olive green to purplish-bronze with amethyst purple undersides.</i>						
	Cream	Purple-brown	June-July	12"(20")	14"	-	-
HEUCHERA Villosa Hybrids (Coral Bells) ☼☾ Zone 4 Hybrid Coral Bells offer the gardener a tremendous new range of foliage colours, especially for shady areas. Use to add colour and texture to any bed or container. Please note for height – the number in brackets is the height of the bloom scapes, the number outside is the foliage height. Villosa hybrids are more heat and humidity tolerant. Tend to be more hardy than other hybrids							
Caramel	<i>A robust grower with fuzzy, bright yellow-orange foliage with purple undersides. Much brighter than Amber Waves and great plant habit.</i>						
	Cream	Orange-yellow	June-July	12"(14")	16"	-	-
Dolce Black Pearl	<i>Proven Winner variety sold in 'PW' pots. Forms an incredibly dense habit of shiny, jet black leaves with scalloped, ruffled edges. Each 4-4½" leaf has rosy purple undersides, revealed with the intense ruffling of the leaves. Oldest leaves have a slight silver overlay. To top it off, 'Black Pearl' keeps its intense black color even in full sun, instead of bleaching to brown. White flowers with pink calyxes appear in midsummer (requires vernalization).</i>						
	White	Black	June-July	10"(18")	18"	-	-
Dolce Silver Gumdrop	<i>Proven Winner variety sold in 'PW' pots. It has vibrant pink flowers instead of the typical white or cream. Match it with its silver, iridescent leaves with a semi-glossy finish and you have a winning combination. A smaller scale Heuchera, the perfect size for a container. Its silver leaves take on a rosy blush overtone later in the season for additional interest.</i>						
	Pink	silver	June-July	8"(22")	12"	-	-
Dolce Wildberry	<i>2023 Proven Winners National Perennial of the Year! Proven Winner variety sold in 'PW' pots. Intense, large, scalloped purple leaves with have charcoal veins. Dark stems hold rosy pink calyxes and white flowers</i>						
	White	Purple	June-July	10"(26")	16"	-	-
Grape Expectations	<i>Forms a dense, upright mound of broad, thick, and durable, vibrant grape purple leaves with black veins. Holds colour well then develops a bright silver overlay in the heat of summer.</i>						
	Cream-white	Purple	June-July	12"(34")	24"	-	-
Lemon Love	<i>Slightly ruffled, chartreuse leaves that are less prone to burning compared to other Heucheras in this colour.</i>						
	White	Lime green	June-July	10-14"	28-32"	-	-
HEUCHERELLA (Foamy Bells) ☼☾ Zone 4 A hybrid between Heuchera and Tiarella. The resulting hybrids retain the best of each genus- the foliage colour of Heuchera with the leaf shapes of Tiarella. Best if planted in morning sun and afternoon shade. Excellent planted in woodland gardens.							
Pink Revolution	<i>Bright green leaves with burgundy veins with bubble gum-pink flowers.</i>						
	Pink	Green	June	12"(20")	18"	-	-
Pumpkin Spice	<i>Bronze red leaves emerge in late spring and hold their colour well into early summer. Each lobed leaf has deep mahogany centers that follow the veins of the leaf. Dark red stems hold cream flowers</i>						
	White	Mahogany	June	8"(16")	15"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
HIBISCUS (Rose Mallow) ☼ Zone 4 <i>Hibiscus is a warm season plant and does not grow until the soil is warm therefore patience is required in the spring for this beauty to wake up – in southern Ontario is approximately mid–June. Excellent in the sunny border with large Alliums which die back just as the hibiscus is starting to grow.</i>							
Airbrush Effects	<i>The beautiful art deco pattern of this Hardy Hibiscus looks like it has been spray painted. 8-8½", vibrant pink flowers with salmon tones have an airbrushed central white halo and a small dark red eye. Overlapping petals create a three-dimensional look to the flowers. The rich, dark green foliage forms a compact habit. Lots of flower buds translates to a long season of bloom.</i>						
	Pink	Green	August-Sept.	48"	36"	-	-
Blackberry Merlot	<i>8" rich, deep velvety red flowers are produced above a tight, upright habit of deep green leaves.</i>						
	Deep Red	Green	August-Sept.	48"	36"	-	-
Dark Mystery	<i>There's no mystery here – this Hibiscus has proven season after season to be a superior performer. Incredibly dark, wine purple foliage contrasts beautiful with the large 8-9" white flowers. Each flower has a cherry red eye and dark pink veining. Heart-shaped leaves cover the round habit. Perfect for use in large gardens, landscapes, or any place where you want to make an impact statement.</i>						
	White/pink	Bronze	August-Sept.	60"	60"	-	-
Luna Pink Swirl	<i>Large 6-8in pink picotee blooms with a dark eye on a bushy plant.</i>						
	Pink	Green	August-Sept.	24-36"	24"	-	-
Luna Red	<i>Large 6-8in red blooms on a bushy plant.</i>						
	Red	Green	August-Sept.	24-36"	24"	-	-
Luna Rose	<i>Large 6-8in rose blooms on a bushy plant.</i>						
	Rose	Green	August-Sept.	24-36"	24"	-	-
Mars Madness	<i>Dark olive-green leaves have copper highlights, with the newest leaves emerging coppery purple. The large, maple-like leaves are broadly smooth and form a full, billowy habit. Huge 6-8" flowers open flat and are magenta red in color, more on the pink side of the spectrum than 'Cranberry Crush'. Each flower has a small, darker red halo with overlapping petals and deeply impressed veins. Flowers are produced from the top to the bottom of the plant, rather than only at the top like some older cultivars.</i>						
	Red	Green	August-Sept.	48"	60"	-	-
Midnight Marvel	<i>Huge deep scarlet-red flowers, over a bushy clump of deep wine-purple foliage</i>						
	Red	Bronze	August-Sept.	36-48"	36"	-	-
Starry Starry Night	<i>Incredibly dark, near-black, broad, maple-like leaves form an upright clump in the landscape. Interesting 7-8" flowers are pale pink with darker pink speckling and veining. The flowers are held on bright green carpels, which contrast nicely with the dark foliage. Flowers are produced from the top to the bottom of the plant, rather than only at the top like some older cultivars.</i>						
	Pink	Black	August-Sept.	42"	42"	-	-
Summer Carnival	<i>Unlike other variegated varieties, 'Summer Carnival' displays excellent vigor, has great flower coverage, and forms a beautifully shaped habit. 7", dark magenta pink flowers cover the upright, rounded habit. Each leaf has a narrow cream margin and the edges have a hint of blush. The perfect collector's item!</i>						
	Magenta Pink	Green/Cream	August-Sept.	48"	42"	-	-
Summer in Paradise	<i>Truly delivers with its refined habit and attractive, large flowers and floriferous performance. Deep red buds open to 7-8" hot cerise red flowers. Medium green, maple-like leaves are accented by olive green edges that quickly fill in the habit to keep it appearing full and refined. Flowers are produced from the top to the bottom of the plant, rather than only at the top like some older cultivars. Use in place of a shrub in your garden.</i>						
	Red	Green	August-Sept.	36-42"	42"	-	-
Vintage Wine	<i>Near black buds open to huge 7in, scarlet red flowers. Dark green heart shaped leaves form a densely upright columnar clump. Late blooming.</i>						
	Red	Green	August-Sept.	48"	36"	-	-
Watermelon Ruffles	<i>Highly decorative flowers are the hallmark of this Hardy Hibiscus. 7" magenta pink flowers have heavily ruffled petals. The end of each petal is so puckered they appear notched. Flowers are indeterminate and appear the length of the stem, translating to more blooms earlier in the season when compared with traditional cultivars. The brightly colored and textured flowers are set off against a habit of dark green leaves with a bronze cast.</i>						
	Pink	Green-bronze	August-Sept.	52"	36"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
HIBISCUS (Rose Mallow) Proven Winner Summerific Collection ☼ Zone 4 <i>All Sold in Proven Winner Pots. Their large stature and dinner plate sized blossoms make them the talk of the neighborhood from midsummer to early fall as they flaunt their tropical looking blossoms. Hummingbirds and pollinating bees are attracted to the colorful flowers, but deer typically pass them by. Not available for sale until mid June.</i>							
Ballet Slippers	<i>This hardy perennial fits the need of providing a Hibiscus lineup with near-white blooms. Huge 7" wide, ruffled flowers are white with a deep red eye. The edges of the petals are edged with blush pink. Combined with the heavily overlapping petals, this creates a pinwheel effect on the flowers. Attractive, healthy leaves are bright green with slightly serrated edges. A polished, upright habit and extremely high bud count with good axillary branching ensures that this Hibiscus will have a longer season of color, from late summer through early fall. Flowers are produced from the top to the bottom of the plant, rather than just at the top like some other cultivars.</i>						
	White/red eye	Green	August-Sept.	48"	48"	-	-
Berry Awesome	<i>2019 Proven Winners National Perennial of the Year. Huge 7-8" wide lavender pink flowers and red eye, with contrasting deep midnight green foliage. Flowers are produced from the top to the bottom of the plant, rather than just at the top like some other cultivars. The foliage forms the perfect habit and will be ready to show off from late summer into early fall.</i>						
	Pink	Midnight-Green	August-Sept.	48"	48"	-	-
Cookies and Cream	<i>A night and day combination of matte black foliage and pure white flowers. 'Cookies and Cream' emerges in late spring already showing its dark foliage; the perfect backdrop to early season perennials. Like other dark-leaved Hardy Hibiscus, full sun is necessary to bring out the deepest foliage color. Beginning in midsummer slightly cupped 6-7" bright white flowers will appear. Each bloom is absent the typical red eye of Hardy Hibiscus, appearing solid white. The back of each petal has a slight pink blush near the tip. Green calyxes follow bloom and contrast nicely with the dark foliage.</i>						
	White	Bronze	August-Sept.	36"	36"	-	-
Edge of Night	<i>At only 3-3½' tall, this is our most compact Hibiscus to date. 7-8" bubble-gum pink flowers have overlapping petals and darker pink veining for a dramatic 3D effect. Jet black foliage is the darkest we've seen on a Hibiscus and contrasts nicely with the green flower calyxes and red veining and petioles.</i>						
	Pink	Black	August-Sept.	36"	48"	-	-
Holy Grail	<i>There's a whole lot to love about this plant, beginning with its incredible dark, near-black foliage of beautiful, oval shaped leaves. Rich, deep red flowers are enormous at 8-9" across. The red and black colors perfectly complement each other. As an added bonus, once the flowers are finished, bright green calyxes starkly contrast the dark foliage.</i>						
	Red	Black	August-Sept.	48"	48"	-	-
Spinderella	<i>Large, 8" white flowers have medium pink accented edges and a dark red eye. Dark green leaves form a tidy, dense, and well-rounded habit that will fit perfectly as the centerpiece of your garden. The impeccable habit is a great improvement over other varieties of this flower type.</i>						
	Pink/white	Green	August-Sept.	48"	48"	-	-

HOSTA (Plantain Lily) Standard ☾● Zone 3

One of the most popular perennial for the shade gardens. Hostas offer an amazing palette of colours, sizes and textures. They can be used in beds or containers. . Please note for height – the number in brackets is the height of the bloom scapes, the number outside is the foliage height.

August Moon	<i>Brilliant gold to chartreuse leaves. Tolerates full sun which will intensify the gold colour. Corrugated leaves.</i>						
	Pale lavender	Gold	July-August	20"(24")	30"	-	-
Big Daddy	<i>Chalky-blue leaves are rounded, cupped and puckered at maturity.</i>						
	Pale lavender	Blue	July	24"(30")	36"	-	-
Blue Angel	<i>Large, blue-green leaves of heavy substance form a huge mound. Excellent slug resistance.</i>						
	White	Blue-green	July	36"(48")	36"	-	-
Fortunei 'Albo picta'	<i>The center of the leaf emerges a fairly bright cream-green colour in spring and fades to a golden green with a green edge.</i>						
	Lavender	Two tone green	July-August	20"(40")	36"	-	-
Fortunei 'Aureomarginata'	<i>Spinach green leaves with a hint of blue and deep golden yellow margins. Leaves are broadly ovate and slightly puckered.</i>						
	Lavender	Green/gold	July-August	20"(40")	36"	-	-
Fragrant Blue	<i>One of the few blue Hosta with fragrant flowers. Chalky blue, heart-shaped leaves have a beautiful smooth texture.</i>						
	Light lavender	Blue	June-July	18"(22")	36"	-	-
Francee	<i>Medium to dark green somewhat glossy leaves have narrow white margins. Forms a wide, low mound of foliage perfect for edging.</i>						
	Lavender	Green/white	July-August	14"(30")	36"	-	-
Francis Williams	<i>Giant, blue-green leaves with very wide, chartreuse to yellow margins. Leaves are leathery corrugated, and slug resistant.</i>						
	White	Green/yellow	July	22"(30")	36"	-	-
Gold Standard	<i>Forms a large mound of leaves with dark green margins and light green centres which turn gold by summer.</i>						
	Pale lavender	Gold/green	July	20"(30")	30"	-	-
Golden Tiara	<i>Small, heart-shaped, medium green leaves have wide, chartreuse margins that turn gold in sun. Compact grower.</i>						
	Purple	Green/yellow	July	15"(24")	20"	-	-
Halycon	<i>Leaves are frosty blue-green and pointed. Foliage has a heavy substance and is slug resistant.</i>						
	Pale violet-blue	Blue-green	July	18"(28")	24"	-	-
Krossa Regal	<i>Frosted blue-green leaves and a graceful vase-like habit. Leaves are wavy and good substance. Excellent background plant.</i>						
	Lavender	Blue-green	July	40"(60")	36"	-	-
Minuteman	<i>A stunning selection. Dark green cupped leaves with wide pure white margins. Sport of 'Francee'</i>						
	Pale lavender	Green/white	June-July	18"(24")	36"	-	-
Patriot	<i>1997 Hosta of the Year! Dark green leaves with wide, crisp white, jetting margins.</i>						
	Lavender	Green/white	July	22"(30")	30"	-	-
Royal Standard	<i>Forms a very large mound of glossy, wavy, green leaves. Fragrant white flowers. Sun and drought tolerant.</i>						
	White	Green	July	26"(40")	36"	-	-

HOSTA (Plantain Lily) Standard ☺● Zone 3 <i>One of the most popular perennial for the shade gardens. Hostas offer an amazing palette of colours, sizes and textures. They can be used in beds or containers. Please note for height – the number in brackets is the height of the bloom scapes, the number outside is the foliage height.</i>							
Sieboldiana 'Elegans'	<i>Huge blue-grey rounded leaves measure 10X9 inches. They become heavily textured and corrugated as they mature. Slow to establish.</i>						
	White	Blue-gray	July	20"(34")	48"	-	-
So Sweet	1996 Hosta of the Year! <i>This mid-sized selection produces a medium-large mound of glossy, deep green leaves with creamy-yellow margins that lighten to white as the season progresses. In late summer, very fragrant pale lavender to white flowers appear.</i>						
	Pale lavender	Green/yellow	July-August	18"(28")	35"	-	-
Undulata Albo Marginata	<i>Medium green leaves have wavy white margins. May lose its variegation temporarily in containers in the hottest part of summer.</i>						
	Pale lavender	White/green	July	18"(40")	30"	-	-
Undulata Variegated (Medio Picta)	<i>Wavy leaves have white centres and wide irregular, green margins. They twist and tip. May lose its variegation temporarily in containers in the hottest part of summer.</i>						
	Lilac	White/green	July	15"(38")	30"	-	-
Wide Brim	<i>Nicely mounded leaves are dark green with wide, irregular margins of buttery yellow. Prefers full shade.</i>						
	Pale lavender	Green/yellow	July-August	16"(24")	30"	-	-

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
HOSTA (Plantain Lily) Specimen ☺● Zone 3 <i>One of the most popular perennials for the shade gardens. Hosta offer an amazing palette of colours, sizes and textures. They can be used in beds or containers. Please note for height – the number in brackets is the height of the bloom scapes, the number outside is the foliage height.</i>							
Abiqua Drinking Gourd	2014 Hosta of the Year! <i>Dark green-blue seersucker leaves with heavy substance display a unique cupped form. Good slug resistance</i>						
	White	Blue-green	June-July	18"(22")	30"	-	-
Blue Ivory	<i>Blue centres and wide creamy-white margins in spring that in summer brighten to white while the leaves deepen to blue-green. A greenish blush may appear over the margins in the heat of late summer.</i>						
	Lavender	Blue/Ivory	July-August	12"(16")	29"	-	-
Blue Mammoth	<i>Leaves are large, rounded and puckered, powdery blue turning blue-green as the summer progresses.</i>						
	White	Blue-green	July-August	22"(30")	70"	-	-
Blue Mouse Ears	2008 Hosta of the Year! <i>Adorable miniature hosta! Thick rounded blue-green leaves form a nice round mound.</i>						
	Lavender	Blue-green	July	8"(12")	12"	-	-
Blueberry Muffin	<i>A strong and reliable grower. Long-lasting blue foliage deepens to blue-green late in season. Forms a medium sized mound of rounded, puckered leaves with lavender petioles.</i>						
	Lavender	Blue-green	July	14"(18")	24"	-	-
Brim Cup	<i>This smaller selection has deep green, upwardly cupped, lightly corrugated leaves with a wide, streaky white margin. Pale lavender flowers appear in midsummer. Suitable also for planting in mixed containers or tubs.</i>						
	Lavender	Green/cream	July	12"(18")	24"	-	-
Brother Stefan	2017 Hosta of the Year! <i>Forms a large clump of thick heavily corrugated, puckered leaves. Spring leaves are chartreuse with a blue margin. Mature leaves are gold with a green margin.</i>						
	White	Gold/blue-green	July	20"(24")	24"	-	-
Captian Kirk	<i>This mid-sized selection has thick leaves of golden yellow, with a contrasting wide, streaky border of deep green. Midsummer blooms are lavender mauve. Fairly sun tolerant, give morning sun for best colour. A sport of the popular variety 'Gold Standard'.</i>						
	Lavender	Green/yellow	July	20"(24")	35"	-	-
Cherry Berry	<i>This medium-size selection has pointy white leaves, with a distinctive streaky green margin. Pale lavender flowers appear in late summer.</i>						
	Pale lavender	Green/cream	July	12"(16")	24"	-	-
Curly Fries	2016 Hosta of the Year! <i>Curly Fries is perfect for tucking into small spots or for growing in containers and contrasts nicely with blue varieties. Plants form an arching mound of wiggly narrow gold leaves. As the plants mature the petioles will develop red specks. For the best color locate the plant where it can get a few hours morning sun.</i>						
	Pale lavender	Green/cream	July	6"(16")	16"	-	-
Dancing Queen	2020 Hosta of the Year! <i>Unlike other yellow Hosta which emerge or turn chartreuse, 'Dancing Queen' emerges bright yellow and remains yellow all season long. The large leaves have a prominent pie crust edge, adding even more pizzazz to this colorful Hosta.</i>						
	Purple	Yellow	July-Aug	18"(28")	30"	-	-
Dancing with Dragons	<i>This beautiful blue hosta positively dances when you look at it. Heart-shaped leaves have margins that are heavily rippled and give the hosta an overall wavy appearance. As an added bonus, 'Dancing with Dragons' holds its beautiful blue color throughout the season. Near white flowers top the habit in late summer.</i>						
	Lavender	Blue	July	18"(25")	40"	-	-
Deep Blue Sea	<i>Thick, rick dark blue leaves that turn shiny green in late summer. Rich lavender flowers in late July that don't always open. Slow growing</i>						
	Lavender	Blue	July	15"(20")	34"	-	-
Dream Queen	<i>Beautiful contrast of blue and yellow on these corrugated and slightly cupped leaves.</i>						
	White	Blue/yellow	July	20"(18")	36"	-	-
Drop Dead Gorgeous	<i>A beautifully variegated large, majestic hosta. Large, ovate leaves have green centers with brightly contrasting yellow margins. The margins are heavily rippled and give the leaves a lightly wavy overall effect. White flowers appear above the foliage in midsummer.</i>						
	White	green/yellow	July	30"(41")	86"	-	-
Earth Angel	2009 Hosta of the Year! <i>A sport of Blue Angel. Large, heart shaped blue-green leaves with wide, creamy white margins that are creamy yellow in spring.</i>						
	Pale Lavender	BlueGreencream	July	48"(48")	48"	-	-
Fire and Ice	<i>Small, twisting white leaves with a dark green margin. Reverse of Patriot.</i>						
	Lavender	Green/white	July	18"(20")	24"	-	-

BROWNRIDGE greenhouses & nursery ltd.

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
HOSTA (Plantain Lily) Specimen ☉● Zone 3 <i>One of the most popular perennials for the shade gardens. Hosta offer an amazing palette of colours, sizes and textures. They can be used in beds or containers. Please note for height – the number in brackets is the height of the bloom scapes, the number outside is the foliage height.</i>							
Fire Island	<i>Brilliant yellow leaves with rippled margins emerge on red petioles in spring. Red extends from petiole base up into the leaves. Foliage darkens to chartreuse in summer. Vigorous grower.</i>						
	Lavender	Chartreuse	July	12"(18")	24"	-	
First Frost	2010 Hosta of the Year! <i>Intense blue-green leaves with margins of gold in spring, turning to pure white. Foliage holds up well until the first frost.</i>						
	Light lavender	Blue/gold	July	16"(28")	30"	-	
Fragrant Bouquet	1998 Hosta of the Year! <i>Broad leaves with pointed tips are light apple-green with pale yellow to cream margins. Forms a very sizable mound. Large fragrant flowers</i>						
	White	Green/cream	July	20"(36")	48"	-	
Ginko Craig	<i>Funnel-shaped purple flowers over top of narrow dark green leaves with grey streaks and white margins.</i>						
	Purple	Green/White	July	10"(24")	18"	-	
Great Expectations	<i>Thick leaves with wide, irregular, blue-green margins. Creamy yellow to white centre with green jetting towards the centre.</i>						
	White	Blue green/cream	June-July	20"(24")	36-48"	-	
Guacamole	2002 Hosta of the Year! <i>Huge, apple green leaves develop dark green margins and brighter gold centres in summer. Large, fragrant, pale lavender flowers</i>						
	Pale lavender	Green/gold	August	22"(36")	36-48"	-	
Happy Dayz	<i>Leaves have yellow centres and darker green margins. Similar to 'Orme Marmalade' but with wider and more blue-green margins. Light lavender flowers in midsummer.</i>						
	Pale lavender	Green/gold	July	18"(32")	28"	-	
Island Breeze	<i>A sport of 'Paradise Island'. The improvements in this cultivar include more impressive variegation due to its wider margins, thicker leaf substance, and a strong growth rate. Wide, dark green margins stand in sharp contrast to the bright yellow centers in early spring. As summer approaches, the centers become more chartreuse when plants are grown in heavier shade or lighter yellow if they are grown in more sun. Like 'Paradise Island', this one also has showy red speckled petioles that bleed up into the leaves. Dark lavender flowers appear on reddish green scapes in midsummer.</i>						
	Lavender	Green/yellow	July-August	12"(28")	18"	-	
June	2001 Hosta of the Year! <i>Wide, jetting blue-green margins and chartreuse centres in spring. Centres turn gold in summer.</i>						
	Pale lavender	Blue-green/lime	July-August	15"(20")	30"	-	
June Fever	<i>A nearly all yellow sport of 'June' with a very narrow blue-green margin that jets towards the midrib. Leaves are shiny and good substance. Darkens to chartreuse in mid-summer.</i>						
	Lavender	Yellow/green	July-August	15"(24")	30"	-	
Komodo Dragon	<i>Leaves are rounded with a twisted tip, blue-green to gray-green with a rippled edge. It is a vigorous grower that will develop into a huge clump.</i>						
	Lavender	Blue-green	June-July	26"(30")	60"	-	
Lakeside Paisley Print	2019 Hosta of the Year! <i>This stunning Hosta produces heart-shaped leaves with very wide, wavy, green margins. The narrow, creamy white markings in the center of the leaves shoot out from the cream colored petioles in a feathery pattern.</i>						
	Purple	White/green	June-July	10"(22")	22"	-	
Liberty	2012 Hosta of the Year! <i>A sport of 'Sage' with wide, jetting, yellow margins which lighten to creamy white. Leaves are of heavy substance for good slug resistance.</i>						
	Lavender	Blue-green/cream	June-July	26"(40")	36-48"	-	
Loyalist	<i>Textured heart-shaped leaves remain white in colour with showy dark green variegation throughout the season. Reverse of Patriot.</i>						
	Pale lavender	Green/white	July	18"(24")	24"	-	
Mini Skirt	2024 Hosta of the Year! <i>This petite and flirty Hosta forms a miniature mound of very wavy, thick, blue-green leaves with creamy yellow margins in spring. In summer, the center turns greener, and the edge lightens to creamy white. Pale lavender flowers with deeper purple stripes appear closely packed together on short, very proportionately sized scapes in early to midsummer.</i>						
	Lavender	Green/yellow	July	5"(7")	13"	-	
Mr. Big	<i>This huge specimen selection has thick, quilted blue-green leaves. Near white flowers in August.</i>						
	White	Blue	August	24"(36")	50"	-	
Old Glory	<i>Heart-shaped leaves with golden-yellow centres and irregular 1" wide, dark green margins.</i>						
	Light lavender	Green/yellow	July	14"(24")	30-40"	-	
Orange Marmalade	<i>Leaves emerge all green then quickly develop a yellow centre with a hint of orange and a green margin.</i>						
	Light lavender	Green/gold	July	17"(26")	32"	-	
Paradigm	2007 Hosta of the Year! <i>Thick gold leaves with jetting blue-green margins; variegation intensifies later in the spring.</i>						
	Light lavender	Green/gold	July	20"(24")	36"	-	
Paul's Glory	1999 Hosta of the Year! <i>Leaves are blue-green with a chartreuse centre in spring. By summer, they turn darker green and the centres brighten to gold.</i>						
	Pale lavender	Green/gold	July	25"(40")	36"	-	
Prairie Sky	<i>It forms a tight clump of powdery blue, lightly cupped leaves of thick substance and it keeps its showy color all season long. Pale lavender flowers top the clump in mid to late summer.</i>						
	Lavender	Blue	August	14"(36")	18"	-	
Praying Hands	Hosta of the Year 2011! <i>Upright, narrow, tightly folded leaves resemble hands folded in prayer. The dark green leaves are heavily rippled with very thin, gold margins.</i>						
	Lavender	Green	August	16"(18")	24"	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
HOSTA (Plantain Lily) Specimen ☉● Zone 3 <i>One of the most popular perennials for the shade gardens. Hosta offer an amazing palette of colours, sizes and textures. They can be used in beds or containers. Please note for height – the number in brackets is the height of the bloom scapes, the number outside is the foliage height.</i>							
Rainbows End	Hosta of the Year 2021! <i>This unique Hosta exhibits incredibly variegated, shiny foliage. The bright yellow leaves of good substance have dark green margins that jet into the center, and the center brightens to creamy white in summer</i>	Purple	Green/gold	July	11"(19")	21"	-
Rainforest Sunrise	Hosta of the year 2013! <i>Leaves emerge light green, then quickly develop dark green margins and a radiant gold centre. As they mature, the thick leaves become lightly cupped and heavily puckered.</i>	Pale lavender	Green/gold	July	8"(18")	20"	-
Raspberry Sundae	<i>Lovely compact Hosta with beautifully variegated leaves and striking deep burgundy petioles, leaf bases, and flower stalks.</i>	Dark Lavender	Blue	July-August	8"(21")	23"	-
Regal Splendor	Hosta of the year 2003! <i>Frosty blue leaves with wavy, narrow, creamy yellow to ivory margins. Vase-like plant habit.</i>	Lavender	Blue	July-August	36"(72")	36-48"	-
Revolution	<i>Dark green leaves have large, cream centers with soft green speckling in the spring; speckles darken by midsummer. Best color is achieved in open shade. Leaves are of heavy substance, possibly a tetraploid. Lavender, tubular flowers are borne on 22" scapes in midsummer.</i>	Lavender	Blue	July-August	18"(22")	30"	-
Sagae	Hosta of the Year 2000! <i>Huge, wavy, frosted blue-green leaves with yellow to creamy with margins.</i>	Lavender	Blu-green/cream	August	28"(45")	48"	-
Silly String	<i>This unique hosta has narrow blue leaves with intensely wavy margins. The leaves are the most blue in spring; as the season progresses the leaves become more blue-green. Pale purple flowers top the plant for a perfect package. Perfect for containers or the front of the shade garden.</i>	Purple	Blue	July	14"(20")	28"	-
Silver Bullet	<i>Like a giant 'Blue Mouse Ears', 'Silver Bullet' creates a densely packed clump of very thick, rounded blue leaves. The thick foliage provides great slug resistance. Near white flowers are held just above the foliage. While this technically meets the classification of a medium-sized Hosta, the landscape presence is more in accordance with a small Hosta.</i>	White	Blue	August	11"(12")	20"	-
Stained Glass	Hosta of the year 2006! <i>Huge, brilliant gold leaves with wide, dark green margins. Large fragrant lavender flowers. Sun tolerant.</i>	Pale lavender	Gold/green	August	15"(30")	36-48"	-
Sum and Substance	Hosta of the year 2004! <i>A giant Hosta. Leaf colour varies with sun exposure from light green to chartreuse to gold. Slug resistant. Sun tolerant.</i>	Pale lavender	Green	July-August	36"(48")	48-72"	-
Sun Power	<i>Large chartreuse to gold leaves, with lavender flowers in mid summer.</i>	Lilac	Green/Gold	July-August	32"(48")	47-59"	-
Sunny Halcyon	<i>This selection is a form of 'Halcyon' with gold, heart-shaped leaves.</i>	Lavender	Yellow	July-August	18"(28")	24"	-
Thunderbolt	<i>Leaves have very wide, blue-green margins and a narrow, creamy white centre. Very striking!</i>	Cream	Blu-green/cream	July	18"(26")	30"	-
Touch of Class	<i>Blue leaves with striking yellow-gold centres and green jetting. The leaves are of heavy substance and more upright than 'June'.</i>	Lavender	Blue/gold	July	16"(22")	24"	-
Twilight	<i>This terrific specimen selection has thick green leaves with a stunning creamy-yellow edge. Pale lavender flowers appear in July.</i>	Lavender	Green/gold	July	22"(28")	32"	-
Victory	Hosta of the year 2015! <i>This sport of 'Elatior' has shiny green leaves with wide cream margins. These very large thick leaves are held upright as they emerge and form a massive mound when mature. Absolutely stunning Hosta that should be used as a specimen plant where it can be appreciated! Near white flowers appear on very tall scapes.</i>	White	Green/cream	July	32"(54")	40"	-
Whirlwind	<i>Dark green, jetting margins surround a cream-gold centre which darkens to green in late summer. Forms a unique upright, wavy mound.</i>	Lavender	Green/gold	July-August	20"(30")	36"	-
White Feather	<i>This miniature selection has unusual, pointed ivory-cream leaves when they first emerge, later developing green stripes. Lavender flowers appear in early summer.</i>	Lavender	Ivory-cream	July-August	8"(12")	18"	-
Wiggles & Squiggles	<i>A unique looking Hosta that lives up to its fun name! Bright yellow leaves are very long and thin and notable for their incredibly wavy margins. It forms a low, wide habit that really highlights the "wiggly" edges. Leaves will be more chartreuse green in more shade: for best yellow color, plant in a site with morning sun and afternoon shade. Lavender flowers.</i>	Lavender	Chartreuse	July-August	8"(18")	24"	-
Wild Imagination	<i>This wild looking blue Hosta creates a sizeable mound of narrow twisted and ruffled leaves. Exceptionally large plant for a strap-leaf Hosta. Compared with recent new introduction 'Silly String', this plant is more than twice the size. Lavender flowers.</i>	Lavender	Blue	July-August	22"(24")	48"	-
Wrinkle in Time	<i>This sport of the classic variety 'Pilgrim' shows a little more character with showy, wavy margins. Leaves have a single prominent wave that begins one third of the way from the leaf base. Dark green leaves have creamy yellow margins in spring, maturing to creamy white margins in summer. Gray-green color appears where the margins and centers overlap. Lavender flowers appear above the foliage in midsummer. Sizes measured are based on a five year clump. A vigorous, fast-growing variety suitable for edging or landscapes.</i>	Lavender	Cream/Green	July-August	9"(15")	29"	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
HOSTA (Plantain Lily) Specimen – Proven Winner! Varieties ☼ ● Zone 3 <i>All Sold in Proven Winner Pots</i> One of the most popular perennials for the shade gardens. Hostas offer an amazing palette of colours, sizes and textures. They can be used in beds or containers. Please note for height – the number in brackets is the height of the bloom scapes, the number outside is the foliage height.							
Autumn Frost	<i>This striking Hosta forms a medium sized mound of showy, frosty blue leaves with extra wide, bright yellow margins. The margins lighten to creamy white and light lavender flowers are produced in summer.</i>						
	Lavender	Blue/yellow	July-August	12"(20")	20"		-
Coast to Coast	<i>This giant, solid gold Hosta makes a striking specimen. Emerges chartreuse yellow, then turns lighters gold in summer. Thick puckered wavy leaves form an upright vase-shaped clump.</i>						
	Pale lavender	Green/cream	July	24"(36")	30"		-
Diamond Lake	Hosta of the Year 2022! <i>Attractive, heart-shaped, thick and heavily corrugated blue leaves have wavy margins. Pale lavender flowers float on top of these leaves in summer.</i>						
	Pale lavender	Blue	July	17"	45"		-
Empress Wu	<i>Very large Hosta!! Huge, thick, dark green deeply veined leaves form a massive upright clump. Pale reddish violet flowers.</i>						
	Violet	Green	July	48"(48")	48"		-
Love Story	<i>This Hosta will be a part of your garden "love story." Long heart-shaped leaves have medium green margins with chartreuse jetting that bleeds into creamy white centers. The medio-variegation extends from leaf tip to the petiole, flaring at the base of the leaf. A gentle piecrust wave edges each leaf. Tall scapes hold large clusters of tubular white flowers in early summer, creating a Hosta that can be enjoyed for its foliage and flowers.</i>						
	White	Green/yellow	July	14"(22")	36"		-
Seducer	<i>This Hosta forms a large mound of dark green leaves with a chartreuse to gold margin and a trace of white between the centre and margin. Summer heat draws out the unique coloration. Near-white flowers.</i>						
	White	Green/lime	July	24"(40")	30"		-
Gigantosaurus	<i>The massive size and leaves of 'Gigantosaurus' will have your garden feeling like Jurassic Park. This variety will come roaring to life in early spring as one of the first Hostas to emerge. Large blue leaves have a wavy yellow margin. In summer yellow margins turn to creamy white. Pale lavender flowers first begin appearing in early summer and are held just above the foliage</i>						
	Purple	Blue	July	30"	72"		-
Sound of Music	<i>This giant hosta will add immediate interest with heavily corrugated, medio variegated leaves. Chartreuse centers jet to glaucous blue-green margins. Centers mature to creamy white in summer. In early summer large clusters of near white flowers will have birds and pollinators singing in the shade garden.</i>						
	White	Blue green	July-August	30"	60"		-
Voices in the Wind	<i>This beautiful variegated hosta will catch your eye with its sophisticated beauty. Blue-green wedge-shaped leaves have very ruffled, creamy yellow margins. Pale lavender flowers appear in mid to late summer.</i>						
	Lavender	Blue green/cream	July-August	17"(24")	45"		-
Waterslide	<i>Wavy, ruffled leaves with heavy substance. The blue, rippled leaves look like water splashing in the shade garden, and hold their blue color well into the summer season.</i>						
	Purple	Blue	July-August	14"(17")	18"		-
Wheee	<i>Extremely ruffled, cream-colored margins extend from the tip of each green leaf all the way down the petiole to the crown. This ruffled margin is evident even in the juvenile stage of the plant before vernalization. The leaves of this medium sized Hosta are of excellent substance, making them slug resistant in the landscape.</i>						
	Purple	Green/gold	July-August	15"(24")	24"		-
Wu-la-la	<i>Blue-green leaves have striking apple-green margins. Violet flowers in summer. Will take 5 years to grow to mature size.</i>						
	Violet	Green	July-August	36(48")	5-6ft		-

HOUTTUYNIA (Chameleon Plant) ☼ ☼ Zone 4 *Forms thick patch of brightly coloured leave. Use as a groundcover, container plant, or by waterside.*

Chameleon	<i>Leaves are variegated green, pink and red in full sun or green and yellow in shade. Breaks dormancy late.</i>						
	White	Variegated	June-July	8-10"	24"		-

HYPERICUM (St. John's Wort) ☼ ☼ Zone 5

Inodorum 'Miracle Grandeur'	<i>Zone 6. Enjoy bright yellow flowers during the Summer months and striking cerise red berries that attract birds and other wildlife in late-Summer through Fall.</i>						
	Yellow	Green	June-July	12-18"	24"		-

IBERIS (Candytuft) ☼ Zone 3 *A blanket of white. Quarter sized clusters of flowers carpet the narrow evergreen leaves. Great filler between stones or use as a groundcover.*

Snowdrift	<i>The first truly late-flowering Iberis to help extend the season. Compact habit.. Flowers on average four weeks later than other varieties</i>						
	White	Green	April-June	10-12"	12"		-
Snowflurries	<i>Single white flowers early blooming. A neat compact, well-branched variety.</i>						
	White	Green	April-June	10-12"	12"		-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
IRIS Ensata (Japanese) ☀️🌿 Zone 4 <i>Nearly every gardener who sees Japanese iris in bloom wants to try them. The huge blossoms can be dinner plate size, but 6-8" is common. They require neutral to acidic soil, and lots of moisture until blooming time is over. Plants will be happy at the waterside, and can even be grown in pots sitting in water.</i>							
✂️ Dinner Plate Blueberry Pie	Produces magnificent deep blue blooms of up to 15cm (6") across, borne upon stiff, upright stems. Like all Japanese Iris, this large-flowered variety is at its best in a damp border or in the moist soil close to the edge of a pond. Great for colour and drama in early summer months.	Royal blue	Green	June-July	24"	12"	-
✂️ Dinner Plate Tiramisu	The wide, speckled blooms of Iris ensata Dinner Plate 'Tiramisu' are quite exquisite! Each bloom boasts white petals, edged with a mauve picotee margin, reaching up to 15cm (6") across. The upright stems and slender, grassy foliage bring a lovely vertical element to planting schemes that adds movement and texture. With a neat clump-forming habit, this hardy perennial makes a superb addition to a damp border or the moist soil at the edge of pond.	White/mauve	Green	June-July	32"	18"	-
✂️ Pinkerton	A beautiful Japanese Iris with soft pink flowers. Pink crests arch above six bands of showy falls with dark veining and rippled edges. Bloom size on 'Pinkerton' is consistent with other Japanese Iris at 7" wide, nearly twice the size of some Siberian Iris. These plants are later to bloom, sometimes not flowering until a month after Siberian Iris have started.	Pink	Green	June-July	32"	18"	-
✂️ Variegated	Forms a vigorous clump of grassy green and white-striped leaves, bearing drooping purple flowers.	Purple	Green/cream	June-July	32"	18"	-
IRIS German (Tall Bearded) ☀️🌿 Zone 4 <i>When planting German Irises, be sure to leave the top 25-50% of the rhizome exposed above soil level. Water sparingly and avoid excess moisture during fall and winter.</i>							
✂️ Harvest of Memories	Radiant yellow self with widely ruffled petals. Slightly sweet fragrance. Vigorous grower with high bud count. Dependable fall re-bloom.	Yellow	Green	June	38"	18"	-
✂️ Immortality	Ruffled, pure white self with pale lemon-yellow beards. Strong sweet fragrance. Good re-bloom.	White	Green	June	29"	18"	-
✂️ Pink Attraction	Profuse, pretty pink blooms erupt from abundant buds. Well-formed, ruffled and flared iris are of moderate height. Re-bloomer	Pink	Green	June	36"	18"	-
✂️ Superstition	Black-purple flowers with a hint of maroon.	Purple	Green	June	36"	18"	-
✂️ Victoria Falls	Very large, light blue standards and falls are reminiscent of magnificent waterfalls. White beards are highlighted by a patch of white in the centre of each pale blue fall, mimicking the glimmer of sunlight off rushing water. Re-bloomer	Blue	Green	June	36"	18"	-
IRIS Pallida (Sweet Iris) ☀️🌿 Zone 3 <i>Variiegated forms of the tall, bearded irises.</i>							
✂️ Albo Variiegata	Foliage is boldly edged with pure white and occasional streaks of dusky gray green, the flat, sword-like leaves radiate out from the crown like a fan. Beautiful light blue-lavender bloom with a fuzzy orange beard and sweet scent	Lavender-blue	Cream/green	June	34"	18"	-
✂️ Aureo Variiegata	Striking golden variegated foliage with green and creamy yellow stripes making it attractive even when not in bloom. Lavender blue flowers.	Lavender-blue	Gold/green	June	34"	18"	-
IRIS Sibirica (Siberian) ☀️🌿 Zone 3 <i>Siberian irises prefer moist to boggy soil. They tend to bloom after the German iris and before the Japanese iris. Their slender, spiky leaves add wonderful texture to a landscape.</i>							
✂️ Butter and Sugar	Creamy white standard, butter yellow falls and greenish yellow veins.	Creamy yellow	Green	Mid-June	28"	18"	-
✂️ Caesar's Brother	Deep purple self and a yellow and white blaze with black veining.	Purple	Green	Mid-June	40"	24"	-
✂️ Jeweled Crown	3-5" flowers have rich wine purple standards and falls with lighter purple-blue styles. Semi-flaring falls display prominent white and yellow signals with purple veining.	Purple	Green	Mid-June	34"	18"	-
✂️ Ruffled Velvet	Dramatic red-purple standard, velvety darker purple falls and a black and gold blaze.	Purple	Green	Mid-June	26"	18"	-
✂️ Silver Edge	Mid-sized selection with medium-blue flowers, the petals edged in silver. Excellent at the waterside, or in a moist border.	Blue	Green	Mid-June	26"	18"	-
IRIS Versicolor ☀️🌿 Zone 4 <i>Best grouped in sunny areas of ponds or water gardens. Also may be grown in moist border areas.</i>							
Gerald Darby	The best ornamental feature of this selection is its spring foliage, which ranges from dusky purple to purple-black (usually, the cooler the weather, the darker the foliage). The flowers are rather delicate-looking, in a purple-blue color.	Purple	Green	July	24-30"	18"	-
Versicolor (Harlequin Blue Flag)	This is a wildflower of Eastern North America, and one of the few native iris species in garden cultivation. Although happiest at the waterside, or actually growing in shallow water, plants will also perform well under average border conditions. Clumps of tall sword-like leaves are produced, bearing medium-sized flowers with bright violet-blue, ruffled petals. Might begin to naturalize in waterside areas that are to its liking. In smaller water features, consider growing this in large pots submerged to the rim.	Purple	Green	July	24-30"	18"	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
KNAUTIA macedonica ☼ Zone 4-5							
Thunder & Lightning	<i>Light green leaves shaped like lightning bolts are outlined with creamy yellow to white margins which remain all season. Deep reddish purple, rounded flowers about the size of a quarter appear atop wiry stems above the contrasting foliage from early summer into fall.</i>						
	Burgundy	Green/cream		12"-18"	16"	-	-
KNIPHOFIA (Red Hot Poker) ☼ Zone 6 <i>Bottle-brush shaped flowers, over sword shaped leaves. Excellent for attracting hummingbirds and butterflies.</i>							
Flamenco Mix	<i>30" bloom spikes of creamy white, yellow, orange, red or shades of all 4 colours.</i>						
	Assorted	Green	August-Sept.	12"(30")	16"	-	-
Papaya Popsicle	<i>A poker with a twist! An all-summer bloomer which has a very short compact habit. A prolific bloomer with spikes of flowers the color of ripe papayas.</i>						
	Orange/red	Green	July-Sept.	16"(24")	18"	-	-
Red Hot Popsicle	<i>Lively, cinnamon red flowers on short, compact plants for the smaller garden. Narrow grassy leaves. Free blooming and re-blooming. Loved by hummingbirds!</i>						
	Red	Green	July-Sept.	12"(18")	18"	-	-
LAMIASTRUM (Dead Nettle, False Lamium) ☼● Zone 3 <i>A hardy upright spreading groundcover for part to full shade. It can withstand drought conditions therefore good for under trees and other difficult sites.</i>							
Galeobdolon (Yellow Archangel)	<i>Tiered whorls of hooded, butter yellow flowers in late spring with silver splashed, bright green foliage. Can be invasive.</i>						
	Yellow	Green/silver	May-June	12-15"	12-18"	-	-
Herman's Pride	<i>Forms a neat spreading mound. Yellow flowers appear briefly in the spring over green foliage with a silver overlay.</i>						
	Yellow	Green/silver	May-June	12"	12-18"	-	-
LAMIUM (Spotted Dead Nettle) ☼● Zone 4 <i>Excellent weed smothering groundcover. Good for edging, walls, containers. Not suitable for rock gardens.</i>							
Anne Greenway	<i>Small leaves that are brightly marbled with light and dark green, chartreuse, and silver. Clusters of mauve-pink flowers appear in spring.</i>						
	Pink	Green/silver	May-June	6-8"	12-23"	-	-
Beacon Silver	<i>Silvery leaves with narrow, green margins provide a lovely backdrop for the lavender-pink, hooded flowers.</i>						
	Lavender-pink	Green/silver	May-June	6-8"	12-18"	-	-
Ghost	<i>Larger grower. All silver leaves topped with clusters of large, bright orchid purple flowers in spring.</i>						
	Orchid purple	Silver	May-June	10-14"	12-18"	-	-
Pink Pewter	<i>Soft, shell pink blooms over greenish grey foliage edged with silvery grey.</i>						
	Light pink	Grey/silver	May-June	6-12"	18-24"	-	-
Purple Dragon	<i>Dense spikes of rich purple flowers and silvery foliage.</i>						
	Deep purple	Silver/green	May-June	6-8"	12-18"	-	-
Red Nancy	<i>Small silver leaves with narrow green edging. Clusters of purplish-pink flowers appear in spring.</i>						
	Purple-pink	Silver/green	May-June	6-8"	18"	-	-
White Nancy	<i>Nearly all silver leaves with narrow, blue-green margins topped with pure white hooded flowers in spring. Particularly dense growing variety.</i>						
	White	Silver/green	May-June	6-8"	18"	-	-
LATHYRUS (Sweet Pea) ☼● Zone 3 <i>Flowers are very similar in appearance to the annual Sweet Pea but lack the fragrance. Requires a support to climb.</i>							
✂ Splenden Mix	<i>Delicate flowers in shades of rose, pink, and white. Blooms prolifically all summer long.</i>						
	Assorted	Green	July-Sept.	4-8ft	12"	-	-
LAVANDULA Angustifolia (English Lavender) Zone 5 ☼ <i>A small aromatic evergreen shrub with gray-green leaves. Suitable for edgings, herb gardens, and containers. Deer resistant.</i>							
✂ Grosso	<i>Evergreen, perennial shrub with gray green foliage and abundant spikes of fragrant, purple flowers from fat showy buds that attract butterflies.</i>						
	Blue	Silver-grey	June-Sept.	24"	14"	-	-
✂ Hidcote	<i>Very fragrant, deep violet-purple flower spikes. Silver-grey foliage remains compact.</i>						
	Violet-purple	Silver-grey	June-Sept.	16"	14"	-	-
✂ Munstead	<i>Rich lavender flower spikes over compact silver-grey foliage all summer long. Thought to be the hardiest of the lavenders.</i>						
	Lavender-blue	Silver-grey	June-Sept.	12-16"	14"	-	-
✂ Phenomenal	<i>Remarkable fragrance and flower presentation above uniform mounds of silvery foliage in spring and summer, it is truly 'Phenomenal' for fresh and dried flower arrangements, oils, and culinary delights – and of course, the perennial border or patio container! Extremely tolerant to heat & humidity with superior winter survival and hardiness to Zone 5</i>						
	Purple	Silver grey	June-Sept.	24-36"	24"	-	-
✂ Provence	<i>Forms a sizeable bushy mound of grey-green foliage, with narrow spikes of light mauve-purple flowers. Choose a location with excellent drainage. Plants should be clipped back by half in spring. The narrow spikes and strong stems make this a good choice for weaving Lavender wands. Particularly attractive growing beside other Lavender selections with deeper coloured blooms.</i>						
	Lilac	Silver grey	June-Sept.	24"	24"	-	-
✂ Sensational	<i>Boasting the largest purple flowers of this hybrid group with bright silver foliage.</i>						
	Purple	Silver grey	June-Sept.	36"	24"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
LEPTINELLA (Black Brass Button's) ☼☾ Zone 5 Brass Buttons are low, carpeting perennials that are perfect for planting along the edge of pathways, or using in between flagstones. Because of its spreading tendency, keep this away from slow-growing alpine plants that might get smothered. Easy to grow in any soil that does not completely dry out. Easily divided by digging up the clump and ripping into smaller pieces in spring or early fall. Evergreen. Suitable for high traffic areas for grass replacement.							
Platt's Black	Feathery foliage of an unusual bronzy-black shade, bearing insignificant green flowers during the summer.						
	Green	Purple	July	2"	10"	-	
LEUCANTHEMUM (Shasta Daisy) ☼☾ Zone 5 A standard for the garden. The classic summer daisy. Blooms can be single or double and bloom on long stems suitable for cutting. May require staking if grown in rich soil. Thrive on full sun but can do well in partial shade. Attractive to butterflies.							
✂ Alaska	Praised for its consistently healthy disposition, heavy production of large 5" flowers and robust habit.						
	White	Green	July-August	36"	24"	-	-
✂ Becky	Perennial Plant of the Year 2003! Durable in hot, humid summers. Large single white blooms on strong stems. No staking required.						
	White	Green	July-August	36"	24"	-	-
✂ Crazy Daisy	No two blooms are alike on this fringed and frilly, semi to fully double variety. 2" wide, solid white flowers with buttery yellow centre. Prolific.						
	White	Green	July-August	24-28"	24"	-	-
✂ Freak	Large white flowers bloom are evenly all over compact, well-branched plants. Reblooms, providing flowers over a long period. Dark green, toothy foliage provides excellent contrast. From Blooms of Bressingham.						
	White	Green	July-August	13"	21"	-	-
✂ Madonna	(Formerly <i>Chrysanthemum maximum</i>) Uniform in height and habit, this variety exhibits excellent tolerance to summer heat and humidity. Flowers are the classic, large single white daisies with a yellow eye, valued in the garden and excellent for cutting. May require staking if grown in rich soil. Attractive to butterflies.						
	White	Green	July-August	8-10"	10"	-	-
✂ Snow Cap	This is an especially compact selection, with masses of single white flowers, each with a yellow centre.						
	White	Green	July-Sept	12"	12"	-	-
✂ Spoonful of Sugar	The first thing you'll notice about this cute Shasta Daisy is the enormous flower size. The second thing you'll notice is its incredibly compact, dome-like habit, with flowers produced almost all the way to the ground. 4.5in, creamy white flowers have two rows of very long petals. Flowers are held tight and compact against the attractive, dark green foliage, with a second wave of flowers following the initial wave.						
	White	Green	July-Sept	16"	25"	-	-
✂ Whoops-a-Daisy	Forms an exceptionally dense, rounded ball-shaped mound of dark green foliage that becomes completely blanketed in large 3-4", white flowers with gold centers from early through midsummer. It has better flower coverage and a more uniform habit compared to 'Snowcap', and the individual flowers have a fuller, fluffier appearance.						
	White	Green	July-Sept	15"	22"	-	-
LEUCANTHEMUM (Shasta Daisy) Proven Winner varieties ☼☾ Zone 5 Sold in PW pot. A standard for the garden. The classic summer daisy. Blooms can be single or double and bloom on long stems suitable for cutting. May require staking if grown in rich soil. Thrive on full sun but can do well in partial shade. Attractive to butterflies.							
✂ Banana Cream II	Flower buds are lemon yellow and eventually brighten to creamy white. Improvements include being more floriferous, holding the yellow color longer, a more appealing habit, and earlier to start flowering.						
	Yellow	Green	July-August	15-18"	18-24"	-	-
✂ Daisy May	This is a super compact, highly floriferous selection. 3" wide, single, pure white, daisy-like flowers with a gold button center formed a solid dome of bloom atop these plants. Will bloom from spring to fall with deadbeading.						
	White	Green	June-Sept	20"	14"	-	-
✂ Marshmallow	Large, 3 1/2" fully double, bright white flowers absolutely cover the medium-sized habit.						
	White	Green	July-August	18"	20"	-	-
LEWISIA ☼☾ Zone 4 Evergreen rosettes adorned with small, round-petaled blossoms in summer. Native to the alpine regions, it requires perfect drainage and full sun. An excellent plant in crevices of rock gardens and retaining walls.							
Little Peach	Soft peach flowers blended with pinks and orange. Heavy flower production on compact, upright stems.						
	Pink-orange	Green	May-Sept.	6"	10"	-	-
Little Plum	They form low, fleshy rosettes of tough evergreen leaves, bearing large star-shaped flowers in late spring and early summer. This selection features flowers of cotton-candy pink, touched with salmon when they first open.						
	Pink	Green	May-Sept.	6"	10"	-	-
Rainbow Mix	Mixture of many colours and forms from round flowers to semi-double and from white and yellow to pink, red-orange to blue-red.						
	Assorted	Green	May-Sept.	6-9"	10"	-	-
LIATRIS (Blazing Star, Gayfeather) ☼ Zone 3 The flower spikes of liatris are unique in blooming from the top down. They are prized cut flowers. The tall stems have narrow leaves. Excellent choice for a border or informal garden in full sun and moist soil. Adds a strong vertical element to the garden.							
✂ Floristan White	Multiple wands of creamy-white flowers.						
	Cream-white	Green	July-Sept.	36-48"	12"	-	-
✂ Kobold	Long lasting spikes of rosy lavender flowers.						
	Rose-lavender	Green	July-Sept	18-24"	12"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
LIGULARIA (Ragwort) ☼☾ Zone 3-4 <i>Ligularia has bold foliage and vivid flowers either as clustered daisies or in spikes. Perfect in shade or partial shade, does well at the back of the border on in a woodland garden with regularly moist soil.</i>							
Big Green Tractor	<i>A very large Ligularia perfect for making a dramatic statement in the shade garden. Deep green leaves are massive reaching 16" across at maturity. A serrated margin surrounds each dissected leaf for a standout foliage presence. Golden yellow flowers have long petals. Best performance in morning sun or filtered shade; flowering will be diminished in deep shade.</i>						
	Yellow	Green	July-Sept.	42"	36"		-
Britt-Marie Crawford	<i>Deep, dark, glossy bronze leaves and burgundy stems. The foliage colour is best in morning sun. Golden, daisy-like flowers.</i>						
	Yellow	Bronze	July-Sept.	20"(36")	30"		-
Little Rocket	<i>Compact selection has large, jagged-edged green leaves. Purplish black stems bear long spikes of bright-yellow daisy flowers in summer. Especially suited to smaller gardens.</i>						
	Yellow	Green	July-Sept.	20"(36")	30"		-
Othello	<i>New leaves emerge beet-red in spring with purple undersides then fade to greenish bronze on top. Orange-yellow flowers on deep purple stems.</i>						
	Orange	Bronze	July-August	35"(48")	36"		-
The Rocket	<i>Forms a clump of large, jagged-edged green leaves. Purplish black stems rise above in summer, bearing long spikes of bright-yellow daisy flowers.</i>						
	Yellow	Green	July-August	48"	48"		-

LILIUM Asiatic (Lily) ☼☾ Zone 2 *Easy, dependable perennials that put on a great show in the early summer border. Lilies are a good choice for tubs or mixed containers. Divide every three years in October, moving to a new location. Remove old stems in late fall to help discourage diseases.*

☼< Golden Matrix	<i>Bright Golden yellow</i>						
	Gold	Green	July	16"	6"		-
☼< Matrix	<i>Dwarf lily with fiery red flowers with deep orange throat. The flowers are large and extremely numerous on one stem</i>						
	Red	Green	July	16"	10"		-
☼< Kiss Lily 'Elodie'	<i>Double pollen free blooms in a soft pink with a few black freckles.</i>						
	Soft pink	Green	July	48"	6"		-
☼< Pavia	<i>Rich yellow up-facing bloom</i>						
	Yellow	Green	July	44"	6"		-

LILIUM Oriental (Lily) ☼☾ Zone 4 *Huge fragrant blooms in late summer. Ideal for focal points in beds, borders and containers.*

☼< Casablanca	<i>Heavenly fragrance, long bloom period in the garden, long life as a cut flower, huge 6-10" blooms, exquisite colouring and form, and exceptional hardiness make this tall lily a winner. Usually needs to be staked, but worth it!</i>						
	White	Green	August	48"	6"		-
☼< Dizzy	<i>White flowers with pink stripes.</i>						
	White/pink	Green	July/August	24"	6"		-
☼< Salmon Star	<i>Salmon colored version of the popular Stargazer Lily. Lush salmon-colored blooms are very fragrant on strong 28" stems.</i>						
	Salmon	Green	August	28"	6"		-
☼< Stargazer	<i>Very fragrant upward facing blooms with crimson centres, light edges and plenty of freckles.</i>						
	Red-pink	Green	August	30"	6"		-

LILIUM Oriental Trumpet (Lily) ☼☾ Zone 4 *Huge fragrant blooms in late summer. Ideal for focal points in beds, borders and containers.*

☼< Rising Moon	<i>A luxurious, soft-hued variety with large, perfectly trumpet-shaped flowers. Primrose-yellow petals have a broad peachy-pink edge. When mature and covered in flowers, Rising Moon makes a dramatic statement with towering 5-6ft stems! These incredible Giant Lilies have large, impressive blooms that will create a garden masterpiece. Like other Orientpets, these lilies are hardy perennials that bulk up over time and get better each year.</i>						
	Yellow/Pink	Green	August	60-72"	6"		-

LILIUM Speciosum (Lily) ☼☾ Zone 4 *This is the last of the Lilies in our list to flower, and to our nose at least, it is also among the most fragrant.*

☼< Black Beauty	<i>Producing a cascade of the famous "black-red" tightly recurved flowers.</i>						
	Black-red	Green	Mid-August	48"	6"		-

LILIUM Tigrinum (Tiger Lily) ☼☾ Zone 4 *Nodding reflexed flowers with black speckles. Use as cut flowers, in borders, or woodland gardens.*

☼< Splendens	<i>Nodding flowers of orange-red speckled with black spots.</i>						
	Orange-red	Green	August	40"	6"		-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
LILIUM Trumpet (Trumpet Lily) ☀️🌱 Zone 3 <i>Huge fragrant outward facing blooms in the shape of a trumpet.</i>							
✂️ Outback	<i>Soft Yellow, 3 to 4 Feet or taller, Mid to Late July Flowering, Fragrant.</i>	Yellow	Green	August	3-4ft	6"	-
✂️ Purple Prince	<i>This rare variety features the astonishing height, floriferous habit and reliable growth found in Lily Trees, but it has something more – a breathtaking colour! Big, beautiful, trumpet-shaped blooms of the most unusual purple lavender hue are accented by a bright green throat for extra eye-popping appeal</i>	Purple	Green	August	3-8"	6"	-
✂️ Regale	<i>A white fragrant lily with a yellow throat and pink reverses to the petals.</i>	White	Green	August	40"	6"	-
LIRIOPE (Lily-turf) ☀️🌱 Zone 4-5 <i>Evergreen grass-like plant used in beds or as a groundcover. Tolerates dry shade.</i>							
Big Blue	<i>Evergreen grass-like plant with dark green strappy leaves and a vase-like habit. Delightful lilac-purple flowers resembling grape hyacinths are displays above the foliage.</i>	Lilac-purple	Green	August	12-18"	12"	-
LITHODORA ☀️ Zone 5 <i>Low growing evergreen, it thrives in sun. Blooms with a profuse cover of blossoms. Excellent in rock gardens and beds.</i>							
Grace Ward	<i>Narrow-leaved foliage with a slightly mounded habit. Brilliant blue flowers are beyond compare.</i>	Brilliant blue	Green	June-July	6-12"	18"	-
Tidepool Skyblue	<i>A low-spreading evergreen perennial with intense sky-blue flowers that resemble tiny forget-me-nots. These charming blooms appear in late spring to early summer and contrast beautifully with the dark green foliage.</i>	Skyblue	Green	June-July	6-12"	18"	-
LOBELIA (Cardinal flower) ☀️🌱 Zone 6 <i>Upright spikes of large flowers, not at all like the more familiar trailing types grown in hanging baskets. They are good plants for the boggy garden, adapting well to 'wet feet', but growing equally well under average conditions. Excellent for using as a specimen or massing in the border, containers or tubs. Nice for cutting. Attractive to both butterflies and hummingbirds.</i>							
✂️ Cardinalis	<i>Forms an upright mound of green foliage, bearing taller spikes of scarlet-red flowers in mid to late summer. Attractive to both hummingbirds and butterflies. Not usually long lived but will sometimes self-seed where happy</i>	Red	Green	August-Sept	35"	12"	-
✂️ Queen Victoria	<i>Beautiful beet-red foliage, with contrasting scarlet-orange flowers from midsummer on.</i>	Red	Purple-red	August-Sept	30"	12"	-
✂️ Siphilitia	<i>Native species bears beads of dark blue to white flowers through late summer and fall, over dark-green leaves. Plants will usually self-sow, and the seedlings are easily moved while still small.</i>	Blue	Green	August-Sept	30"	12"	-
LUPINUS (Lupine) ☀️🌱 Zone 4 <i>The tall spires of Lupines are an unforgettable sight in the early summer border. Plants grow best in a deep, rich soil, slightly on the acidic side. As these are biennial or short-lived perennials, allow some plants to set seed for future generations. Trim foliage back after flowers are finished.</i>							
Gallery Series	<i>Compact strong reliable variety.</i>						
Blue	Purple-blue	Green	June	24"	14"	-	-
Pink	Rose-pink	Green	June	24"	14"	-	-
Red	Scarlet-red	Green	June	24"	14"	-	-
Yellow	Golden Yellow	Green	June	24"	14"	-	-
Mix	Assorted	Green	June	24"	14"	-	-
Russel Mix	<i>Produces white, pink, yellow, red, and deep blue flowers</i>						
	Assorted	Green	June-July	29-39"	12-18"	-	-
West Country Series	<i>A mass of sturdy upright flower spikes that reach up 24-36". These spikes reveal periwinkle blue and white flowers.</i>						
Blacksmith	Dk Purple/White	Green	June-July	31-33"	24"	-	-
Manhattan Lights	Purple/Soft Yellow	Green	June-July	31-33"	24"	-	-
Masterpiece	Purple/Orange	Green	June-July	31-33"	24"	-	-
Persian Slipper	Lavender	Green	June-July	31-33"	24"	-	-
Rachel de Thame	Rose/White	Green	June-July	31-33"	24"	-	-
Red Rum	Red/White	Green	June-July	31-33"	24"	-	-
Tequila Flame	Orange/Yellow	Green	June-July	31-33"	24"	-	-
LYCHNIS (Maltese Cross) ☀️🌱 Zone 3-4 <i>This is a rugged and easy perennial for any sunny border. Excellent for cutting. In rich soils this may need to be staked to prevent flopping. Reliable and long lived. Clumps may be easily divided in spring or fall. Flowers are attractive to butterflies.</i>							
✂️ Chalcedonica	<i>Plants form an upright clump of bright green leaves, with taller stems in summer that bear large clusters of scarlet-orange flowers.</i>						
	Scarlet-orange	Green	June-August	36"	18"	-	-
✂️ Coronaria	<i>Plants form a low mound of felted silvery-grey leaves, bearing upright stems in summer with loads of bright magenta-pink to red flowers.</i>						
	Pink	Green	June-August	25-32"	18"	-	-

BROWNRIDGE greenhouses & nursery ltd.

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
LYSIMACHIA ☀️🌿 Zone 4 <i>This genus includes upright forms, as well as low, groundcover types. All prefer regularly moist soil or damp gardens in full sun or partial shade. The creeping varieties are used in hanging baskets as well as in beds.</i>							
Ciliata Firecracker (Fringed Loosetrife)	<i>Masses of beautiful yellow flowers along the stems from early to mid summer, which are most effective when planted in groupings. The flowers are excellent for cutting. Its attractive pointy leaves emerge burgundy in spring, turning dark green in colour with distinctive deep purple edges throughout the season. The deep purple stems are very colorful and add to the overall interest of the plant.</i>						
	Yellow	Bronze	June	30"	30"	-	-
Clethroides (Gooseneck Loosetrife)	<i>Unique spikes of white flowers that are bent like a goose's neck, appearing in late summer.</i>						
	White	Green	June	25"	25"	-	-
Nummularia 'Aurea' Golden Creeping Jenny	<i>Yellow flowers and foliage that is glowing chartreuse, almost gold. Needs some sun to retain its golden glow.</i>						
	Yellow	Chartreuse	June	3"	18"	-	-
Nummularia Creeping Jenny	<i>Long stems of small rounded leaves form a thick, carpet. Bright yellow flowers contrast nicely with the green foliage.</i>						
	Yellow	Green	June	3"	18"	-	-
Punctata 'Alexander' (Variegated Loosetrife)	<i>Lime green leaves with wide, ivory margins. New growth is flushed pink in spring, then lightens by summer. Bright yellow, star-like flowers.</i>						
	Yellow	Green/ivory	June-July	24"	24"	-	-
MALVA sylvestris (Hollyhock Mallow) ☀️🌿 Zone 4 <i>A lovely addition to any perennial border. Heat and drought tolerant</i>							
Zebrina	<i>Soft pink flowers with striking, raspberry-purple markings like a pinwheel.</i>						
	Lavender	Green	July-Sept.	24-36"	18"	-	-
MAZUS ☀️🌿 Zone 5 <i>A lovely ground cover, creeping among flagstones, pathways or rock gardens. A steppable plant.</i>							
Reptans 'Purple'	<i>It forms a dense mat of foliage that stays green throughout spring and summer, and well into fall. In the summer, it is dotted with tiny blue flowers.</i>						
	Purple-blue	Green	June	3"	36"	-	-
MONARDA didyma (Bee Balm) ☀️🌿 Zone 4 <i>Bee Balm is a traditional favourite for the perennial border, with a striking display of richly-coloured flowers through the summer months. Foliage is delightfully fragrant. Powdery mildew may be a problem in summer. A favourite of both butterflies and hummingbirds. Bee Balm spreads quickly; reduce clump size in early spring. Garden selections all have been bred from native North American wildflower species. Good heat tolerance. Flowers are edible.</i>							
Fire Marshall	<i>Features oversized shaggy heads in red with pink undertones. Foliage is delightfully fragrant, and significantly more resistant to powdery mildew than most older varieties.</i>						
	Red	Green	July-August	30"	40"	-	-
Fireball	<i>Very compact plant with loads of bright scarlet red blooms</i>						
	Scarlet-red	Green	July-August	15-18"	14"	-	-
Grand Marshall	<i>Produces a profusion of brilliant fuchsia-purple flowers atop mid-sized, upright plants from mid through late summer. This cultivar exhibits very good mildew resistance.</i>						
	Fuchsia	Green	July-August	16-18"	20-23"	-	-
Grand Parade	<i>Large shaggy, lavender-purple flowers. Foliage is fragrant and more resistance to powdery mildew than other varieties.</i>						
	Purple	Green	July-August	16-18"	20-23"	-	-
Jacob Cline	<i>Very frilly red flowers. Considered one of the best red Monarda on the market.</i>						
	Red	Green	July-Sept.	48-60"	14-18"	-	-
Pardon My Series	Proven Winner Variety! Sold in Proven Winner pots. <i>Sets full-size flowers on ultra-compact plants. Measuring 2½ to 3 inches wide, these blooms are magnets for bees, butterflies, and hummingbirds. Mildew tolerance</i>						
Cerise	Cherry Pink	Green	July-August	10-12"	12"	-	-
Lavender	Lavender	Green	July-August	10-12"	12"	-	-
Purple	Lavender-Purple	Green	July-August	10-12"	12"	-	-
Rose	Rose	Green	July-August	10-12"	12"	-	-
Raspberry Wine	<i>Erect stems support uniquely shaped berry red tubular flowers. Large leaves sport wine colored highlights. A carefree strong grower.</i>						
	Raspberry red	Green	July-Sept.	30"	14"	-	-
Sugar Buzz Bubblegum Blast	<i>Forms a solid dome of hot pink, 2-2½" flowers on strong, well-branched stems. The dark green foliage forms an upright clump that will fill out containers nicely but won't run all over the garden.</i>						
	Pink	Green	July-Sept.	24"	32"	-	-
Sugar Buzz Cherry Pops	<i>The members of the SUGAR BUZZ® Series from the Walters Gardens hybridizing program are perfectly suited to the middle of the flower border. All members in this series are similar in size, bloom time, and vigor, making it easy for growers to offer the entire series. In midsummer, they form a solid dome of color with their 2-2½" flowers on strong, well-branched stems. The dark green foliage forms an upright clump with enough vigor to quickly fill out containers nicely but are not aggressive in the garden.</i>						
	Cherry Red	Green	July-August	20"	26"	-	-
Sugar Buzz Grape Gumball	<i>Forms a solid dome of vibrant magenta, 2-2½" flowers on strong, well-branched stems. The dark green foliage forms an upright clump that will fill out containers nicely but won't run all over the garden.</i>						
	Purple	Green	July-August	24"	32"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
MONARDA fistulosa (Bergamot) ☼☾ Zone 3 <i>A clump-forming, mint family member that grows typically to 2-4' tall. Foliage is delightfully fragrant. Powdery mildew may be a problem in summer. A favourite of both butterflies and hummingbirds. Native North American wildflower species. Good heat tolerance. Flowers are edible. Meadow plant.</i>							
fistulosa	Native variety. Lavender	Green	July-August	24-48"	24"	-	-
MYOSOTIS (Forget-Me-Not) ☼● Zone 3 <i>Masses of bright flowers on uniform, compact globe shaped plants. Short-lived perennial. Must have moist soil and prefers a cool location. Will reseed if spent flowers not removed.</i>							
Sylva Bluesylva	Clusters of single, bright blue florets with tiny yellow eye on grey-green foliage mound. Sky blue	Green	May-June	8"	8"	-	-
NEPETA (Catmint) ☼ Zone 4 <i>The many selections of Catmint are well-known workhorses in the perennial garden, providing extended bloom as they knit and weave themselves beautifully through taller companions.</i>							
Cat's Meow	Proven Winner Variety! Sold in Proven Winner pots. <i>Low maintenance selection; naturally keeps its tidy, dense rounded shape all season. Grey-green, aromatic foliage is topped with well-branched stems carrying sky blue flowers with purple calyxes for months.</i>						
	Blue	Grey- green	May-Sept.	17-20"	24"	-	-
Cat's Pajamas	Proven Winner Variety! Sold in Proven Winner pots. <i>Ball-shaped habit carries long, dark flower stems with indigo blue flowers. Compared to 'Cat's Meow', it has a smaller growing habit and blooms 2-3 weeks earlier.</i>						
	Blue	Grey- green	May-Sept.	12-14"	18"	-	-
faassenii Purrsian Blue	<i>In its first year, 'Purrsian Blue' forms a small, perfectly rounded, densely branched clump of tiny, green leaves. In year two, the plant maintains its compact mounding habit but nearly doubles its spread to just over two feet across. This is a very floriferous selection with flowers spaced closely together. Periwinkle blue flowers are coddled by dark purple calyxes just above the aromatic foliage from early summer into early fall.</i>						
	Blue	Grey- green	May-Sept.	14-18"	18-30"	-	-
Junior Walker's	<i>This selection of Catmint is a sterile dwarf of N. 'Walker's Low' and only reaches approximately 40cm (16 inches) tall. It features blue-green leaves that are highly aromatic when crushed or bruised so an excellent addition planted along a garden path. Small pale lavender flowers are densely clustered and bloom from May to September. Shear back the initial flower spikes for continuous bloom.</i>						
	Lavender-blue	Grey- green	May-Sept.	16"	24"	-	-
Walker's Low	Perennial Plant of the Year 2007! <i>Grey-green, aromatic foliage on long, arching stems. Lavender blue flowers are produced over a long period of time.</i>						
	Lavender-blue	Grey- green	June-Oct.	24"	24"	-	-
OENOTHERA Missouriensis (Ozark Sundrop) ☼☾ Zone 3 <i>Native plant. Deer resistant. Excellent bright colour in perennial borders.</i>							
Missouriensis	<i>Canary yellow, mildly fragrant flowers. Dark green lanceolate leaves. Following the blooms, unusual 2-3" long, 4-winged seed pods develop which are beautiful in dried arrangements</i>						
	Canary yellow	Dark green	June-July	9-12"	18"	-	-
ORIGANUM (Ornamental Oregano) ☼ Zone 5 <i>This plant forms a low trailing mounds foliage. Perfect for rock gardens or other areas of excellent drainage.</i>							
Kent Beauty	<i>Draping powdery blue-green foliage with drooping heads of hop-like flowers in a blend of shrimp pink, green, and cream.</i>						
	Pink	Blue-green	June-August	6-8"	12-18"	-	-
PACHYSANDRA (Japanese Spurge) ☼● Zone 5 <i>Japanese Spurge is the most widely planted evergreen groundcover. Excellent under trees and in nearly any other shady site. Tolerates poor soil, but slow to establish and spread. Space closely, at 10 to 40 plants per square yard in order for plants to fill in reasonably quickly.</i>							
Terminalis	<i>Plants form an attractive low patch of shiny dark-green leaves, bearing clusters of white flowers in spring.</i>						
	White	Green	June	6-12"	6"	-	-

BROWNRIDGE greenhouses & nursery ltd.

Phone: (905)878-1948 Toll Free: 1(800) 551-0176 Facsimile: (905) 878-9511 e-mail: info@brownridgegreenhouses.com

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
PAEONIA (Garden Peony) ☼ Zone 3 <i>Garden peonies are classic garden plants that add a bit of nostalgia and charm to the garden. They will form a large clump with large, beautiful blooms in June.</i>							
✂ Bowl of Beauty	<i>A fragrant and neatly formed combination, these Japanese-style peonies have a layer of soft pink petals cupped around the large and bushy pale-yellow center.</i>						
	Single Pink	Green	June-July	32"	24"	-	-
✂ Coral Sunset	<i>A favorite of the breeder, this outstanding peony produces intense sunset coral, semi-double blossoms with rose overtones and a fluffy boss of deep yellow stamens in the center. The lightly fragrant flowers are long lasting in fresh bouquets. 'Coral Sunset' blooms early in the peony season. It is highly prized for its exemplary plant habit.</i>						
	Coral	Green	June	28"	24"	-	-
✂ Duchess de Nemours	<i>Fragrant, white, globe-shaped blooms with green carpels and a yellow centre glow. A prolific bloomer.</i>						
	Double White	Green	June-July	34"	24"	-	-
✂ Festiva Maxima	<i>Noticeably fragrant, fully double, white blooms with red drizzled throughout the centre. Massive, loose flower form.</i>						
	Double white/red	Green	June-July	34"	24"	-	-
✂ Francoise Ortegat	<i>A breathtakingly beautiful variety, deep purple-crimson that dates back to 1850! The large double flowers, often described as semi-roses, have golden stamens for an extra dash of colour. Softly fragrant, strong stems and beautiful foliage.</i>						
	Deep purple	Green	June-July	34"	24"	-	-
✂ Kansas	<i>Large, bright watermelon red flowers which are fully double appear on strong, dark green stems in early summer. The color is sunfast, ensuring top performance, and it contrasts well with the mid-green foliage.</i>						
	Watermelon	Green	June-July	32"	20"	-	-
✂ Karl Rosenfield	<i>Brilliant fuchsia-red blooms are a double, semi-rose type. Mildly fragrant.</i>						
	Double Red	Green	June-July	34"	24"	-	-
✂ Pink Hawaiian Coral	<i>Double flowers in an appealing salmon to coral-pink shade, held on strong stems.</i>						
	Pink	Green	June-July	32"	24"	-	-
✂ Primevere	<i>Incredible double selection feature's ivory outer petals and a sulphur-yellow centre.</i>						
	White/yellow	Green	June-July	34"	24"	-	-
✂ Raspberry Sundae	<i>Lush raspberry and vanilla colored 7" double blooms surrounded by beautiful green foliage.</i>						
	Pale Pink	Green	June-July	34"	24"	-	-
✂ Sarah Bernhard	<i>Gigantic, double, apple blossom-pink flowers. 2004 Dried Cut Flower of the Year!</i>						
	Double Pink	Green	June-July	34"	24"	-	-
✂ Shirley Temple	<i>Highly fragrant, large, double flowers are pale pink when they emerge then lighten to white as they mature. Highly floriferous, vigorous variety.</i>						
	Double Pale pink	Green	June-July	32"	24"	-	-

PAPAVER Orientalis (Oriental Poppy) ☼ Zone 3

Large, stately, Oriental Poppies show off in the garden with incredibly big, dramatic flowers. Black centre contrast with vivid colours. Coarse, hairy foliage grows low, while the flowers stand up and demand attention. A bold statement in the perennial border.

Beauty of Livermore	<i>Deep oxblood-red flowers measuring 4-6" across. One of the finest reds.</i>						
	Deep red	Green	June	24"(30")	24"	-	-
Brilliant	<i>Vivid wildfire red flowers measure 4-5" across.</i>						
	Scarlet red	Green	June	24"(36")	24"	-	-
Patty's Plum	<i>Deep wine purple-red flowers,</i>						
	Wine	Green	June	24"(30")	24"	-	-
Picotee	<i>Friilly white flowers that are black in the centre and edged with pale orange.</i>						
	White/Orange	Green	June	24"(30")	24"	-	-
Princess of Victoria Louise	<i>Pastel salmon blooms with a black eye.</i>						
	Salmon	Green	June	24"(30")	24"	-	-
Prince of Orange	<i>Vibrant orange flowers.</i>						
	Orange	Green	June	24"(30")	24"	-	-
Queen Alexander	<i>Very large, satiny, salmon pink flowers with purplish black center, bloom in early summer on 24-36" stems with fine foliage.</i>						
	Salmon Pink	Green	June	24"(36")	24"	-	-
Royal Wedding	<i>Papery white, flouncy flowers measure 4-6" across.</i>						
	Cream-white	Green	June	24"(30")	24"	-	-
Turkenlouis	<i>This mid-sized selection features fiery scarlet-red flowers with fringed edges.</i>						
	Red	Green	June	24"(30")	24"	-	-

PAPAVER Iceland (Iceland Poppy) ☼ Zone 2

Iceland poppies are between Alpine and Oriental poppies in size but just as rich in colour. Excellent in rockeries and containers.

Champagne Bubbles	<i>Fuzzy, coarse, bluish green foliage. Tissue paper-like flowers in a mix of orange, yellow, salmon, gold, coral and white.</i>						
	Assorted	Blue-green	May-Sept..	12-18"	18"	-	-
Gnome Mix	<i>Lacy, blueish green mounding foliage. Tissue paper-like flowers in a mix of orange, yellow, and white.</i>						
	Assorted	Blue-green	May-Sept.	10-12"	18"	-	-

BROWNRIDGE greenhouses & nursery ltd.

Phone: (905)878-1948/(905) 459-1314 Toll Free: 1(800) 551-0176 Facsimile: (905) 878-9511 e-mail: info@brownridgegreenhouses.com

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
PENSTEMON(Beard-Tongue) ☼ ☾ Zone 3 <i>This is an easy and outstanding perennial. Tolerant of harsh conditions. Clumps may be easily divided in spring or fall. Flowers are attractive to butterflies.</i>							
✂ Blackbeard	<i>Dark eggplant purple foliage, dark purple flower stems and lilac purple flowers. Stays strictly upright all season.</i>						
	Lilac purple	Purple	June-July	30-34"	18"	-	-
✂ digitalis	<i>Features white, two-lipped, tubular flowers (to 1.25" long) borne in panicles atop erect, rigid stems. Flowers bloom mid-spring to early summer.</i>						
	White	Green	June-July	36-48"	18"	-	-
✂ Husker Red	Perennial Plant of the Year 1996! <i>Forms a sturdy mound of leaves, beet-red during the spring and fall, greener in summer. Upright stems of very pale-pink tubular flowers appear during the summer months.</i>						
	Pinkish white	Beet red	June-July	30-34"	18"	-	-
✂ Onyx and Pearls	<i>Named after two polar opposite colors of gemstones, onyx is in reference to its dark foliage and pearls refers to its soft lavender flowers with white interiors. From a distance, the flowers look white. Compared to 'Blackbeard', this is a taller, fuller plant with lighter colored flowers.</i>						
	Light lavender	Purple	June-July	42"	38"	-	-
✂ Red Riding Hood	<i>This hybrid selection forms a low clump of thick, glossy green foliage, with upright spikes appearing in early summer. Flowers are bright red trumpets, attractive in the border, containers and useful for cutting. Long blooming. An excellent low-maintenance perennial, especially for hot, dry sites. Attractive to both butterflies and hummingbirds. The 'Riding Hood' Series of Beard-tongue was bred to provide winter-hardy plants with a longer flowering period and numerous, showy flowers.</i>						
	Red	Dark green	June-July	24-30"	18"	-	-

PEROVSKIA (Russian Sage) ☼ Zone 4 *Perovskia has finely textures, aromatic leaves and tiny flowers on tall spikes that bloom from summer to fall. It is perfect for an informal garden or mixed bed where dry conditions exist.*

Atriplicifolia	Perennial Plant of the Year 1995! <i>Iridescent, violet blue flower spikes with airy, deeply lobed grey-green foliage.</i>						
	Lavender-blue	Grey-green	July-Sept.	36"(48")	36"	-	-
Denim 'n Lace	Proven Winner Variety! Sold in Proven Winner pots. <i>This variety doesn't get too tall, has stronger stems and a more upright habit than most older varieties. Lacy-like, bright sky blue flowers are held on amethyst calyxes. Its calyxes are spaced very close together to give the flowers a very full look. The colorful calyxes make it look like it is still in bloom even when it is past peak.</i>						
	Lavender-blue	Grey-green	July-Sept.	28"	34"	-	-
Little Spire	<i>A shorter variety that is very drought tolerant and whose compact habit make it ideal for smaller gardens.</i>						
	Lavender-blue	Grey-green	July-Sept.	20"(24")	30"	-	-

PERSICARIA (Fleece Flower, Knotweed) ☼ ☾ Zone 5 *Often grown just for foliage interest. Prefers a moist site.*

Bistorta Superba	<i>Plants form a low mound of dense green foliage, bearing upright spikes of bright-pink bottlebrush flowers through the summer months.</i>						
	Pink	Green	July-August	24"	24"	-	-
Microcephala 'Red Dragon'	<i>Pointy heart-shaped leaves are medium green with a silvery V-shaped markings and a bronze centre. Tiny white flowers in late summer.</i>						
	White	Bronze/Green	July-Sept.	23-35"	23-35"	-	-
polymorpha	<i>'Giant Fleece Flower' Forms a big, bushy mound of large green leaves, in mid-summer bursting into bloom with masses of white flowers held in tapering, fluffy spikes. Stays in a nice clump.</i>						
	Cream white	Green	June-Sept.	5-7ft	36"	-	-

PHLOX divaricata (Woodland Phlox) ☾ Zone 4 *This compact, spreading, semi-evergreen woodland phlox is one of the loveliest low-growing varieties. Try it on mass at the edge of a border in partial shade, or among deciduous trees. Hellebores and Ferns make a perfect combination to this Phlox.*

Blue Moon	<i>This impressive little native is just perfect for your woodland garden. Phlox Blue Moon has outstanding larger over-lapping fragrant flowerheads of beautiful rich blue violet. A New England Wildflower Society introduction.</i>						
	Blue	Green	June	12"	16"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
PHLOX paniculata (Tall Garden Phlox) ☼ Zone 4 <i>Spectacular in the summer, Garden Phlox is sometimes known as the backbone of the perennial garden. Sweetly scented flower clusters on stiff upright stems make them a good cut flower. Attracts butterflies.</i>							
✂ Baby Doll Series	<i>If you liked the early bloom time of Fashionably Early Phlox, but just need something shorter, 'Baby Doll' is your answer! At just a foot tall, this perennial is easy to tuck into small spaces in the garden or for use in containers. Flowers form a mass of blooms on top of the dark green foliage. Sheering back nearly to the ground after its done blooming will encourage rebloom.</i>						
Baby Doll Pink	Pink	Green	July-August	12-16"	14"	-	-
✂ Cloudburst	Proven Winner Variety! Sold in Proven Winner pots. <i>A different type of Phlox that combines the rich color of Tall Garden Phlox and the dome-like habits of Cushion Phlox. This variety has dark purple buds open to lavender purple flowers with bright pink eyes that cover a broad, mounding, billowy habit. The pleasantly fragrant flowers cover the plant nearly all the way to the ground starting early summer and continue to bloom all summer long. Excellent disease resistance; with broad, glossy, dark green leaves staying clean all summer long.</i>						
	Purple	Green	July-August	28"	42"	-	-
✂ David	<i>Sparkling white giant flowering clusters. Very fragrant with light green, mildew resistant foliage.</i>						
	White	Green	July-August	36"	20"	-	-
Garden Girls Collection	<i>This collection is picked for its disease resistance, specifically mildew that often plagues Tall Garden Phlox.</i>						
✂ Cover Girl	<i>Lavender purple flowers with a white halo at centers.</i>						
	Lavender	Green	July-August	38"	24"	-	-
✂ Fancy Girl	<i>Soft pink flowers have a dark pink eye surrounded by a white halo. Appears blushing pink from a distance.</i>						
	Pink	Green	July-August	38"	24"	-	-
✂ Glamour Girl	<i>This long-legged beauty stands tall, proudly showing off her large panicles of hot coral pink flowers held on dark purple stems. Even the oldest flowers in her panicles are a beautiful shade of light coral pink. Mildew resistant.</i>						
	Coral Pink	Green	August-Sept	32"	24"	-	-
✂ Material Girl	<i>Fuchsia purple flower panicles are held on sturdy stems</i>						
	Purple	Green	August-Sept	32"	24"	-	-
✂ Uptown Girl	<i>Light pink flowers with a star-shaped dark pink eyes.</i>						
	Pink	Green	July-August	32"	28"	-	-
✂ Laura	<i>Fuchsia-purple flowers with starry, white centres and dark eyes. Fragrant.</i>						
	Purple/white	Green	August-Sept	24-36"	24"	-	-
✂ Nicky	<i>Glowing magenta flowers, the darkest of all tall garden phlox, make this plant a real eye-catcher! They are produced nearly all summer long atop clumps of medium green foliage. This cultivar has demonstrated good mildew resistance in trials</i>						
	Magenta	Green	August-Sept	30"	18"	-	-
✂ Nora Leigh	<i>White flowers with a contrasting pink eye, and boldly variegated leaves, splashed with green and creamy-white.</i>						
	Pink	Green/white	July-August	30"	24"	-	-
✂ Opening Act Pink-a-Dot	Proven Winner Variety! Sold in Proven Winner pots. <i>This hybrid type will extend the color of Phlox by blooming even earlier, starting in early summer. The dark green, glossy foliage is mildew and disease resistant. Near white flowers with a dark pink, central star pattern appear from early summer well into midsummer. The overall look of the flowers is light pink.</i>						
	Pink	Green	July-August	22"	30"	-	-
✂ Opening Act Romance	Proven Winner Variety! Sold in Proven Winner pots. <i>This variety is the pinnacle of refinement, with a low-wide habit that's nearly dome-like, a unique look for Hybrid Phlox. Rich lavender pink flowers have a small white halo at the centers. Blooms 2-3 weeks earlier than Tall Garden Phlox (Phlox paniculata) and is mildew and disease resistant.</i>						
	Lavender	Green	July-August	20"	32"	-	-
✂ Opening Act Ultrpink	Proven Winner Variety! Sold in Proven Winner pots. <i>This hybrid type will extend the color of Phlox by blooming even earlier, starting in early summer. The dark green, glossy foliage is mildew and disease resistant. In early summer, this plant produces fluorescent rose pink flowers.</i>						
	Pink	Green	July-August	22"	32"	-	-
✂ Red Riding Hood	<i>Cherry-red flowers, and wonderful dark bronzy-red leaves.</i>						
	Cherry red	Green	July-August	22"	16-20"	-	-
✂ Starfire	<i>Panicles of deliciously perfumed cherry red blossoms contrast sharply against the deep green foliage</i>						
	Cherry Red	Green	July-August	36"	24"	-	-

PHLOX subulata (Creeping or Moss Phlox) ☼ Zone 3

A very low-growing, groundcover-type species with needle-like foliage that is showiest when planted on slopes, among rocks, towards the front of the border, or along pathways.

Amazing Grace	<i>Pristine white petals with a dash of lipstick red at centre. Flowers mature to pale pink</i>						
	White/Pink	Green	May-June	4-6"	12"	-	-
Candy Stripe	<i>White with pale rose, radiating stripes.</i>						
	Pale rose/white	Green	May-June	4-6"	12"	-	-
Crimson Beauty	<i>Rose red blooms in spring</i>						
	Rose-red	Green	May-June	4-6"	18"	-	-
Drummons Pink	<i>Extra large deep pink blooms</i>						
	Deep pink	Green	May-June	4-6"	18"	-	-
Emerald Blue	<i>Long-time favourite has clean medium blue, star-shaped blossoms virtually cover the foliage with flowers in spring</i>						
	Blue	Green	May-June	6-9"	18"	-	-
Emerald Cushion Blue	<i>Pine needle-like foliage with lavender blue flowers.</i>						
	Lavender-Blue	Green	May-June	4-6"	12-14"	-	-
Emerald Pink	<i>True rich pink, star-shaped blossoms virtually cover the foliage in spring.</i>						
	Pink	Green	May-June	6-9"	18"	-	-

	Cerise	Green	May-June	6-8"	18"	-	-
Snowflake	<i>Pristine white flowers. Dense compact habit.</i>						
	White	Green	May-June	4-6"	18"	-	-
Spring Bling 'Pink Sparkles'	Proven Winner Variety! Sold in Proven Winner pots. <i>Bloom earlier than 'Mountainside' Phlox and have larger flowers and flower coverage. 1 1/2", soft, baby pink flowers with lighter halo centres.</i>						
	Pink	Green	May-June	4-8"	24-28"	-	-
Violet Pinwheels	<i>Masses of fragrant, rich violet-purple flowers with upturned petals over a low spreading mound of dark green foliage.</i>						
	Violet	Green	May-June	4-6"	18"	-	-

PHYSOSTEGIA (Obedient Plant) ☼🌙 Zone 3 *Have funnel-shaped flowers on spikes that are very polite and obedient. If you push the blossom on the stem, it will stay where you move it. It is fun to have up close in a border or bed.*

✂ Crown Rose	<i>Bright spreading perennial with long narrow leaves and spikes of tubular rose pink flowers from mid summer to fall.</i>						
	Rose pink	Green	July-Sept.	30"	30"	-	-
✂ Crown Snow	<i>Long-lasting, abundant snow-white blooms that sparkle against the deep green, toothed foliage.</i>						
	White	Green	July-Sept.	16"	18-24"	-	-
✂ Miss Manners	<i>Upright, bluish clump, bearing spikes of showy white flowers from midsummer through the fall</i>						
	White	Green	July-Sept.	30"	18"	-	-
✂ Pink Manners	<i>Spikes of bluish lavender pink flowers contrast with dark green, glossy foliage. Well-behaved, clumping habit.</i>						
	Blush Pink	Green	July-Sept.	30"	18"	-	-

PLATYCODON (Balloon Flower) ☼🌙 Zone 4 *Grown for its unique flowers that pop open from balloon-like buds. Slow to emerge in spring.*

Astra Blue	<i>Compact mound of green foliage, bearing inflated buds that open into star-shaped single violet blooms.</i>						
	Blue	Green	July-Sept.	12"	12"	-	-
Astra Pink	<i>Very pastel pink blooms.</i>						
	Light Pink	Green	July-Sept.	12"	12"	-	-
Astra White	<i>Pure white flowers</i>						
	White	Green	July-Sept.	12"	12"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
POLEMONIUM (Jacob's Ladder) ☼☾ Zone 4 <i>Fern-like foliage and clusters of flowers in clear, crisp colours make this a handsome charmer for a mixed border of woodland garden. Needs a moist site.</i>							
Bressingham Purple	<i>Violet blue flowers. Green foliage is deep purple in spring and fall.</i>						
	Violet-blue	Green/purple	June-July	24"(30")	18"	-	-
boreale 'Heavenly Habit'	<i>Forms a low, bushy mound of ferny green leaves, bearing loads of violet-blue, starry flowers, each with a white eye.</i>						
	Blue	Green	June-August	10-12"	12-18"	-	-
Gold Feathers	<i>Golden variegated foliage lights up the shade. Produces bluish-purple flowers from late Spring to Summer.</i>						
	Blue	Green/Yellow	May-June	8"(12")	10"	-	-
Stairway to Heaven	<i>Green foliage variegated with a creamy white edge. New growth has a soft rosy pink blush. Bell shaped light blue flowers.</i>						
	Light blue	Green/cream	May-June	12"(15")	18"	-	-
Touch of Class	<i>Forms a low mound of fine lacy foliage; small, green leaves with narrow, bright white edge. Pink buds open to pale blue flowers.</i>						
	Pale blue	Green/white	June-July	14"	18"	-	-

POLYGONATUM (Solomon's Seal) ☼☉ Zone 4 <i>Solomon's Seal prefers a cool position in a shady spot and looks wonderful in a woodland setting among shade-loving ferns. Does not like dry soil. Cut the plant down to the ground in autumn. Lift and divide large colonies in early spring, taking care not to damage the young shoots.</i>							
Giganteum	<i>Graceful, arching 48" stems of large, dark green, oval leaves strung with clusters of green-edged, white flowers that hang like little bells in June.</i>						
	White	Green	June	48"	12"	-	-
Multiform	<i>Graceful, arching stems of large, dark green, oval leaves are enough to earn this plant its place in the garden. In early summer, these are strung with clusters of green-edged, white flowers that hang like little bells. The flowers are followed by small, black fruit.</i>						
	White	Green	June	24"	8"	-	-
Variegated	<i>Arching stems lined with variegated green leaves with white edges. Foliage turns gold in fall. Unbranched stems support dangling white flowers.</i>						
	White	Green/white	June	18-24"	8"	-	-

PRIMULA denticulate (Drumstick Primrose) ☼☉ Zone 4 <i>Globular flower heads atop thin stems. Moist shaded areas required for best performance.</i>							
Ronsdorf Mix	<i>Mix of fuchsia, lilac, and white flowers. Buds form dense, ball-shaped flower clusters. Leaves partially emerged at bloom time.</i>						
	Assorted	Green	April-May	6"(12")	12"	-	-

PRIMULA vulgaris ☼☉ Zone 3 <i>Compact, semi-evergreen perennial with masses of flowers.</i>							
Belarina Series	<i>Their sizable double blossoms in a rainbow of colors bloom profusely throughout the spring season atop the compact, bright green foliage. Sterile flowers result in plants that are particularly long blooming.</i>						
Baltic Blue	Blue	Green	April-May	5-8"	10-12"	-	-
Blue Ripple – PW	Blue/white	Green	April-May	5-8"	10-12"	-	-
Candy Frost	Lavender/White	Green	April-May	5-8"	10-12"	-	-
Carmen	Coral Red	Green	April-May	5-8"	10-12"	-	-
Cream	White/Cream	Green	April-May	5-8"	10-12"	-	-
Goldie	Gold yellow	Green	April-May	5-8"	10-12"	-	-
Lively Lilac	Lavender	Green	April-May	5-8"	10-12"	-	-
Nectarine	Yellow-Apricot	Green	April-May	5-8"	10-12"	-	-
Pink Ice	Blush Pink	Green	April-May	5-8"	10-12"	-	-
Spring Sun	Bright yellow	Green	April-May	5-8"	10-12"	-	-
Valentine	Velvet Red	Green	April-May	5-8"	10-12"	-	-
Oakleaf Series	<i>A little something different for the spring garden with unusually lobed leaves that resemble oak leaves. This cultivar bears large umbels up to 18 inches of single flowers with bright yellow centres in an upright clump that can bloom for months on end.</i>						
Blue	Blue	Green	April-May	18"	14"	-	-
Magenta	Magenta Pink	Green	April-May	18"	14"	-	-
White	White	Green	April-May	18"	14"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
PULMONARIA (Lungwort, Bethlehem Sage) ☼☼ Zone 3 <i>Lungworts are excellent plants for the 7, the wild garden, and as ground covers. They can be used on sloping ground shaded by trees-- a difficult site for growing most other plants.</i>							
Bertram Anderson	<i>Outstanding for mass plantings! Be dazzled by a sea of gentian blue flowers emerging from fuchsia buds in late spring. Like other P. longifolia, 'Bertram Anderson' has long, narrow leaves heavily spotted with silver, and it tends to bloom a couple of weeks later than other species.</i>						
	Blue	Green/silver	May-June	8-10"	18"	-	-
Majeste	<i>Solid silvery-grey leaves with a narrow green margin. Light pink buds pop open to darker, bluish pink.</i>						
	Pink	Green/silver	May-June	8-12"	18"	-	-
Pink-a-Blue	Proven Winner Variety! Sold in Proven Winner pots. <i>Pink flower buds open to medium blue flowers in early spring. Buds and blooms appear at the same time for an alluring two tone effect. Following flowering a robust habit of long green leaves dappled with silver spots will hold interest for the remainder of the growing season. The silver spotted foliage is perfect for brightening up the shade and resistant to both browsing deer and rabbits.</i>						
	Blue	Green/silver	May-June	16-18"	22"	-	-
Raspberry Splash	<i>Clusters of up facing deep raspberry-pink bells, the narrow green leaves are heavily spotted in silver.</i>						
	Pink	Green/silver	May-June	12"	18"	-	-
Sissinghurst White	<i>Clean white flower bells. Extra large silver leaf spots on mounding foliage.</i>						
	White	Green/silver	May-June	12"	18"	-	-
Spot On	Proven Winner Variety! Sold in Proven Winner pots. <i>Flowers open a unique deep salmon pink that matures to a rich blue color. Silver speckling dusts the green leaves. This is one of the first Pulmonaria to have near-orange flower buds. Use the speckled foliage as an accent for other shade plants after its bloom season.</i>						
	Salmon/blue	Green/silver	May-June	14-16"	18"	-	-
Trevi Fountain	<i>Large clusters of cobalt-blue flowers, set over a clump of pointed green leaves, heavily spotted with silver. Mounding habit, good vigour.</i>						
	Blue	Green/silver	May-June	10-12"	18"	-	-
Twinkle Toes	<i>Starting in mid-spring, dainty light periwinkle blue flowers cover a low, mounded habit. After the flowers fade, you can enjoy its dark green leaves that are lightly sprinkled with silver.</i>						
	Blue	Green/silver	May-June	12"	16"	-	-
PULSATILLA (Pasque Flower) ☼☼ Zone 3 <i>Cupped-shaped flowers in early spring are followed by attractive feathery seed heads. The soft lacy foliage emerges with more vigour after the blooms appear.</i>							
Alba (White Bells)	<i>Pure white blooms on hairy stems and ferny foliage</i>						
	White	Green	April-May	9"(12")	12"	-	-
Rubra (Red Bells)	<i>Wine-red, cup-shaped flowers with yellow eyes float above silvery fern-like foliage.</i>						
	Deep Red	Green	April-May	8"(12")	10"	-	-
Violet Bells	<i>Purple flowers with contrasting yellow centres.</i>						
	Purple	Green	April-May	9"(12")	18"	-	-
RATIBIDA (Pinnate Prairie Coneflower) ☼☼ Zone 3 <i>Prairie native</i>							
☒ Pinnata	<i>A slender, hairy-stemmed plant bearing flower heads with drooping, yellow rays surrounding a roundish to ellipsoid, grayish central disk darkening to brown as rays drop off.</i>						
	Yellow	Green	June-Sept.	36"	30"	-	-
RODGERSIA (Rodger's Flower) ☼☼ Zone 3 <i>A beautiful perennial with bronze-tinted, palmate foliage that has a prehistoric look to it. The flowers are large, fluffy panicles on long stems. Tough and long lived, Rodgersia is well suited for planting around a pond, in a moist border or in a woodland garden in full sun or partial shade.</i>							
☒ aesculifolia	<i>Chestnut-leaved Rodgersia, this forms an exotic-looking clump of bold green foliage, supporting an airy plume of creamy-white flowers in mid-summer.</i>						
	White	Green	July	36"	36"	-	-
☒ Pinnata 'Bronze Peacock'	<i>A shiny, bronzy beauty! The darkest foliage of any Rodgersia. The leaves are thick, glossy, indented and make a great sculptural addition to your woodland garden. Pink flowers emerge in late spring above the mound. In spring, the huge bronze leaves emerge like a peacock's tail! Zone 5.</i>						
	Pink	Bronze	July	22"(50")	28"	-	-

BROWNRIDGE greenhouses & nursery ltd.

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
RUDBECKIA fulgida (Black-eyed Susan) ☼ Zone 4 <i>Easy to grow Rudbeckia is an excellent choice for colour in summer and into fall. With bright, daisy flowers and interesting seed heads, it makes a great cut flower for fresh or dried arrangements.</i>							
✂ Goldquelle	<i>Forms an upright mound of bright-green leaves, bearing fluffy chrome-yellow double daisy flowers from mid-summer on. Although usually self-supporting, this may require staking in especially rich garden soils.</i>						
	Double yellow	Green	August-Sept.	40"	24"	-	-
✂ Goldstrum	Perennial Plant of the Year 1999! <i>Golden yellow flowers with a distinctive cone centre.</i>						
	Golden yellow	Green	July-Sept.	24"(30")	24"	-	-
✂ Herbstonne	<i>A must for back of border tall growing woody stems carries masses of attractive glossy green leaves crowned with large yellow flowers each with a conspicuous green central cone.</i>						
	Yellow	Green	August-Sept.	60"	24"	-	-
✂ Little Goldstar	<i>It is much more proportional and compact, than Goldstrum standing just knee-high. It offers more blooms on a tighter habit and is excellent for containers as well as the sunny border. Loads of yellow daisy-like flowers surrounding a prominent brown cone that in winter, provide a healthy snack for birds.</i>						
	Yellow	Green	August-Sept.	15"	15"	-	-
RUBECKIA hirta (Black-eyed Susan) ☼ Zone 5 <i>Biennials or short-lived perennials best used as additions to borders. Typically have daisy flowers with a chocolate central cone. Long flowering. Excellent cut flowers. Also available in 10in summer product.</i>							
✂ Autumn Colours	<i>Large daisy flowers in a mixture of bronzes and yellows.</i>						
	Yellow/bronze	Green	July-Sept	18"(24")	15"	-	-
✂ Cherry Brandy	<i>Large Maroon red daisy with a black eye</i>						
	Maroon Red	Green	July-Sept.	24"(30")	15"	-	-
✂ Indian Summer	<i>Huge, single, bright yellow daisy flowers with chocolate eye.</i>						
	Golden yellow	Green	July-Sept.	36"(42")	15"	-	-
✂ Praire Sun	<i>Huge, single, bright yellow daisy flowers with green eye.</i>						
	Golden yellow	Green	July-Sept.	36"(42")	15"	-	-
RUBECKIA triloba (Brown-eyed Susan) ☼ Zone 4 <i>Thin-leaved coneflower or three-leaved coneflower, is a species of flowering plant in the family Asteraceae with numerous, yellow, daisy-like flowers. It is native to the central and eastern United States and is often seen in old fields or along roads.</i>							
✂ Triloba	<i>A bushy biennial or short lived perennial wildflower. Leaves are toothed and pubescent with three lobes. From mid-summer until autumn plants are crowned with a profusion of dainty daisies. Individual flowers are 1-2" across with dark brown centers and bright yellow rays. Plants thrive in sunny sites with moist or dry soil.</i>						
	Yellow	Green	August-Sept.	36-42"	18"	-	-
SAGINA(Moss) ☼ Zone 4 <i>Dense, mounded foliage that can form a soft mossy carpet. It makes a nice ground cover in small areas and can be planted between pavers. A steppable plant. Also available in bulk cell packs.</i>							
Subulata 'Aurea'	<i>Yellow green foliage</i>						
Scotch Moss	White	Golden	May-June	1-3"	18"	-	-
Subulata Irish Moss	<i>Dark green foliage</i>						
	White	Green	May-June	1-3"	18"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
SAPONARIA (Rock Soapwort) ☼ Zone 3 <i>Forms a nice patch of semi-evergreen foliage that works well as a filler between stones on a path, in the crevices of walls, or in rock gardens. It is called soapwort because crushing the leaves with water will form a lather that was once used as soap. Thrives in full sun.</i>							
Ocymoides	<i>Thick, oval, dark green leaves covered with single pink flowers. Rapidly growing ground cover.</i>						
	Pink	Green	June	8"	18"	-	-
SAXIFRAGA (Mossy Rockfoil) ☾ Zone 5 <i>A good choice for the partially shaded scree garden, wall or alpine trough. It forms a low evergreen cushion or mound of bright green leaves, bearing short stems of upfacing, cup-shaped flowers in spring. Requires a cool, moist location. Dislikes drought and hot humid summer weather.</i>							
Touran Deep Red	Red	Green	May-June	6"(9")	12"	-	-
Touran Pink	Pink	Green	May-June	6"(9")	12"	-	-
SCABIOSA (Pincushion Flower) ☼ Zone 4 <i>Excellent for the front to mid border. Good cut flowers. Attracts bees and butterflies. Drought tolerate once established. Benefits from deadbeading.</i>							
✂ Butterfly Blue	<i>Lavender blue, pincushion-like flowers hover over a short mound of ferny basal foliage all summer long.</i>						
	Lavender-blue	Green	June-Sept.	8"(18")	18"	-	-
SEDUM (Creeping Stonecrop) ☼ Zone 4 <i>The creeping Sedums come in a large range of foliage colours and textures. Easy to grow, they prefer full sun and drier soil conditions. These low-growing succulents are a good choice for green roofs, rock gardens or containers. As a ground cover, they can be mixed and matched for a tapestry effect that will catch the eye.</i>							
Acre	<i>Bright yellow, star-shaped flowers cover a trailing mat of pale green, fleshy leaves with golden tips. Evergreen.</i>						
	Yellow	Green	June-July	3"	15"	-	-
Acre 'Octoberfest'	<i>Green leaves, smothered by star-shaped creamy-white flowers in summer.</i>						
	Cream-white	Green	June-July	3"	15"	-	-
album 'Coral Carpet'	<i>Low carpet of small, rounded green leaves that are clustered together like little beads, taking on rich red tones in summer and winter. White star flowers in summer.</i>						
	White	Green/Red	June-July	3"	12-23"	-	-
Dasyphyllum 'Major'	<i>Carpet of tiny round powdery blue-grey leaves, remaining evergreen in mild regions. Clusters of white star flowers appear in early summer.</i>						
	White	Blue-grey	June-July	4-6"	18"	-	-
Divergens	<i>Species native to North America and is fast growing. Forms low carpet of fleshy, rounded green leaves, spreading to form a thick patch. Clusters of bright yellow star-shaped flowers appear in summer.</i>						
	Yellow	Green	June-July	4-6"	12-23"	-	-
Hakonense 'Chocolate Ball'	<i>Short, spreading, very unique chocolate-red foliage with bright yellow blooms.</i>						
	Yellow	Brown-red	June-August	3-6"	12"	-	-
Hispanicum 'Blue Carpet'	<i>Diminutive and mat forming, with tiny, silvery grey foliage. Pink to white flowers. Evergreen.</i>						
	Pink-white	Silvery-grey	June-July	1-3"	18"	-	-
Kamtschaticum 'Variegatum'	<i>Yellow blooms turn crimson, making a pretty contrast to the cream-edged foliage.</i>						
	Yellow orange	Green/cream	August-Sept.	6-9"	18"	-	-
Kamtschaticum	<i>Yellow-orange flowers on scalloped, dark green foliage.</i>						
	Yellow-orange	green	July	6"	18"	-	-
Kamtschaticum 'Weihenstephaner Gold'	<i>A low carpet of small, scalloped green leaves, spreading to form a dense patch. Clusters of golden-yellow star flowers. Red foliage in fall</i>						
	Golden-yellow	Green	June-July	3-5"	18"	-	-
Lidakense	<i>Forms a low, non-spreading clump of rounded, blue-green leaves, flushed with purple. Glistening pink star flowers appear in late summer, clustered at the ends of each stem</i>						
	Pink	Blue Green	August-Sept	2-4"	8-12"	-	-
Lineare 'Variegatum'	<i>Low, scrambling sedum of muted soft green with a subtle creamy white stripe along the outside of the smooth, tiny, linear leaves.</i>						
	Yellow	Green/cream	July	4-6"	18"	-	-
Little Miss Sunshine	<i>Prized for its incredibly dark green, glossy foliage, compact size, and tidiness in the landscape. From early to midsummer, tiny clusters of yellow flowers cover the polished habit.</i>						
	Yellow	Green	July	6-8"	18"	-	-
Rhodiola Pachyclados	<i>Rosettes of grey-green leaves trap and hold water droplets in a charming way. Sprays of tiny white to soft-pink flowers appear in summer.</i>						
	White	Green	July	4"	8-12"	-	-
Rupestre 'Angelina'	<i>Forms a trailing mat of succulent golden-yellow leaves. Clusters of yellow starry flowers.</i>						
	Yellow	Golden-yellow	July-August	4-6"	18"	-	-
Rupestre 'Reflexum'	<i>Mat forming with tiny, spiny, bluish green foliage. Bright yellow flowers. Evergreen.</i>						
	Yellow	Blue-green	June-August	3-6"	12"	-	-
Sexangulare	<i>Very similar in appearance to Sedum acre, but a much tougher plant. A low carpet of tiny spiralling green leaves, spreading to form a thick patch. Tiny yellow star flowers. Performs equally well in sun or shade.</i>						
	Yellow	Green	June	3"	10"	-	-
Sieboldii	<i>A low mound of succulent silver-blue leaves with a pencil line edging of pink. Clusters of bright-pink star shaped blooms appear in fall.</i>						
	Pink	Silver-blue	Sept-Oct.	6-8"	12-18"	-	-
Sieboldii 'Mediovariegatum'	<i>Powdery-blue leaves with contrasting creamy yellow centres. In late spring, starry soft-pink flowers appear at the end of the stems</i>						
	Pink	Blue/Yellow	Sept-Oct.	6-8"	12-18"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
SEDUM upright (Autumn Stonecrop) ☼ Zone 4 Tall, upright sedums form substantial clumps of foliage which can be substituted for shrubs in the landscape. Their stout, sturdy stems support the massive flower heads which develop in summer and burst into bloom in fall. If left standing, they provide winter interest and food for birds.							
Autumn Charm	<i>This variegated sport of top-seller 'Autumn Joy', discovered by Intrinsic Perennial Gardens, is very stable and incredibly showy. The grey-green leaves have butter yellow, serrated edges and form an upright clump just like its parent. In August, panicles of cream buds top the entire clump, then open to light pink flowers in September, followed by russet red seed heads in October.</i>						
	Pink	Green/yellow	Sept.-Oct.	24-30"	24"	-	-
Autumn Delight	<i>This showy variety of upright sedum has chartreuse-yellow leaves with a narrow, blue-green, serrated margin. The leaves are presented on thick, upright stems. In late summer, cream buds open to large clusters of light pink flowers which almost completely cover the entire clump of foliage. Bronze seed heads extend the plant's interest well into winter.</i>						
	Pink	Chartreuse	Sept.-Oct.	24-30"	24"	-	-
Autumn Fire	<i>Similar to 'Autumn Joy' but selected for it tighter growth habit, thicker foliage and more brightly coloured rosy flower heads</i>						
	Deep rose	Blue-green	Sept.-Oct.	24-30"	24"	-	-
Autumn Joy	<i>One of the most popular perennials. Flowers are deep rose when young, aging to a beautiful bronze. Seed heads remain attractive in winter.</i>						
	Deep rose	Blue-green	Sept.-Oct.	24"	24"	-	-
Dark Magic	<i>This outstanding dwarf selection has multiple crowns of dark pink flower clusters and glossy purple-black leaves.</i>						
	Dark Pink	Purple-Black	Aug-Oct.	10-12"	18-20"	-	-
Dynamite	<i>Very short and dense with deep rose red flowers and dark, dusky foliage. Very large flower heads and stout habit.</i>						
	Rose	Purple-Black	Aug-Oct.	6"	8"	-	-
Frosted Fire	<i>A variegated sport of 'Autumn Fire'. This plant shares the same brightly colored rosy flower heads, tighter growth habit, and thicker foliage as 'Autumn Fire'. Light green leaves with creamy yellow, serrated margins form a dense, upright mound</i>						
	Pink	Cream/green	Sept.-Oct.	15"	18"	-	-
Hot Stuff	<i>A very compact form of stonecrop, one of the shortest varieties on the market; flowers range from hot pink to fuchsia and command attention against the green foliage of the plant.</i>						
	Fuchsia	Blue-green	Sept.-Oct.	12"	18"	-	-
Marina	<i>Produces a low mound of blue-grey, oblong leaves that tint purple in summer. Clusters of rich rose-pink flowers are held on strong, compact stems in late summer. Even the dried seed heads have good winter effect. Good cut flower, also attractive to butterflies.</i>						
	Rose-pink	Blue-Green	Aug-Sept.	10"	22"	-	-
Matrona	<i>Sturdy, upright grower that has grey-green leaves infused with rosy pink and purple stems. Flower clusters are mauve-pink aging to chocolate.</i>						
	Rose	Grey-green	Sept-Oct.	18-24"	20"	-	-
Mr Goodbud	<i>This terrific compact Sedum has blue-green foliage with reddish edges and red tinted stems and is topped with eye catching magenta-purple flowers in late summer. Very unique flower colour.</i>						
	Magenta purple	Green	August-Sept.	18"	18"	-	-
Neon	<i>Upright variety with vivid rosy-magenta pink flowers and light green leaves.</i>						
	Magenta pink	Light green	Sept.-Oct.	18"	15"	-	-
Night Embers	<i>This late season bloomer can be admired for its strictly upright habit of dark black-purple, semi-glossy succulent leaves. Small clusters of light mauve pink flowers are produced on deep red stems, the perfect accent color to the darkly colored foliage.</i>						
	Pink	Black-Purple	Sept.-Oct.	24"	24"	-	-
Night Light	<i>Deep olive-green leaves on dark purples stems that hold clusters of light yellow flowers. Mature flowers have blush tones. Unlike other Sedum that lodge during flowering season, 'Night Light' has stocky stems and holds its dome-like shape late in the season.</i>						
	Yellow	Olive green	Sept.-Oct.	22-26"	30"	-	-
SEMPERVIUM (Hens and Chicks) ☼ Zone 3							
Black	<i>Green centers with dark black, red tips</i>						
	Rose-red	Green -black	August	3-4"	12"	-	-
Cobweb	<i>Named for the fine, white, cobweb-like hairs that criss-cross between the leaves' tips. Each rosette of pointy blue-green leaves grows about 1" wide. Colour may vary per season. Rose-red flowers.</i>						
	Rose-red	Blue-green	August	3-4"	12"	-	-
Killer	<i>Forms rosettes of narrow, succulent leaves that change from nearly black, purple-red with blue-green tips to mottled red and green.</i>						
	Pink	Black-purple-red	August	3-4"	12"	-	-
Pacific Blue Ice	<i>Unique cupped form and produces rounded rosettes. Leaves are icy, blue-green with centres flushed rose, especially in cooler temperatures.</i>						
	Pink	Blue-Green	August	3-4"	12"	-	-
Piloseum	<i>Forms medium to large rosettes of grey-green leaves. This color may vary from season to season. These rosettes have a rounded, semi-loose form.</i>						
	Pink	Green	August	3-4"	12"	-	-
Purple Beauty	<i>Semi-open rosettes of succulent leaves with deep purple tips and green centers. This color may vary from season to season. This variety requires especially sharp drainage.</i>						
	Pink	Purple	August	3-4"	12"	-	-
Red Beauty	<i>Medium sized, fairly open rosettes of grey-green leaves with blood-red tips.</i>						
	Pink	Green/red	August	3-4"	18"	-	-
Ruby Heart	<i>Forms rosettes of sharply pointed silvery blue to blue-green leaves which are flushed rosy red at the base. This colour varies by season, intensifying in cold temperatures.</i>						
	Pink	Blue-green/red	August	3-4"	18"	-	-
Silverine	<i>Forms rosettes of sharply pointed silvery green leaves which are flushed with reddish-purple at the base. This colour may vary from season to season.</i>						
	Dark pink	Green/purple	August	3-4"	12"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
SISYRINCHIUM (Blue-Eyed Grass) ☼🌱 Zone 5 <i>Not really a grass, these are close cousins to the more familiar garden Iris. Great for areas with hot, humid summers. Use as an accent plant along walkways or in rock gardens. Rabbit resistant.</i>							
Lucerne	Bright purple-blue, star-like flowers top the dark green, grass-like foliage of this long blooming perennial.	Purple-blue	Green	June-July	10"	12"	-
STACHYS (Lamb's Ears) ☼🌱 Zone 4 <i>Good ground cover for dry, sunny spots.</i>							
Fuzzy Wuzzy	Leaves are velvety soft, silver and shaped like lamb's ear. Tends to spread more quickly than other varieties. Non-flowering cultivar, it occasionally sends up a flower stalk.	-	Silver-grey	-	6-8"	24"	-
Helene Von Stein	Velvety soft, greenish leaves twice the size of 'Silver Carpet'. Non-flowering cultivar, it occasionally sends up a flower stalk.	-	Silver-grey	-	8-10"	24"	-
STACHYS officinalis ☼🌱 Zone 4 <i>A cousin to the familiar Lamb's-Ears, but not at all similar. This is a clump-forming perennial, forming a low mound of crispy green foliage. Removing faded flowers will encourage more buds to form for weeks on end.</i>							
'Hummelo'	Perennial of the Year 2019! In early summer the upright spikes of tiny, two-lipped, rose-lavender flowers appear in dense spikes atop mostly leafless flowering stems rising well above the foliage.	Purple	Green	June-July	20"	22"	-
STOKESIA (Stokes' Aster) ☼ Zone 5 <i>Blooms are similar to asters but have a leafy bract around the bud. Useful in borders or containers, it requires light, moist, well drained soil.</i>							
✂ Colour Wheel	Starting in July 'Colour Wheel' sends up branched bloom stalks which open almost pure white. As the days progress, the same bloom fades to lavender, then to deeper lavender and finally to purple. During the lavender and purple stages, new white blooms open on the same bloom stalk. The overall effect is as many as five different colors on the same plant	White to purple	green	July-Sept.	18-20"	12"	-
✂ HoneySong Purple	A true royal purple flowers with a hint of red towards the centre that darkens as it ages. The contrasting white stamens and purple-tinged stems add to its appeal. The individual flowers measure 4 inches across and have petals with deeply serrated edges.	Purple	Green	July-Sept.	14"	12"	-
✂ Mary Gregory	Distinctive soft yellow flower over nicely mounding deep green foliage.	Pale yellow	Green	July-Sept.	12-18"	12"	-
✂ Peachie's Pick	Has typical lavender-blue, stokesia-type flowers but they bloom longer and a bit later in the season. Upright habit and attractive green foliage.	Blue	Green	July-Sept.	12-18"	12"	-
TANACETUM (Painted Daisy) ☼ Zone 5 <i>Painted Daisies are old-fashioned perennials that have always been popular as cut flowers. Foliage is bright green and ferny, with upright stems bearing loads of single, yellow-eyed daisies. Remove faded flowers to encourage more buds to form. Plants may be trimmed hard after blooming to rejuvenate the foliage.</i>							
✂ Robinson's Single Mix	2.5", daisy-like flowers with bright yellow centres. Ferny, green foliage much like yarrow.	Mix	Green	June-July	25"	18"	-
✂ Robinson's Red Crimson	2.5", daisy-like flowers with bright yellow centres. Ferny, green foliage much like yarrow.	Crimson	Green	June-July	25"	18"	-
THALICTRUM (Meadow Rue) 🌱🌱 Zone 4 <i>With attractive leaves and delicate flowers, Thalictrum is perfect for the back of the border or woodland garden. The foliage resembles a tall Columbine and the flowers are small but plentiful, in airy clusters excellent for cutting.</i>							
✂ Black Stocking	Produces rather tall clumps, with near-black stems that bear huge clusters of bright lavender-magenta flowers in midsummer.	Lavender	Green	June-July	36"(60")	20"	-
✂ Hewitts Double	Features cloud-like sprays of double mauve flowers that are outstanding for cutting. Despite the delicate appearance, it is fairly tolerant of warm, humid summers. Plants are tall and narrow in habit, so staking is usually required.	Lavender	Blue-green	June-July	36" (6-8')	30"	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
THYMUS (Creeping Thyme) ☼Zone 4 <i>Creeping thyme take the wonderful aroma of the herb and put it into the ornamental garden. Outstanding used as small groundcovers, tucked around steppingstones, or placed as colour spots in a rock garden. They attract bees while they are covered in their tiny flowers.</i>							
doerfleri 'Doone Valley'	<i>Has dark green foliage, tipped with bright gold in fall and winter. Pleasant lemony fragrance.</i>						
	Purple-pink	Green	July-August	2-4"	18"	-	-
praecox 'Highland Cream'	<i>Pink flowers in summer. Tiny, variegated cream and silver and green leaves. (syn. Hartington Silver)</i>						
	Pink	Cream/green	July-August	1-3"	18"	-	-
praecox 'Coccineus Major' (Red Creeping)	<i>Red blooms; evergreen foliage turns bronzy in fall</i>						
	Red	Green	June-August	1-3"	18"	-	-
Pseudolanuginosis 'Woolly'	<i>Dense mat of grey leaves with pink flowers</i>						
	Pink	Grey	July-August	1-3"	18"	-	-
serpyllum 'Alba'	<i>White flowers over bright green foliage.</i>						
	White	Green	June-August	1-3"	18"	-	-
serpyllum 'Minus'	<i>Rounded, emerald green leaves in dense, spreading mounds.</i>						
	Lavender	Green	June-August	1-3"	12"	-	-
serpyllum 'Purple Carpet'	<i>This flat-growing variety features tiny dark green leaves, smothered by bright mauve-purple flowers in early summer. A strong grower.</i>						
	Purple	Green	June-August	2-4"	12"	-	-
serpyllum 'Pink Chintz'	<i>Flat-growing variety features fragrant fuzzy green leaves, smothered by soft salmon-pink flowers in summer.</i>						
	Pink	Green	June-August	2-4"	12"	-	-
THYMUS (Upright Thyme) ☼Zone 5 <i>Woody, low-growing shrubs, upright thymes are evergreens that bring a wonderful scent to an ornamental garden.</i>							
Golden Lemon	<i>Pale lavender flowers. Leaves are variegated with yellow and have a lemon scent.</i>						
	Lavender	Gold/green	July-August	6-9"	18"	-	-
Silver	<i>Pale lavender flowers. Leaves are variegated with grey and white.</i>						
	Lavender	Grey/white	July-August	6-9"	18"	-	-
TIARELLA (Foam Flower) ☼●Zone 4 <i>Graceful in woodland gardens or along a shady pathway. Palmate leaves come in a range of patterns and colours, but flowers spikes are generally white to pink. After a frost, Tiarella cordifolia picks up a lovely burgundy tinge, adding multiple seasons of interest beyond its spring flowering.</i>							
Candy Striper	<i>Huge, lush leaves with a dark stippled stripe each lobe form neat mounds of foliage. Pink flower buds open to foamy white flowers.</i>						
	White	Brown/green	May-June	10"(14)	10"	-	-
Cutting Edge	<i>Proven Winner Variety! Sold in Proven Winner pots. This woodland perennial has finely dissected green leaves with a dramatic dark burgundy center and a nicely rounded habit. In early spring, creamy bottlebrush-like flowers cover the entire plant. It has a clumping habit, meaning it is well-behaved and won't take over your garden.</i>						
	White	Green/Burg.	May-June	8"	16"	-	-
cordifolia	<i>This species is a native wildflower and a parent to many of the new hybrids. Plants form a spreading mat of scalloped green leaves, turning bronze in colder months and remain evergreen in mild winter regions. Short sprays of airy white flowers appear in early summer. An excellent woodland groundcover, preferring rich, moist soil. Runners are produced in summer and these trail around the plant, rooting to form new plantlets. These can be easily moved in early spring to start a new patch.</i>						
	White	Green	May-June	6-12"	18-24"	-	-
Pink Skyrocket	<i>Deeply-cut green leaves with attractive red veins. Chubby spikes of delicate soft to medium-pink flowers appear in late spring.</i>						
	Pink	Green/brown	May-June	12"	12"	-	-
Running Tapestry	<i>A vigorous running groundcover with red speckled, deeply dissected maple-like foliage, Tiarella cordifolia 'Running Tapestry' produces a plethora of white flower spikes in spring.</i>						
	White	Green/red	May-June	12"	12"	-	-
Spring Symphony	<i>A smooth melody of compact foliage with leaves "painted" with black along the mid-rib. Profuse, light pink flowers reach their crescendo in mid-spring.</i>						
	Light Pink	Green/black	May-June	10"	10"	-	-
TRADSCANTIA (Spiderwort) ☼●Zone 3							
Billbary Ice	<i>Triangular snow-white blossoms with a fuzzy splash of lavender in the centre. Blooms up to 8 weeks. Has a more compact growth habit and foliage that stays attractive even in drier conditions.</i>						
	White/lavender	Green	July-August	15"	15"	-	-
Concord Grape	<i>Triangular, concord grape blossoms with sulphur yellow stamens. Has frosted blue-green foliage which remains clean and compact.</i>						
	Purple	Green	July-August	15-18"	15"	-	-
Sweet Kate	<i>Triangular, violet-blue blossoms with sulphur yellow stamens contrast sharply with the brilliant gold foliage. Protect from afternoon sun.</i>						
	Violet-blue	Gold	July-August	12"	12"	-	-
TRICYRTIS (Toad Lily) ●Zone 5 <i>Blooms in later summer with unusual, orchid-like blossoms. The flowers can appear at leaf joints or in terminal clusters, depending on variety, but all have unique blooms. Foliage resembles Solomon's seal, makes a great addition to any woodland garden.</i>							
Samurai	<i>Starfish-like flowers appear in late summer, pale mauve with purple spotting.</i>						
	Pink	Green	August-Oct	20"	20"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5" pot 18/tray	5.5" pot
TRIFOLIUM (Clover) ☼☾ Zone 4 <i>The attractive foliage of this species is suitable in front of borders, and its low-spreading habit is appreciated for ground cover.</i>							
Atropurpureum	<i>The dark reddish leaves are edged in green and accented with white clover flowers in the summer.</i>						
	White	Red/Green	July	3-6"	18"	-	
TROLLIUS (Globe Flower) ☼☾ Zone 3 <i>An excellent choice for bog gardens or waterside plantings, Trollius can thrive anywhere it can get regular moisture. Clump-forming growth habit. Basal leaves are glossy, toothed, with five lobes up to 7 inches long. Each lobe is divided into toothed segments and are lance-shaped. Stem leaves are smaller and finely divided. Flowers are cup-shaped, 1 to 2 inches across, in a variety of yellows. Looks best when planted in groups.</i>							
✂ Golden Queen	<i>2-3" wide, golden-orange, bowl-shaped flowers on dark green foliage</i>						
	Orange	Green	May-July	24-36"	18-24"	-	-
VERBENA ☼ Zone 3-6							
Homestead Purple Zone 6	<i>Vigorously spreading, deep purple clusters from July to frost. Excellent clean, deep green foliage with a trailing habit. Has been surviving the winter here lately, but it gets a very slow start in the spring.</i>						
	Purple	Green	July-Sept.	10-12"	18"	-	-
VERONICA (Speedwell) ☼☾ Zone 4 <i>Popular for a border or informal garden, Veronica comes in a wide range of flower colours and shapes. Often on spikes, sometimes in clusters, the flowers have the characteristic two stamens that show on the face. A showy plant in borders and beds, low-growing varieties look great in rockeries.</i>							
Peduncularis 'Georgia Blue'	<i>Round, powder blue blossoms; spreading habit. Foliage turns chocolate bronze in cool weather.</i>						
	Blue	Green	May	6(9")	18"	-	-
Red Fox	<i>3-4" long spikes of rose red spikes.</i>						
	Rose-red	Green	June-July	14"	18"	-	-
Spicata 'Royal Candles'	<i>Compact upright habit. Blooms with an abundance of deep violet blue spikes.</i>						
	Violet-blue	Green	June-August	9"(12")	24"	-	-
Sunny Border Blue	Perennial Plant of the Year 1993. <i>Spikes of deep violet-blue flowers, bright green foliage is unusually crinkled and remains fresh looking throughout the season.</i>						
	Violet-blue	Green	July-Sept.	18"(36")	18"	-	-
Waterperry Blue	<i>Sky blue flowers. Spreading habit. Shiny green foliage turns bronze in the winter</i>						
	Sky blue	Green	June	3"(6")	18"	-	-
Whitewater	<i>Dainty, pure white flowers dot this dense groundcover from early spring to midsummer. Glossy, dark green foliage turns burgundy to bronze in fall.</i>						
	White	Green	June	3"	18"	-	-
VERONICA Proven Winner varieties ☼☾ Zone 4 Proven Winner Varieties. Sold in PW pots.							
Magic Show 'Ever After'	<i>Similar to 'White Wands' but with a lavender blue flower, among the longest blooming Veronica now available. Flower spikes reach nearly a foot in length, with each spike showing color for many weeks. An excellent season extender! In peak, flowers cover the top two thirds of the plant. The flowers are self-cleaning, resulting in a fresher looking plant in the landscape. Vernalization required for best performance.</i>						
	Lavender	Green	May	14-16	16-20"	-	-
Magic Show 'Pink Potion'	<i>Baby pink flowers that cover the top half of the plant, a great match to 'Wizard of Abbs' in terms of habit and landscape performance. The deep green foliage forms a rounded, low habit that is wider than typical and packed full of flowers.</i>						
	Pink	Green	June-August	14-16"	20"	-	-
Magic Show 'Purple Illusion'	<i>Matches the habit and flower size of 'Wizard of Abbs', but with thick, purple flowers. Dark green leaves form a thick foliar canopy, so the plant has substance even after it has finished blooming. Requires vernalization to bloom.</i>						
	Purple	Green	June-August	22-24"	20"	-	-
Magic Show 'White Wands'	<i>Pure white flower wands are borne prolifically atop the short, dense clump of dark green foliage.</i>						
	White	Green	June-July	16"	16"	-	-
Magic Show 'Wizard of Ahh's'	<i>One of the earliest Veronica to bloom, this plant produces thick spikes of violet blue flowers that cover the top half of a low, wide habit. Requires vernalization to bloom.</i>						
	Blue	Green	June-July	14"	18"	-	-
VERONICASTRUM ☼☾ Zone 5. <i>Best used in back of borders, meadow or naturalized gardens.</i>							
Virginicum	<i>Regal plant hovers above the border with long spikes of pale purple flowers mid summer.</i>						
	Purple	Green	August	4-5ft	30"	-	-

PERENNIALS AND GROUND COVER

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	3.5"pot 18/tray	5.5"pot
VINCA MINOR (Creeping Myrtle, Periwinkle) ☀️🌑🌒 Zone 4 <i>A prostrate, creeping perennial with shony blossoms in early spring. It can be used as a ground cover in a woodland garden of a shady area or as an addition to baskets and containers for a trailing accent. Most prefer some shade but will grow in a sunny spot with adequate moisture.</i>							
Alba	<i>Glossy green foliage and clean white flowers</i>						
	White	Glossy green	May-June	4-6"	18"	-	-
Atropurpurea	<i>Glossy green foliage and deep plum flowers</i>						
	Deep plum	Glossy green	May-June	4-6"	18"	-	-
Illumination	<i>Bright golden-yellow leaves edged in green, studded with blue flowers in spring.</i>						
	Blue	Gold/green	May-June	4-6"	18"	-	-
Mrs. Bowles	<i>Similar to the common variety but has better bloom.</i>						
	Blue	Glossy green	May-June	4-6"	18"	-	-
Ralph Shugert	<i>Green foliage edged with white and blue flowers.</i>						
	Blue	Green/white	May-June	4-6"	18"	-	-

VIOLA(Violet) ☀️🌑 Zone 4 <i>Sweet Violas are cousins of Pansies that will bloom all summer and fall. A dainty plant that fits in a mixed container, rock garden or mixed border. Preferring cool weather for best bloom, they will put on a good show spring and fall.</i>							
Etain	<i>Beautiful, with large, creamy yellow flowers accented by lavender purple edges. Slightly fragrant.</i>						
	Yellow/lavender	Green	May-Oct.	6"(12")	12"	-	-
pedate 'Eco Artist Palette'	<i>A selection of the US native Birdfoot Violet, distinct in the Violet world for its bi-color flowers and narrow dissected foliage resembling that of a bird's foot. It forms a dense clump of foliage that is covered in flowers beginning in spring. The superior petals are a dark purple while the lateral and interior petals are a lilac blue. Expect sporadic rebloom until fall frost. Unlike other Violas the Birdfoot Violet requires full sun and well drained soils to thrive. This species also has improved garden performance compared with the genus and is considerably less "needy."</i>						
		Green	May-Oct.	6"(12")	12"	-	-

WILDFLOWERS

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	4" POT 15/tray	5.5" pot
ARISAEMA (Jack-in-the-Pulit) ☺●● Zone 3							
Triphyllum	<i>One to two large, glossy leaves, divided into three leaflets, rise on their own stems 1-3 ft. The intriguing blossom of this woodland perennial occurs on a separate stalk at the same height as the leaves. It is a large, cylindrical, hooded flower, green in color with brown stripes. Distinctive Jack-in-the-pulit formation grows beneath large leaves. In late summer, a cluster of bright red berries appears.</i>						
	Green/brown	Green	May-June	16"	8"	-	-
ASARUM (Wild Ginger) ☺●● Zone 4							
Canadensis (Little Brown Jug)	<i>A native plant that features two smooth, broad spade-shaped, dark green, basal leaves. Cup-shaped, insignificant, purplish brown flowers give the plant its nickname, "Little Brown Jug", and appear in spring on short, ground-level stems.</i>						
	Purplish brown	Green	May	6-12"	12"	-	-
GERANIUM ☺●● Zone 4							
Maculatum	<i>Native to Eastern North America. Green leaves with black ring accent maintains its appearance all season long. Small, light pink flowers</i>						
	Pink	Green	May-June	3-4ft	18"	-	-
HEPATICA ☺●● Zone 4 <i>Grows in dry rocky woods</i>							
Americana	<i>Pale purple, lavender-blue, pink or white flowers. Blooms early spring to June.</i>						
	Light blue	Grey-green	May	20"	12"	-	-
MERTENSIA (Blue Bells) ☺●● Zone 4 <i>Must have rich moist soil. Dormant in summer.</i>							
Virginica	<i>Nodding, trumpet-like 1 inch light blue flowers with five petals. Buds are pink. Leaves are oval, smooth, strongly veined, alternate grey-green.</i>						
	Light blue	Grey-green	May	12"	12"	-	-
PODOPHYLLOM Peltatum (May Apple) ☺●● Zone 3							
Peltatum	<i>White flower May.</i>						
	White	Green	May	8-18"	8"	-	-
POLGONATUM (Solomon's Seal) ☺●● Zone 3							
Biflorum	<i>The zig-zag arching stalks. Nodding, greenish-white, tubular flowers hang in pairs from the axils of the oval, conspicuously veined leaves. Hanging from the leaf axils on an arching stem are a few (often 2) greenish-white, bell-like flowers. Blue berries follow the flowers.</i>						
	Green-white	Green	May-June	12-36"	12"	-	-
SANGUINARIA (Blood Root) ☺●● Zone 3 <i>The single bloodroot leaf and flower each rise on a separate stem, and at first the leaf completely emwraps the flower bud. The clear, white, many-petaled blossom may open before the leaf has completely unwrapped. Roots and stem with acrid red-orange juice. Moist location.</i>							
Canadensis	<i>Leaves, which are large, round and deeply cleft, eventually reach a height of 12-14 in. On a smooth stalk a solitary white flower, with a golden-orange center, grows beside a lobed basal leaf that often curls around the stalk.</i>						
	White	Green	May	6-14"	12"	-	-
TIARELLA (Foam Flower) ☺●● Zone 3							
Cordifolia	<i>Long, slender stamens give heart-leaf foamflower's spikes of white flowers a frothy appearance. The small, star-shaped flowers occur in compact racemes on 6-12 in. stalks rising above a mound of attractive, lobed leaves.</i>						
	Cream-white	Green	May	6-12"	12"	-	-
TRILLIUM ☺●● Zone 3 <i>The whole plant usually disappears by late summer. Best in a woodland situation with rich, moist acidic soil. Not always easy to establish. Plants resent being disturbed but division every 5 to 8 years is possible. This is best done in late summer after plants become dormant. When happy these may begin to spread by self seeding.</i>							
Erectum (Red)	<i>Forms a low mound of large dark-green leaves. The flowers appear in spring, with narrow maroon-red petals. Blooms often nod shyly, and also have an unpleasant odour. One of the quickest to form a good clump.</i>						
	Maroon red	Dark green	Late May	10-16"	12"	-	-
Grandiflora (White)	<i>The Provincial flower of Ontario, this has larger blooms than nearly any other species of Trillium. Plants form a low mound of dark-green leaves, bearing large wide-open white flowers in spring that often age to pink.</i>						
	White	Green	Late May	8-18"	12"	-	-
Luteum (Yellow Toad)	<i>Three yellow petals stand upright in the midst of three green sepals that can either lay flat or be partially upright like the petals. The upright petals lend it the folk name "goblet trillium.". The three large leaves are mottled.</i>						
	Yellow	Green/grey	Late May	8-18"	12"	-	-
Recurvatum (Purple Prairie)	<i>Flowers deep red to red-purple and the petals point upward. The sepals hang downward. The flower is sessile (stemless) to the whorl of three leaves. Its leaves are mottled with pale grey over the green background.</i>						
	Red-purple	Green/grey	Late May	8-15"	12"	-	-
Sessile (Red Toad)	<i>Has mottled leaves with three leaflets, and deep red flowers with quite long, narrow petals, growing right in the middle of the leaves.</i>						
	Deep red	Green/grey	Late May	8"	10"	-	-

BULK GROUNDCOVERS

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	Size	Price	
EUONYMUS (Wintercreeper) ☼●● Zone 4 <i>Can be used as a shrub or trained as creeping ground cover or to climb.</i>								
Coloratus	<i>Forms a dense carpet of dark green leaves with a course to medium texture. Foliage turns dusky purple during the colder months</i>						(6x6)36	-
	-	Green	-	18"	24"			
FESTUCA ☼ Zone 4 <i>Plants often look best if flowers are sheared off upon drying. Common blue fescue makes a superb color accent and grows well in containers. A cool-season grower, it often sulks during hot, humid summers.</i>								
Elijah Blue	<i>Soft powdery blue, spiky foliage forms a rounded clump and keeps its colour all year. A durable and long-lived variety.</i>						(6x6)36	-
	Tan	Blue	July-August	8-10"	10"			
HEDERA HELIX (IVY) ☼☾●● Zone 5 <i>Excellent groundcover, will also climb a wall.</i>								
Thorndale	<i>One of the hardiest of the English Ivies. Evergreen.</i>						(6x6)36	-
	-	Green	-	6-8ft+	12"			
PACHYSANDRA (Japanese Spurge) ☾●● Zone 5 <i>Japanese Spurge is the most widely planted evergreen groundcover. Excellent under trees and in nearly any other shady site. Tolerates poor soil, but slow to establish and spread. Space closely, at 10 to 40 plants per square yard in order for plants to fill in reasonably quickly.</i>								
Terminalis	<i>Plants form an attractive low patch of shiny dark-green leaves, bearing clusters of white flowers in spring.</i>						(6x6)36	-
	White	Green	June	6-12"	6"			
SAGINA (Moss) ☼ Zone 4 <i>Grown for its dense, mounded foliage that can form a soft mossy carpet. It makes a nice ground cover in small areas and can be planted between pavers. A steppable plant.</i>								
Subulata Irish Moss	<i>Dark green foliage</i>	Green	May-June	1-3"	18"	(6x6)36	-	
	White							
Subulata Scotch Moss	<i>Lime yellow foliage</i>	Yellow	May-June	1-3"	18"	(6x6)36	-	
	White							
SEDUM (Creeping Stoncrop) ☼ Zone 4 <i>The creeping Sedums come in a large range of foliage colours and textures. Easy to grow, they prefer full sun and drier soil conditions. These low-growing succulents are a good choice of green roofs, rock gardens of containers. As a ground cover, they can be mixed and matched for a tapestry effect that will catch the eye.</i>								
Acre	<i>Bright yellow, star-shaped flowers cover a trailing mat of pale green, fleshy leaves with golden tips. Evergreen.</i>						(6x6)36	-
	Yellow	Green	June-July	3"	15"			
Dasyphyllum 'Major'	<i>Carpet of tiny round powdery blue-grey leaves, remaining evergreen in mild regions. Clusters of white star flowers appear in early summer.</i>						(6x6)36	-
	White	Blue-grey	June-July	4-6"	18"			
Kamtschaticum 'Weihenstephaner Gold'	<i>A low carpet of small, scalloped green leaves, spreading to form a dense patch. Clusters of golden-yellow star flowers. Red foliage in fall</i>						(6x6)36	-
	Golden-yellow	Green	June-July	3-5"	18"			
Lineare 'Variegatum'	<i>Low, scrambling sedum of muted soft green with a subtle creamy white stripe along the outside of the smooth, tiny, linear leaves.</i>						(6x6)36	-
	Yellow	Green/cream	July	4-6"	18"			
Rhodiola Pachyclados	<i>Rosettes of grey-green leaves trap and hold water droplets in a charming way. Sprays of tiny white to soft-pink flowers appear in summer.</i>						(6x6)36	-
	White	Green	July	4"	8-12"			
Rupestre Angelina	<i>Forms a trailing mat of succulent golden-yellow leaves. Clusters of yellow starry flowers. Tips with red in the fall</i>						(6x6)36	-
	Yellow	Yellow	June-July	2-4"	18"			
Rupestre 'Reflexum'	<i>Mat forming with tiny, spiny, bluish green foliage. Bright yellow flowers. Evergreen.</i>						(6x6)36	-
	Yellow	Blue-green	June-August	3-6"	12"			
spurium 'Dragon's Blood'	<i>Clusters of deep red buds open into brilliant pink, star-shaped flowers. Green foliage with wine red margins turn red in cooler temperatures.</i>						(6x6)36	-
	Red-Pink	Red-green	July-August	3-4"	10"			
Spurium 'Red Carpet'	<i>Similar to Dragon's Blood. A low carpet of small, bronzy green to beet-red leaves, spreading to form a thick patch. Clusters of ruby-red star flowers appear in summer.</i>						(6x6)36	-
	Ruby-red	Bronzy-green	July-August	4-6"	18"			
Spurium 'Tri colour' (Variegatum)	<i>Green leaves with cream and red-edging. Pink flowers.</i>						(6x6)36	-
	Pink	Cream/red	June-August	3-6"	18"			
spurium 'Voodoo'	<i>Spreading mat of deep-red succulent leaves and clusters of tiny rose-pink flowers.</i>						(6x6)36	-
	Deep Pink	Red	June-August	4-6"	12-23"

BULK GROUNDCOVERS

Variety	Flower Colour	Leaf Colour	Bloom Time	Height	Space	Size	Price
SEMPERVIVUM(Hens and Chicks) ☼ Zone 3							
Black	<i>Green centres with dark, black red tips</i>						
	Red-rose	Green/Black	August	3-4"	4-6"	(6x6)36	-
Cobweb	<i>Named for the fine, white, cobweb-like hairs that criss-cross between the leaves' tips. Each rosette of pointy blue-green leaves grows about 1" wide. Colour may vary per season. Rose-red flowers.</i>						
	Rose-red	Blue-green	August	3-4"	12"	(6x6)36	-
Killer	<i>Forms rosettes of narrow, succulent leaves that change from nearly black, purple-red with blue-green tips to mottled red and green, varying with the season.</i>						
	Pink	Black-purple-red	August	3-4"	4-6"	(6x6)36	-
Pacific Blue Ice	<i>Unique cupped form and produces rounded rosettes. Leaves are icy, blue-green with centres flushed rose, especially in cooler temperatures.</i>						
	Pink	Blue-green	August	3-4"	18"	(6x6)36	-
Piloseum	<i>Forms medium to large rosettes of grey-green leaves. This color may vary from season to season. These rosettes have a rounded, semi-loose form.</i>						
	Pink	Green	August	3-4"	12"	(6x6)36	-
Purple Beauty	<i>Medium sized semi-open rosettes of succulent leaves with deep purple tips and green centres</i>						
	Pink	Green/purple	August	3-4"	18"	(6x6)36	-
Red Beauty	<i>Medium sized, fairly open rosettes of grey-green leaves with blood-red tips.</i>						
	Pink	Green/red	August	3-4"	18"	(6x6)36	-
Ruby Heart	<i>Forms rosettes of sharply pointed silvery blue to blue-green leaves which are flushed rosy red at the base. This colour varies by season, intensifying in cold temperatures.</i>						
	Pink	Green/red	August	3-4"	18"	(6x6)36	-
Silverine	<i>Produces sharply pointed, silver-green leaves flushed reddish-purple at the base.</i>						
	Pink	green/purple	August	3-4"	18"	(6x6)36	-

VINCA MINOR (Creeping Myrtle, Periwinkle) ☼☾● Zone 4 *A prostrate, creeping perennial with showy blossoms in early spring. It can be used as a ground cover in a woodland garden of a shady area or as an addition to baskets and containers for a trailing accent. Most prefer some shade but will grow in a sunny spot with adequate moisture.*

Mrs.Bowles	<i>Glossy green foliage and true-blue flowers. Flowers more profusely than minor</i>						
	Blue	Glossy green	May-June	4-6"	18"	(6x6)36	-

BROWNRIDGE greenhouses & nursery ltd.

PERENNIAL ORNAMENTAL GRASS

Variety	Flower Colour	Foliage Colour	Height	Space	3.5"pot 18/tray	5.5in Pot
ACORUS (Variegated Sweet Flag) ☼☾ Zone 4 <i>A lover of damp places, it is excellent for bogs and pond edges. Can be used as a slow growing ground cover. The fan-shaped foliage is showy but the plumes are usually insignificant.</i>						
Calamus 'Ogon'	<i>Forms a low tuft or mound of narrow sword-shaped leaves that are bright glowing golden yellow.</i>					
	Insignificant	Green/yellow	-	12"	12"	-
Calamus 'Variegatus'	<i>Long, wide, strappy leaves stand tall, displaying their striking bright green and creamy yellow variegation. When crushed, they emit a delicious tangerine scent. Will grow in shallow water. Non-invasive.</i>					
	Insignificant	Green/yellow	-	36"	36"	-
ANDROPOGON (Big Blue Stem) ☼☾ Zone 4 <i>Native to the prairies. Makes an excellent tall screening or hedge.</i>						
gerardii	<i>Fine to medium blue-green sod forming (slow spreader)</i>					
	Burgundy-tan	Blue-green	August	6-8ft	36"	-
gerardii 'Blackhawks'	<i>The foliage of 'Blackhawks' emerges deep green to dark purple in spring and deepens to near black by fall here in Michigan. This grass matures a little more than a foot shorter than 'Indian Warrior'.</i>					
	Purple	Purple/green	August	5ft	24"	-
gerardii 'Holy Smoke'	<i>Very erect flower stems rise to 5' over 30" stands of upright/arching foliage. Holy Smoke Turkeyfoot grass stems emerge grey green in the spring, mature to green in the summer to finally turn purplish pink in fall.</i>					
	Purple	Purple/green	August	6ft	24"	-
gerardii 'Raindance'	<i>A long-lived grass that forms a tall, strictly upright clump of red-tipped foliage. The foliage transitions to red in midsummer and turns totally maroon in fall. Deep purple flowers with bright red-orange pollen top this colourful and statuesque display.</i>					
	Purple/orange	Red/green	August	4-6ft	24"	-
BOUTELOUA ☼ Zone 3 <i>Native to the short grass prairies of North America.</i>						
Curtipendula (Sideoats Grass)	<i>Tiny bright purple and orange flower parts lend to its grace and beauty. Small oat-like seeds are on a 3 foot stem. Very attractive.</i>					
	Purple to tan	Green	June-august	2-3ft	12"	-
Gracilis (Blue Gramma Grass)	<i>A low growing, low maintenance grass with blue-green blades and extremely decorative seed heads. Can be mowed and used as a lawn.</i>					
	Burgundy to tan	Blue-green	June-Aug.	12-15"	12"	-
CALAMAGROSTIS acutiflora (Feather Reed Grass) ☼ Zone 5 <i>Upright and often tall, Reed grass makes an architectural statement at the back of a border, as a vertical accent or as a specimen.</i>						
Avalanche	<i>Variegated form of 'Karl Foerster'. Deep Green leaves with a wide, white stripe down the centre. Distinctly upright, clumping habit.</i>					
	Green to tan	Green/white	July	4-5ft	24"	-
Brachytricha	<i>Grass forms an upright and fairly narrow clump of feathery plumes, beginning in early fall. Flower heads start out silvery-pink, fading to more of a creamy-white tone and remaining attractive for most of the winter.</i>					
	Pink to white	Green	August	3ft	18"	-
Eldorado	<i>A gold variegated form of 'Karl Foerster'. Narrow, green leaves with a bright gold mid-rib. Feathery plumes in early summer</i>					
	Green to tan	Green/gold	July	4-5ft	24"	-
Karl Foerster	Perennial of the Year 2001! <i>A clumping, compact, erect habit. Wheat-like seed heads appear in late spring. Does not reseed</i>					
	Green to tan	Green	June	5ft	24"	-
Overdam	<i>Variegated foliage has bright creamy-white margins which turn to white with a pink flush. Strikingly erect, feathery plumes with purplish seed heads turn tan as they age.</i>					
	Purple to tan	Green/white	June	5ft	24"	-
CAREX ☼☾ Zone 5 <i>Carex are not true grass at all, though they certainly look similar. Primarily grown for its foliage. They are warm season plants, they do well in containers and at the edge of borders. Flowers are insignificant panicles of short spikes.</i>						
Blue Sedge	<i>Forms a low, creeping mound of narrow blue-green, grassy looking leaves.</i>					
	-	Blue	-	4-8"	18"	-
Bowles Golden (Gold Sedge)	<i>Bright gold foliage with thin green margins. Needs constant moisture to thrive. Grows well in shallow water or a bed watered regularly.</i>					
	-	Gold/green	-	2-3ft	24"	-
Evergold (Vareigated Japanese Sedge)	<i>Creamy-yellow leaves with deep green margins. Foliage cascades softly to the ground in a fountain-like manner.</i>					
	-	Yellow/green	-	12"	24"	-
Golden Fountains	<i>Soft green and gold, variegated foliage in a fountain shape. Evergreen and clumping.</i>					
	-	Green/gold	-	12-18"	30"	-
Ice Dance (Variegated Sedge)	<i>Dark green leaves with bright white edges. Grows in full sun to full shade.</i>					
	Tan	Green/white	June	12-16"	24"	-
pennsylvanica	<i>North American native. Clumps spread quickly making an excellent groundcover. Soft, gently curled foliage turns pale brown in winter.</i>					
	-	green	-	8-10"	24"	-
CHASMANTHIUM ☼☾ <i>A woodland, warm-season grass known for its narrow, bamboo-like foliage. Tolerate of some shade, as well as coastal salt air.</i>						
Latifolium 'Northern Sea Oat'	<i>A clumping grass with showy, drooping flowers and unique bamboo-like foliage. Seed heads can be harvested for bouquets.</i>					
	Green to tan	Green	July	2-3ft	36"	-

BROWNRIDGE greenhouses & nursery ltd.

Phone: (905)878-1948/(905) 459-1314 Toll Free: 1(800) 551-0176 Facsimile: (905) 878-9511 e-mail: info@brownridgegreenhouses.com

PERENNIAL ORNAMENTAL GRASS

Variety	Flower Colour	Foliage Colour	Height	Space	3.5" pot 18/tray	5.5in Pot
DESCHAMPSIA cespitosa ☼ Zone 4 <i>Grown for its mat, neat mounds of arching slender foliage and graceful, airy panicles. It does best in moist soil.</i>						
Cespitosa (Tufted Hair Grass)	<i>Tufted hair grass is clump-forming, cool season grass. Numerous flower stems rise in summer from the foliage mound. Airy panicles of tiny, variably coloured flowers (tones of gold, silver, purple and green) form a cloud over the foliage that is particularly attractive when backlit.</i>					
	Green to gold	Green	July	36"	24"	-
Cespitosa 'Goldtau'	<i>Smaller, more compact variety with very dark-green leaves, later blooming habit, and golden inflorescence. High impact can be obtained by mass planting along a driveway or walkway.</i>					
	Green to gold	Green	July	12-24"	18"	-
Cespitosa 'Northern Lights'	<i>Slender foliage is green and cream white with tinges of pink.</i>					
	Tan	Green/cream	July	18-24"	24"	-
Cespitosa 'Pixie Fountain'	<i>Dense evergreen foliage clumps produce bright silvery-white flowers that mature to rich brown. A dwarf selection, less than half the height of the species</i>					
	Silver-white	Green	July	16-24"	18"	-
FESTUCA ☼ Zone 4 <i>Plants often look best if flowers are sheared off upon drying. Common blue fescue makes a superb color accent and grows well in containers. A cool-season grower, it often sulks during hot, humid summers.</i>						
Blue Whiskers	<i>Taller more rigorous than 'Elijah blue' with longer leaves and a brighter, silvery blue foliage colour</i>					
	Tan	Blue	July-August	10-12"	10"	-
Elijah Blue	<i>Soft powdery blue, spiky foliage forms a rounded clump and keeps its colour all year. A durable and long-lived variety.</i>					
	Tan	Blue	July-August	8-10"	10"	-
HAKONECHLOA (Japanese Forest Grass, Hokone Grass) ☼●● Zone 5 <i>The ideal grass for the shade garden with its graceful arching foliage that resembles a small clumping bamboo. Foliage turns colour in the fall. A nice mix with Hostas.</i>						
All Gold	<i>Brilliant solid gold foliage glows in the shade. Has a more upright habit and increased vigor compared to 'Aureola'. Reddish brown plumes. insignificant</i>					
		Gold	-	9-14"	18"	-
Aureola	Perennial Plant of the Year 2009! <i>Green and yellow variegated foliage forms a cascading clump like a golden waterfall. Reddish pink fall colour. Spreads but not invasive. insignificant</i>					
		Yellow/green	-	12-24"	18"	-
Macra	<i>This green-leaved form of Hakone Grass may have been overlooked while variegated and gold cultivars grabbed the spotlight. But the species offers a tranquil green often needed in landscape design. In addition, Hakonechloa macra tolerates more sun and drier soil, and it is hardier and faster growing than most of its cultivars. It grows in a mounding, cascading shape, and spreads very slowly by rhizomes. insignificant</i>					
		Green	-	8-12"	18"	-
Sunflare	<i>This stunning form of Hakonechloa macra is a sport selected from the popular cultivar 'All Gold' and boasts vibrant, cascading, chartreuse leaves that with more sun become intense golden yellow, randomly highlighted in deep crimson. Fall colouring is a combination of chartreuse and gold saturated with tones of burnt orange and burgundy-red. This neat, strong-growing grass has a compact habit and forms an upright mound with graceful cascading foliage. insignificant</i>					
		Cream/green	-	8-12"	18"	-
HELICTOTRICHON (Blue Oat Grass) ☼ Zone 3 <i>A tidy grass grown for its gray blue foliage that is useful in beds, borders and containers.</i>						
Sempervirens	<i>Dense mounds of blue-grey leaves gently spray upward and arch back downward at the tips. Small tan seed head appear on tall stems held well above the foliage. Resembles a tall Festuca. Tan</i>					
		Blue	June	24-30"	18"	-
Sempervirens 'Sapphire'	<i>Similar to sempervirens but shorter. Bright steel blue leaves tend to widen as they mature. Resistant to rust. Tan</i>					
		Blue	June	18-24"	16"	-
HOLCUS (Velvet Grass) ☼ Zone 5 <i>An attractive and bright, low-growing grass that is best as a low edging for the border. Performs best in regions with cool summers. In warm areas expect the clump to look untidy in summer when a good shearing back is required. Nice in spring and fall, this is very effective as an under planting to early blooming bulbs.</i>						
Albo-variegatus	<i>Plants form a creeping mat of narrow green leaves, neatly striped lengthwise with white. -</i>					
		Green/white	-	8"	24"	-
IMPERATA (Japanese Blood Grass) ☼● Zone 5 <i>An unusual and dramatic grass, slowly forming a low clump. Effective as an edging, in the rock garden, and especially when mass planted. Although this prefers moist soil, plants require good drainage, especially in winter. Remove any all-green shoots if they appear.</i>						
Red Baron	<i>Leaves are green at the base, with red tips that become more intense over the summer and fall until they appear to glow. -</i>					
		Green/red	-	20"	12"	-
JUNCUS ☼ Zone 6 <i>Native to damp places, Juncus prefers moist sites and is an excellent edging for ponds and streams. Not a true grass, it has mostly inconspicuous green or brown flowers in small clusters.</i>						
Effuses 'Spiralis'	<i>Deep green, spiralling, tubular stems. Insignificant</i>					
		Green	-	18-24"	12"	-

PERENNIAL ORNAMENTAL GRASS

Variety	Flower Colour	Foliage Colour	Height	Space	3.5"pot 18/tray	5.5in Pot
LEYMUS ☼ Zone 3 <i>Grown for its foliage, this is a spreading grass that needs to be used carefully. Best to contain this in a planter, or use as a groundcover in a large sunny area. Mow the old foliage to the ground in late fall or early spring. Very drought tolerant. Can be invasive.</i>						
Blue Dune	Beautiful steel-blue foliage. Arching tan spikes appear in summer are often removed.	Steel-blue	36"	36"	-	-
MISCANTHUS ☼ ☾ Zone 4-5 <i>One of the showiest of the grasses. Large or short, it is grown for its vertical or mounding habit and showy, fluffy flower panicles that are so striking in late summer and fall. Fond of moist sites.</i>						
Adagio (Dwarf Maiden Grass) Zone 6	Hundreds of plumes held above the foliage emerge bronzy-pink, fading to white. A dwarf plant with graceful, silvery-green arching foliage becoming a whirl of orange, gold and burgundy in fall.	Bronze-white	Silver- Green	September	4-5ft	24"
Autumn Light	Pinkish-red feathery plumes emerge high above green, finely textured foliage that turns shades of yellow, gold and burgundy in fall. The foliage, if left to grow tall, provides winter interest and can be used as shading or screening. Moderate growth rate.	Pink	Green	September	4-8ft	36"
Cabaret	A wide leaf slightly arching grass that grows to 6 feet tall. Cream stripes run down the middle of the blades. The copper-coloured flowers appear in the fall and mature to a cream color.	Copper to cream	Green	September	6ft	36"
Cosmopolitan	Wide, robust leaves of creamy white and green variegation. Non-floppy habit. Billowy texture, silky tassels, many different heights and colorations. Great winter interest.	White	Green/white	September	6-7ft	36"
Dixieland	A dwarf form of 'Variegatus'; similar green and white variegated foliage. Silky pink plumes.	Pink	Green/white	August	4-5ft	24"
Giganteus (Giant Silver Grass)	This is a grass of monstrous proportions, forming very tall clumps of green leaves, their tips arching gracefully in layers. Useful as a living screen or hedge, bearing soft-pink plumes in the fall. The corn-like stalks turn creamy tan in winter. Lower leaves have a tendency to wither in late summer, so planting something tall in front is recommended. Plants require plenty of moisture and are even happy growing beside water.	Pink	Green	September	10ft	36"
Gold Breeze	Green tapered foliage with broad, creamy-yellow bands. Purple-red flower tassels in late summer.	Purple-Red	Green/gold	September	60-72"	30-36"
Gracillimus (Maiden Grass)	Beautiful rounded mounds of fine, silver-veined, green leaves with an arching habit. Fan-like plumes emerge with a reddish tint, then age to a soft silvery-white and remain all winter.	Reddish to white	Green	September	5-6ft	24"
Graziella	Fine green blades, more erect and arching than 'Gracillimus'. Tall plumes in August. Red-orange colour in fall.	Reddish to white	Green	August	5-7ft	24"
Huron Star	Compared to the older cultivar 'Silberfeder' this grass is similar with a few notable improvements such as a stronger and more upright habit, purple flowering stems, and brighter fall colour. In the fall foliage turns colourful shades of red, orange, burgundy and gold	Creamy-tan	Green	August	7-8ft	6ft
Huron Sunrise	The most profusely blooming Miscanthus. Full, burgundy plumes sweep the sky and remain standing through winter. Mid-green leaves with silver midrib.	Burgundy	Green	August	5-6ft	36"
Little Miss	This series sports a neat, compact habit with glossy, arching foliage. The blades emerge green and transition to carmine and purple tones late spring through summer. Foliage at the center of the clump stays green, giving it an appealing, two-toned look. Reddish blooms appear in midsummer, rising above the foliage and turning buff-colored as they age. Fall color is outstanding; an excellent alternative to M. 'Purpurascens' when space is limited.	Tan-white	Green	August	24"(36")	15"
Little Zebra (Dwarf Zebra grass)	Like 'Zebrinus' but shorter and more upright. Reddish-purple plumes turn to creamy tan in winter.	Red to tan	Gold/green	August	3-4ft.	24"
Malepartus	Large soft-pink flowers, maturing to silvery-white, over an arching mound of dark green leaves. The foliage dries and turns a light tan shade for the winter.	Pink to white	Green	August	7ft	36"
Morning Light	Narrow leaves with fine green and white variegation. A late-bloomer. Plumes emerge bronze red, turning cream as they age.	Bronze to cream	Green/white	Late Sept.	4-5ft	24"
Oktoberfest	The wide, deep green leaves with a white midrib form a narrowly upright tower about 4 1/2' tall before blooming. In late summer or early fall, the foliage develops deep purple and red highlights which complement the showy flowers that emerge a rich shade of shimmering burgundy and copper, then mature into fluffy, creamy tan seed heads.	Burgundy-tan	Green/yellow	August	6-7ft	36"
Purpurascens (Flame Grass)	Forms an upright clump of foliage which starts out green, then takes on a reddish hue later in summer. Brilliant fall colour. Magenta coloured fans turn into bright silky white panicles.	Magenta to white	Green to red	August	4-6ft	18"
Silberfeder (Silver Feather Grass)	Large, feathery plumes emerge pinkish-silver in late summer. They stand well above the clump of foliage. Leaves have narrow, white mid-ribs. Leaves tend to arch downward.	Silver	Green	August	8ft	4ft
Strictus (Porcupine Grass)	Distinctive yellowish-white, horizontally banded leaves. Similar to 'Zebrinus' but has an upright habit instead of arching downward.	Tan	Green/gold	September	4-6ft	24"

PERENNIAL ORNAMENTAL GRASS

Variety	Flower Colour	Foliage Colour	Height	Space	3.5" pot 18/tray	5.5in Pot
MISCANTHUS ☼ ☾ Zone 4-5 <i>One of the showiest of the grasses. Large or short, it is grown for its vertical or mounding habit and showy, fluffy flower panicles that are so striking in late summer and fall. Fond of moist sites.</i>						
Tiger Tail	<i>Uniform green and yellow banded blades. A cross of M. 'Cosmopolitan' and M. 'Strictus' yields a strongly upright, yet gracefully flowing stand.</i>					
	Tan	Green/yellow	September	5-7ft	36"	-
Variegatus (Striped Eulalia Grass)	<i>Wide, green and white striped leaves have a silvery glow when seen from a far. Cascading habit. Red tinted plumes become fluffy as they age.</i>					
	Red tinted	Green/white	September	5-7ft	36"	-
Zebrinus	<i>Has large coppery flowers over an arching clump of green leaves, uniquely banded with yellow. The foliage dries and turns a light tan shade for the winter.</i>					
	Copper	Green/gold	September	7-8ft	30"	-
MOLINA (Moor Grass) ☼ Zone 4-5						
Skyracer (Purple Moor Grass)	<i>Forms an upright clump of narrow, blue-green blades. In August, airy plumes of tan-purple flowers rise on upright stems well above the foliage. The entire plant turns yellow in fall.</i>					
	Tan-purple	Green	August	5-7ft	24"	-
Variegata	<i>Graceful clumps of fine blades heavily striped with yellow and a purple-red inflorescence will appear in mid-July</i>					
	Purple-red	Yellow/green	Mid-July	24-36"	18-24"	-
MUHLENBERGIA ☼ Zone 6						
Fast Forward	<i>Clumps of glossy green foliage are topped with vibrant pink, airy flowers on 4 ft stems as early as August. A highly ornamental grass that would be great as a specimen or in mass plantings.</i>					
	Pink	Green	August	4ft	18"	-
Undaunted	<i>A warm season grass of exceptionally fine texture. Narrow green foliage creates a rounded, arching habit. In early fall sprays of rosy pink flowers spread over the plant. UNDAUNTED® is notable against previous cultivars for being more cold hardy and having a deeper shade of flower color.</i>					
	Pink	Green	August	30"	30"	-
PANICUM (Switch Grass) ☼ Zone 4 <i>Switch Grass is one of the easiest and most attractive ornamental grasses, with no tendency to spread or become troublesome. Usually attractive in the garden all winter long. Flowers are good for cutting, fresh or dried. Trim back to the ground in early spring. Drought tolerant once established.</i>						
Cheyenne Sky	Proven Winner Variety! Sold in PW pot. <i>Forms a dense, upright clump of blue-green leaves that turn wine red in early summer. Purple flower panicles appear just above the foliage in late summer. This petite red grass is ideal for containers.</i>					
	Reddish	Blue	August	3ft	14"	-
Heavy Metal (Blue Switch Grass)	<i>Handsome grass with stiff, metallic blue leaves that form a rigidly upright clump. Delicate pink panicles dance 12-16" above the foliage. Turns bright yellow in the fall.</i>					
	Pink	Blue	August	5-6ft	24"	-
Hot Rod	<i>Blades emerge blue-green and rapidly turn deep rich maroon. Panicles are airy red. Compared to other Panicums, this one colours earlier in the season</i>					
	Soft cream-tan	Blue-green/Marron	August	36-40"	24-36"	-
Northwind	Perennial Plant of the year 2014! <i>A very strong, upright grower with wide, steel-blue foliage. Flower panicles occur in the middle of the clump, appearing as a hovering red haze. Foliage turns golden-yellow in fall.</i>					
	Reddish	Blue-green	August	7ft	24"	-
Prairie Sky	<i>Forms an arching clump of steel-blue leaves, bearing airy beads of tiny green flowers in August. Fall colour is bright butter-gold, fading to tan.</i>					
	Green	Steel blue	August	3-4ft	24"	-
Red Flame	<i>A boldly colored grass with native roots, 'Red Flame' is primed to set your garden ablaze in late summer. This warm season grass emerges with blue-green foliage before turning almost completely wine red by summer's end. Compared with classic varieties like 'Shenandoah', 'Red Flame' has a greater saturation of red color on each leaf and incredible vigor. Use this grass for its color, texture, and durability in the landscape.</i>					
	Reddish	Green/red	August	3ft	24"	-
Shenandoah	<i>Forms an upright clump of green leaves with distinctive red tips appearing by midsummer. Airy beads of tiny reddish flowers appear in August, followed by amazing deep purple-red fall colour.</i>					
	Reddish	Green/red	August	3ft	24"	-

BROWNRIDGE greenhouses & nursery ltd.

PERENNIAL ORNAMENTAL GRASS

Variety	Flower Colour	Foliage Colour	Height	Space	3.5"pot 18/tray	5.5in Pot
PENNISETUM (Fountain Grass) ☼ Zone 5 <i>Warm-season grasses grown for their wonderfully soft, feathery, bottlebrush flowers in summer. They are clump forming and come in a range of sizes and colours.</i>						
Alopecuoides	<i>A clumping selection with finely textured, glossy, bright green foliage. Turns gold in fall. Plumes emerge reddish-brown maturing to tan.</i>					
	Red to tan	Green	August	3-4ft	24"	-
Dessert Plains	Proven Winner Variety! Sold in PW pot. <i>This large fountain grass makes a great focal point in a sunny landscape. It is easy to grow as long as full sun is provided. Many consider it to be the best hardy Pennisetum available today. It has an improved habit, flowering performance, and fall color, over 'Cassian' and 'Hameln'.</i>					
	<i>The finely textured, narrow, green leaves form a beautiful upright vase-shaped clump. Beginning in midsummer, the tips of the foliage begin to turn deep red and the entire clump transitions to shades of orange and gold in fall. Showy 5" bottlebrush plumes held above the foliage emerge smoky purple and age to tan.</i>					
	Purple-Tan	Green	July	3-4ft	36"	-
Hameln (Dwarf Fountain Grass)	<i>Finely textured, mid-green leaves. Compact. Soft greenish-cream panicles appear a few weeks earlier than others.</i>					
	Green-cream	Green	July	2-3ft	18"	-
Karley Rose Zone 6	<i>Forms an upright clump of arching dark-green leaves, with bottlebrush spikes of soft-pink flowers from midsummer into the autumn</i>					
	Pink	Green	August	36"	24"	-
Little Bunny (Miniature Fountain Grass)	<i>Truly miniature. The tufted, cream seed heads look like little bunny tails. Excellent in rock gardens.</i>					
	Cream	Green	August	6-12"	8"	-
Moudry	<i>A clump-forming perennial grass with glossy, arching, linear leaves and cylindrical panicles of bristly, deep purple spikelets in late summer</i>					
	Purple	Green	July	3ft	24"	-
Red Head	<i>An early form of red-flowering Pennisetum. Deep purple buds mature to smoky purple plumes that measure 3" wide and 8-10" long. Foliage turns gold in the fall.</i>					
	Purple	Green	July	3-4ft	24"	-
PHALARIS ☼ Zone 3 <i>This is a spreading grass, forming a wide patch of medium height. Choose a site where this grass can wander freely, or plant in tubs and containers. Often this will benefit from a hard clip back in midsummer, just as the flower spikes appear, in order to rejuvenate the foliage. Easily divided in spring or fall. Loves moisture.</i>						
Picta	<i>Leaves are striped lengthwise with light green and creamy-white. Tan spikes appear in summer.</i>					
	Tan	Green/cream	July	36"	36"	-
Strawberries and Cream	<i>Multi-coloured fine-textured leaves, blushed pink in spring, turning white in summer.</i>					
	White	Green/white	July	36"	36"	-
SCHIZACHYRIUM (Little Blue Stem) ☼ Zone 3 <i>Grows in hot dry areas where many other plants can not grow. Primarily grown for its foliage colour – its fall colour is outstanding.</i>						
Blue Heaven	<i>A taller, more upright habit that does not tend to flop like the species. In the summer, the foliage color is a brighter steel blue color with purple highlights, looking almost iridescent up close. From late summer through early fall, glossy purple panicles appear with fluffy tan seeds attached.</i>					
	Purple	Blue	August	42"	30"	-
Blue Paradise	Proven Winner Variety! Sold in PW pot. <i>The habit is very upright and columnar, and maintains its upright habit through fall. At 3 1/2' tall, this grass will be the perfect backdrop to your garden. True to its name, 'Blue Paradise' has striking silvery blue stems in summer. In the fall, this grass takes center stage as the leaves develop a deep wine purple color. Tiny tan seed beads appear on the top half of the stems in early fall.</i>					
	Tan	Silver blue	August	42ft	24"	-
Brush Strokes	Proven Winner Variety! Sold in PW pot. <i>Like bristles on a paint brush the stems of 'Brush Strokes' stand vertical, bend gracefully with the wind, then return to their upright position. Powder blue stems take after their namesake before turning wine-red in early fall. Use this native perennial grass for its fine texture in summer then leave it standing in fall for winter interest.</i>					
	Tan	Blue	August	32"	22"	-
Prairie Blues	<i>Bright grey-blue foliage and red-orange fall colour. Fluffy, silver seed beads. Narrow, upright habit.</i>					
	Silver-white	Grey-blue	August	3ft	18"	-
Smoke Signal	<i>This selection of our native Schizachyrium has a beautifully refined habit and puts forth a strong show of color in late summer and fall. The glaucous blue-green foliage begins to take on scarlet red tones in late summer, turning a deeper red-purple through the fall. Tiny, tan seed heads appear in early fall on the top half of the stems. An improvement over older cultivars, this grass maintains its strictly upright habit through fall.</i>					
	Tan	Grey-blue	August	3-4ft	24"	-
SELSLERIA (Autumn Moor Grass) ☼ Zone 4						
Autumnalis	<i>Bright lime green foliage and small, frosty-white flower spikes. Excellent groundcover when massed planted. Likes rocky sites.</i>					
	White	Lime green	September	20"	12"	-
SORGHASTRUM (Indian Grass) ☼ Zone 4 <i>A colourful selection of a grass native throughout the tall grass prairies of central North America. Very drought tolerant once established, and tolerant of a wide range of soil conditions. Flowers are good for fresh or dried cutting. Winter interest is good, at least into the new year. Cut the dead foliage back to the ground in late winter or early spring. Clumps may be easily divided in spring. Self sown seedlings may appear.</i>						
Indian Steel	<i>Forms a non-invasive clump of steely blue-green leaves, with long and narrow tan-coloured spikes.</i>					
	Tan	Blue	August	3-5ft	24"	-
